BOERS SCRAPPING.
Escaped Prisoners Say They Will All Surrender

In the Course of a Few Days—A Battle in Which the Enemy Lost Heavily.

London, Sept. 17.—A Durban despatch says that the transport Matabele arrived there yesterday with eight-two British prisoners. They were much emaciated and were suffering from ill treatment at the hands of the Boers. They said the conditions were unbearable, and that the British were treated as prisoners of war. Sixteen prisoners have been killed or wounded while attempting to escape. They say there have been inter-Boer quarrels and bloodshed among the Boers over the flight of the Brits. There are many desertions daily, and it is probable, according to stories told by these men, that there will be a general surrender in a few days.

The Daily Telegraph publishes the following from Lorenzo Marquez, dated yesterday: "A pitched battle has been fought mid-way between Kaap Muiden and Hector-spruit, resulting in heavy Boer losses. The Boers removed, and are threatening to destroy the cog-wheels of locomotives used between Watervalboven and Watervalonder, without which the railway cannot be worked. They have blocked and damaged the railway for six miles on the Crooked River section, have destroyed the culverts and the Hector-spruit bridge and looted and burned Komatiport. The British are now at Komatiport, and heavy fighting is proceeding. It is rumored that Steyn has arrived here."

ADJUDICATED A BANKRUPT.
Duke of Manchester Will not Attempt to Compound With His Creditors.

London, Sept. 19.—The Duke of Manchester has concluded that it is unwise to attempt to compound with his creditors and has signed his consent to be adjudicated a bankrupt. During the course of his statement to the court the Duke says the family estates of which he is a life tenant are so heavily encumbered that the receipts only suffice to pay the interest. He adds that since taking the majority, his relatives have allowed him £70 monthly, but that his expenditure has been from £1,500 to £2,000 a year. In addition to his known liabilities of £15,000 there are very many acceptances outstanding, the amount and whereabouts of which he has no knowledge.

A deputation of the town council, consisting of Mayor and Councillors, waited upon the Mersea council to obtain permission to put down a gas well on an old unused road on the Lake Shore. The council granted permission on condition the town pays \$50 a year if gas is struck. This is generous from the council of Mersea who gives to every gas company that comes along, franchises and rights to pipe and use every road in the township for absolutely nothing.

During the holiday the interior of the church has been very much improved by fresco painting and other improvements. It is now one of the prettiest churches to be seen anywhere.

THEORIES ABOUT FOOD.
Also a Few Facts on the Same Subject.

We hear much nowadays about health foods and hygienic living, and vegetarianism and many other fads along the same line.

Restaurateurs may be found in the larger cities, where no meat pastry or coffee is served, and the food cranked in his glory, and arguments and theories galore advanced to prove that meat was never intended for human stomachs, and almost make us believe that our sturdy ancestors who lived four score years in robust health on roast beef, pork and potatoes must have been grossly ignorant of the laws of health.

Our forefathers had other things to do than formulate theories about the food they ate. A warm welcome was extended to any kind from bacon to acorns.

A healthy appetite and common sense are called for to follow in matters of diet, and a mixed diet of grains, fruits and meats is undoubtedly the best.

As compared with grains and vegetables, meat furnishes the most nutriment in a highly concentrated form and is assimilated more quickly than vegetables and grains.

Dr. Julius Henmann on this subject says: "Nervous people, people run down in health and of low vitality, should eat meat, and plenty of it. If the digestion is too feeble at first it may be easily corrected by the regular use of Stuart's Dyspepsia Tablets after each meal. Two of these excellent tablets taken after dinner will digest several thousand grains of meat, eggs or other animal food in three hours, and no matter how weak the stomach may be, no trouble will be experienced if a regular practice is made of using Stuart's Dyspepsia Tablets, because they supply the pepsin and diastase necessary to perfect digestion, and every form of indigestion will be overcome by their use.

The large class of people who come under the head of nervous dyspeptics, should eat plenty of meat and insure its perfect digestion by the daily use of a safe, harmless digestive medicine like Stuart's Dyspepsia Tablets, composed of the natural digestive principles, pepsin, diastase, fruit acids and salts, which actually perform the work of digestion. Cheap cathartic medicines, masquerading under the name of dyspepsia cures are useless for indigestion, as they have absolutely no effect upon the actual digestion of food.

Dyspepsia in all its many forms, is simply a failure of the stomach to digest food and the sensible way to solve the riddle and cure the dyspepsia is to make daily use at meal time of a preparation on Stuart's Dyspepsia Tablets, which is endorsed by the medical profession, and known to contain active digestive principles.

All druggists sell Stuart's Dyspepsia Tablets at 50c for full treatment.
