Further information and advertising literature can be obtained at the office of the

Union Carriage Co. Limited, KENTVILLE, N. S.

Style of firm will be announced in this space next week

CANADA faces the gravest crisis in her history. Four years of war have taken from the Dominion a heavy toll in talent and labor, yet despite the shortage of man power, our Allies still depend on Canada to maintain her own fighting forces at full strength and to increase her exports of food and war materials, so vital to them, and to the successful prosecution of the war.

Every ounce by which Canada can increase her food production and every ounce Canada can save in her food consumption is needed for export to the Allies.

Should the war continue for another year, food cards and a rationing system may have to be instituted. It is the duty of Canada to be prepared for whatever situation circumstances may force upon her.

It is quite probable that before the war is won our Government may have to place restrictions upon the occupations in which men and women may engage. In such an experience of the possible assistance in

restrictions upon the occupations in which men and work event the Government wishes to be in a position to re-keeping our population usefully and profitably employed. Registration Day, June 22nd

uthority of Canada Registration Board
