

WOMAN AVOIDS OPERATION

Medicine Which Made Surgeon's Work Unnecessary.

Astoria, N. Y. — "For two years I was feeling ill and took all kinds of tonics. I was getting worse every day. I had chills, my head would ache, I was always tired, I could not walk straight because of the pain in my back and I had pains in my stomach. I went to a doctor and he said I must go under an operation, but I did not go. I read in the paper about Lydia E. Pinkham's Vegetable Compound and told my husband about it. I said 'I know nothing will help me but I will try this.' I found myself improving from the very first bottle, and in two weeks time I was able to sit down and eat a hearty breakfast with my husband, which I had not done for two years. I am now in the best of health and did not have the operation." — Mrs. JOHN A. KOENIG, 502 Flushing Avenue, Astoria, N. Y.

Every one dreads the surgeon's knife and the operating table. Sometimes nothing else will do; but many times doctors say they are necessary when they are not. Letter after letter comes to the Pinkham Laboratory, telling how operations were advised and were not performed; or, if performed, did no good, but Lydia E. Pinkham's Vegetable Compound was used and good health followed.

If you want advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

ITEMS FROM THE DIGBY COURIER

One shipper from the Annapolis Valley has signed a contract with the British army to supply immediately one thousand tons of hay and after comparing rates via Halifax and via St. John, has decided to ship by the latter route. The shipments will come to Digby by rail and sent to St. John by the C. P. R. bay steamer Yarmouth.

Some uneasiness is felt for the barque Kremlin, which sailed from Boston on October 22, for Rosario, lumber laden, she being now 89 days out. The barque has the reputation of being a fast sailer, and it is believed she has encountered rough weather and been driven off her course. The Kremlin is commanded and partially owned by Capt. A. W. Warner, of Plympton, whose wife and family reside in that village. He is a son of Mr. Jas L. Warner, of Plympton, and the eldest brother of Mr. Edgar Warner of Digby.

FROZEN TO DEATH

A despatch to the Herald from Charlottetown says:—The remains of Napoleon Curry, aged 58, of Skinner's Pond, were found on the road near Tignish, Wednesday. He was frozen to death. He left Tignish on Monday night, with the temperature 10 below zero, to walk home. He leaves a widow and eight children.

COLONEL TREMAIN IS ON WAY HOME.

Ottawa, January 20—Lieut. Colonel H. B. Tremain left for Nova Scotia this afternoon to visit the detachments of the 112th Battalion at the various centres, and look after the completion of details of its organization and mobilization, which now reaches about 900 men. General Sam Hughes informed The Herald this evening that Major Muirhead had been recalled from the front to take the second in command of the battalion.

MONCTON MEN WIN GREAT HONORS IN WAR.

It is officially announced that Lt. Frank Harvey Tingley has been awarded the Military Cross and that Private Vaughan, Arthur Blakney has also been awarded the Distinguished Conduct Medal. Both are members of Major Anderson's battery of Moncton.

The Peps way of treating coughs, colds, bronchitis and lung and throat troubles. How? Well, up to now people with these chest and throat troubles have swallowed cough mixtures, sickly syrups and the like, into their stomachs. Sore lungs and throat get no good by dosing the stomach. Peps work differently. Peps are tablets made up of fine extracts and medicinal essences which when put into the mouth turn into healing vapors. These are breathed down direct to the lungs, throat and bronchial tubes—not swallowed down to the stomach, which is not ailing. Try a 50c. box of Peps for your cold, your cough, bronchitis or asthma. All druggists and stores or Peps Co., Toronto, will supply.

HORTON FLOUR

"From No. 1 hard"

That designation means a whole lot when it is lived up to, as it is in Horton Flour. It means the very finest Canadian wheat; it means greater strength and more nutritive value in your bread; and it means more loaves of crisp, appetizing texture and snowy-whiteness.

By looking for the trade-mark on the bag you make sure of getting all the goodness that the term "No. 1 hard" implies.

LOGWOOD SUPPLIES FOR CANADA.

The situation with regard to the shipment of logwoods and dyes from Jamaica has been at last cleared up and Jamaica has now issued general licenses allowing the shipment of wood chips and extracts to all British French, United States and Italian ports.

Canadian interests have been secured in so far as what is necessary for their reasonable requirements from the United States. Logwood is permitted free transportation to Canada.

Breaking It Gently

Two friends—a Londoner and Scotsman—happened to be lunching together recently in a certain restaurant. The latter, true to his natural habit, kept turning round to see that his hat and coat remained still on the peg where he had left them.

"You are a suspicious chap," said his friend at last. "Who do you think is going to walk in here and steal our coats?"

"Can't say," replied the Scotsman; "but I'll take good care that nobody gets mine! Yours went about ten minutes ago!"

HOW JAPAN AIDS THE ALLIES

The Tokio correspondent of the Petit Parisien recently asked the Japanese Minister of Foreign Affairs, Baron Ishii, what Japan was doing to help her Allies. The Baron replied: "Japan has furnished and will furnish an ample supply of arms and munitions to Russia. Two Japanese arsenals are working incessantly, producing immense quantities. Russia has no need of men, since only a third of the men mobilized are under arms. By the end of December Japan will have done much to arm the other two-thirds."

Hitherto we have not considered the eventuality of sending an army to Europe, but, if it appeared desirable, Japan could immediately despatch a very strong force as she would not run the risk of a defeat."

ENEMY'S TRENCHES WERE DAMAGED.

London, Jan. 24—The following official communication was made public this evening: "Last night we exploded a mine near St. Eloi, damaging the enemy's trenches considerably. A small patrol passed through the enemy's wire entanglements near Verlehenhoek, and fired into a trench which was strongly held, retiring without casualties."

"Today the artillery on both sides has been active about Loos. We carried out a successful bombardment on the enemy's trenches northeast of Armentieres, doing considerable damage."

"There has been a bombardment about Hooze, St. Jean and Pilkem (in the vicinity of Ypres. Near the latter place we silenced the enemy's trench mortars with our artillery fire."
