prisoners have been taken by the Franco-American soldiers. Strong German counter-attacks have been repulsed and the Allied troops hold firmly to the ground After the capture of Vaux and adjacent strong points, the Americans withstood violent enemy reactions, but the German efforts were of no avail. Further attempts probably will regain Vaux, which is an important point in the battle front between Sois sons and Chateau Thierry, the nearest the Germans have ap-

proached to Paris. Meanwhile the American artillery is bombarding heavily the German positions on Hill 204, cast of Vaux. For a week now the French

have been driving the Germans out of positions between the

Aisne and Villers-Cotterets. The latest gain was the village of St. Pierre Aigle, immediately north of the forest of Villers-Cotterets. North of the Aisne the French have withstood attacks against Vingre.

On the British front only the artillery has been active. British aviators, however, continue to be most busy. Forty-two German airplanes and balloons were accounted for in actions Monday, while much bombing, reconnais-sance and photography work was accomplished. Mannheim, Coblenz, Treves and Thionville, all in

Germany, have been attacked by British squadrons. Continuing their local attacks on the mountain front, the Ital-ians have gained ground in the northwastern part of Montee northwestern part of Monteg Grappa, between the Brenta and the Piave, and taken nearly 600 prisoners. Monte Grappa is the key position between the rivers, and is east of and across the Brenta from the heights gained Saturday and Sunday. East of Asiago the Italians have repulsed Austrian attacks against their new positions, and captured 100 pris-oners, bringing their total cap-tures since Saturday to more than 2 700

Important changes have been made in the Austro-Hungarian army command, probably as a re-sult of the grave repulse along the Piave. General von Below, a German, has been appointed to the supreme command, while the supreme command, while Field Marshal Ars von Straussen-burg, the chief of staff, has been replaced by General Krauss. German and Finnish troops are reported moving rapidly toward the Murmansk coast where Brit-ish, French and American forces are guarding Allied supplies in-tended for Russia. The frontier has been crossed by the invaders and clashes have occurred with Russian troops guarding the Mur-mansk railway. The Germans are

Washington, July 3.—Senator Ben Tillman of South Carolina, died this morning at 4.20 o'clock. Senator Tillman suffered a cerebral hemorrhage last Thursday and had been in an unconscious condi-tion since that time. The stroke affected the entire left side. He had been a member of the United States Senate since 1894. His term would have expired March 3, 1919.

Benjamin Ryan Tillman was on of the most extraordinary members of the United States Senate in which body he served continuously for 24 years. During the latter part of his service he was chairman of Naval Affairs Committee of the Senate and his work in that position after the United States entered the great war was considered by his colleagues to be of great value.

As a senator Mr. Tillman quickly won a wide reputation through the country for plainness and bluntness of speech, which combined with his apparent rough exterior and some-what careless manuer of dress made him a unique figure in Congress. Within a month after he took his
