PSYCHINE

(Pronounced Si-KEEN.)

FOR ALL THROAT AND LUNG TROUBLES

TWENTY-FIVE YEARS' SUCCESSFUL RECORD

MONEY can buy advertising space, but it can't buy a quarter century's successful record of wonderful and almost miraculous cures of the most difficult and intricate cases of throat, lung and stomach troubles. Such is Psychine's record. Thousands of cases given up by leading doctors as hopeless and incurable have been quickly and permanently cured by Psychine. It is an infallible remedy for coughs, colds, bronchitis, pneumonia, consumption, indigestion, loss of appetite and all wasting diseases.

"My son had a terrible cough and was wasted to a shadow. Doctors said he could not live. He used Psychine, it cured him."—Mrs. J. Bangs, Brockville.

"After taking \$5.00 worth of Psychine my lungs are well and life is again worth living."—Mrs. L. Rich, Mrs. Martineau, N.E.

"My lungs are now sound as a bell after using Psychine."—H. Robbins, Bridgeburg, Ont.

"Psychine saved my life."—A. Walden, 7 Cornwell St., Toronto.

His Absent Ducal Mind.

The Grand Duke of Saxe-Weimar, who is the next heir of Queen Wilhelmina, is a wealthy young prince, twenty-eight years of age, unmarried and has in Germany a reputation for perpetrating "bulls." Once while visiting a public school he noticed two boys of striking similarity in appearance.

"Why, what a remarkable likeness!" he exclaimed. "These lads must surely be twins."

"Yes, your royal highness," remarked the principal, and he beckoned the two frightened youngsters to him.

"Ah," said the prince, placing his hand on the head of one of them, "what is your name?"

"Heinrich."

"And how old are you?"

"Six," answered the boy.

"And you?" he said, turning to the other lad.—Harper's Weekly.

Why She Died.

Teacher (to class in Shakespeare)—Now, Henry, what was the cause of Cleopatra's death?

Pupil—Indigestion.

Teacher (angrily)—Henry Perkins! What do you mean by giving me such an absurd answer?

Pupil—Well, anyway, she died because she had a bite before retiring.—Boston Evening Transcript.

Proper For Him.

"You announced the text of your sermon," said the cranky old deacon, "as 'Let not your right hand know what your left hand doeth.'"

"Well," replied the new minister.

"Well, it should have been, 'Let not your left hand know what your right hand doeth.'"

"But I'm left handed."—Catholic Standard and Times.

Your Hair At Home?

Or has your comb run away with it? Better look out for what's left of it, and keep it at home on your head, not in the comb. Ayer's Hair Vigor will act as "keeper." If you have a particle of doubt about using this splendid preparation, let your doctor decide for you. We publish the formulae of all our preparations.

Labor Act in Operation—Quebec Contracts Criticized.

Ottawa, April 9.—In the House of Commons yesterday morning Hon. Mr. Lemieux stated that through the operation of the new Labor Act the strike of 700 coal miners at Springhill, Nova Scotia, had been ended.

The parties to this dispute were not at first aware that the compulsory investigation bill had passed Parliament, but when they became so aware, the men went back to work pending a settlement. Mr. Heron thereupon urged enforcement of the act in the case of the strike now in progress at Taber, Alberta.

In reply to Col. Hughes, Mr. Fielding related the "facts" of the retirement of Lord Aylmer, as shown in the records. Mr. Bennett asked if Col. Vidal would be retired in two years' time, and Mr. Fielding replied: "Sufficient unto the day is the good thereof."

The Nova Scotia estimates passed, as did those for Prince Edward Island and New Brunswick.

Some criticism was leveled at the preponderance of Quebec contracts awarded to Ottawa contractors, but this was explained as due to the fact that these contractors were better acquainted with general conditions than local men could be. The Quebec items went through, making a total vote for the day of about a million and a half.

FIX WATER BOUNDARIES.

Treaty Drawn Between Great Britain and United States.

Washington, April 9.—It was officially admitted yesterday that a treaty had been drafted between the United States and Great Britain, providing for the appointment of a joint commission, which will consider all of the complex questions connected with the water boundaries between Canada and the United States.

This will include such questions as the disposition of the waters of the great lakes; the regulation of the use of the water at Niagara Falls for power purposes and the whole general subject of fisheries regulations, not only for the great lakes but for the Atlantic and Pacific states.

The treaty will require the approval of the United States Senate to become effective, but it is possible that an arrangement in the nature of a modus vivendi will be reached between Secretary Root and Ambassador Bryce in the near future.

DISARMAMENT NOT PROBLEM.

Germany Will Refuse to Discuss It at Hague Conference.

London, April 9.—The Berlin correspondent of The Daily Mail says that Germany is heartily anxious for a definite result from The Hague Conference and regrets that the deliberations will not be confined to practical international questions in accordance with Russia's proposal. He adds that when the British proposal for the limitation of armaments is submitted, Baron Marschall von Bieberstein, as Germany's chief delegate, will define her position substantially thus: Disarmament for Germany is not a problem. It is a matter upon which she holds convictions of such a character that participation in any discussion of the subject would be utterly futile. She therefore leaves consideration of the matter to those who believe its discussion will repay them.

BRITISH HOUSE RE-ASSEMBLES.

Budget Expected to Lead to Prolonged Debate.

London, April 9.—Parliament re-assembled yesterday after the Easter. The budget will be introduced April 18, and is expected to lead to lively and prolonged debate.

The prospects seem slight for any early effort to deal with the question described in the King's speech as the unfortunate differences between the two Houses.

As a result of the large amount of work before Parliament, an autumn session seems to be inevitable.

King Edward in Spain.

Cartagena, Spain, April 9.—King Alfonso, the Dowager Queen Christina and the other members of the royal party arrived here at 7.30 yesterday morning from Madrid, in order to meet the King and Queen of England. The British royal yacht Victoria and Albert, escorted by warships, was sighted later in the day and King Edward and Queen Alexandra on board the Spanish royal yacht Giralda.

The royal visitors were accorded a magnificent reception on their arrival here.

The Official Gazette yesterday published a royal decree appointing King Edward an honorary captain-general in the Spanish army.

Dr. Drummond Buried.

Montreal, April 9.—The funeral of the late Dr. William Henry Drummond took place yesterday afternoon from St. George's church to Mount Royal Cemetery. The body arrived at 9.30 and through a blinding snowstorm was taken to the church.

Dr. Drummond's three brothers were the recipients of letters, telegrams and cables from all parts of the continent and Europe.

Among those who telegraphed was Earl Grey.

Boy Convicts Saloonmen.

Ottawa, April 9.—A boy, aged 15, appeared in the police court yesterday and gave evidence against five hotel men for selling himself, a minor, intoxicating liquors. The boy acted by himself and stood a long cross-examination well.

The saloon-keepers were fined \$10 each solely on his evidence.

Holds Sister For Boy's Death.

Quebec, April 9.—The jury in the matter of the 14-year-old boy named Amédée Carrier, who was killed on Monday last at St. Charles, Bellechasse, rendered a verdict holding Alexena Carrier, sister of the boy, responsible for her brother's death. The young prisoner is only 14 years of age.

WALL FELL ON FIREMEN.

One Killed and Three Fatally Hurt in N. Y. Fire.

New York, April 9.—Fire early yesterday partially destroyed the car barn and power-house of the Metropolitan Street Railway Co., extending from 145th to 146th streets, and from Lenox avenue to Seventh avenue. During the course of the fire one fireman was killed and three others probably fatally injured. The financial loss is heavy.

The dead—Captain John Ryan, of Engine Co. No. 80.

Injured—John Connors, fireman; John Roxbury, fireman; F. D. Lepold, fireman.

The men killed and injured were fighting the flames from a second storey fire escape on the Seventh avenue side of the building when the wall fell, burying the men in the debris. Captain Ryan was taken out dead and Fireman Lepold, who was rescued alive, was probably fatally injured. He told the rescuers that six men besides the captain were in the ruins and that all were dead. Later it was found that all but Connors and Roxbury, who were taken out gravely injured, had escaped with a few bruises.

The fire started in the repair department from a grounded wire in one of the cars and communicated to the paint and varnish rooms, which burned so fiercely that it took the firemen nearly three hours to bring it under control.

Earthquake Pranks.

Hindustan has had many important geological changes effected by earthquakes. In 1762 Chittagong was violently shaken, the earth opening in many places and throwing up water and mud of sulphurous smell. Then sixty square miles of coast suddenly and permanently subsided, one of the Mug mountains entirely disappeared, and another sank so low that only the summit remained. At the same time a corresponding rise of ground took place at Ramree, an island farther along the coast. Again, at Cutch, in 1819 the fort and village of Sindree were submerged, and about five miles distant a long elevated mound was raised, measuring some fifty miles by sixteen in places, out of what had been a perfectly level plain.

THOS. CATLING RETIRES

NEWSPAPER "SCOOP" THAT MADE A PRINTER FAMOUS.

Editor of Lloyd's News Got First Step on the Ladder By a Great "Beat"

Story of How Cub From Composing Room First Got News of Prince Consort's Death—Prays and Is Answered.

Newspaper "scoops" are, usually, of little account in the journalistic world of England. Yet it was a "scoop" and a most remarkable one which gave Thomas Catling, the veteran London editor, his first step up the ladder.

Mr. Catling, after half a century of work on Lloyd's Weekly London News, has resigned and left active journalism the first of the year. He has been succeeded by Robert Donald, managing editor of The Daily Chronicle.

Mr. Catling's memorable "scoop" was no less than the announcement of the death of the Prince Consort, Queen Victoria's husband. It occurred on a Saturday evening in December, just forty-five years ago. The Prince Consort was ill, but his death was scarcely expected. There were no reporter at Windsor Castle excepting Catling.

Douglas Jerrold was then editing "Lloyd's." He wanted a report on the condition of the prince's illness, but there were few news agencies in those days, and his staff of reporters was busy. So Jerrold drew on the composing room, and because of his smart and alive look, selected young Catling, then one of the compositors, to go down to Windsor.

Mr. Catling, in telling the story himself, says that when he reached Windsor it was already dark and raining. He walked to the castle, and, of course, was refused admission. There was no one at the main gates who would, or was authorized to, give him any information. He wandered about in the rain for a couple of hours, prowling round the outskirts of the castle, hoping something would turn up. Wet, cold, miserable, realizing that he had dimly failed on his first assignment, Catling determined to walk once more round the castle before going home.

He started to go, but got stuck in the mud at the bottom of a hill. We got out and walked through the mud. Some of the bridges were washed away by the freshet. We got along the best we could—out all night. We got to the old Monckton Hotel, kept by Mr. King, about four o'clock in the evening—twenty-two hours after the death of the Prince.

Mr. Catling is nearly 70 years old. He was the son of a florist in Cambridge. He went to school in the university town, but when still a youth came up to London and became a student at the Working Men's college. There he learned typesetting, and at 18 had his first job in the composing room of Lloyd's News.

For twelve years, while assistant editor of the paper, he also had full charge of the literary reviews of The Daily Chronicle and also did much theatrical criticism. In this way he met and became friends of the leading actors and men of letters. He knew intimately Phelps, Crawford, the late J. L. Toole, and Sir Henry Irving.

Mr. Catling is prominent in British Masonic circles. He is of the Grand Lodge and initiated Lord Kitchener into the Drury Lane lodge.

Mr. Catling has been a great traveler. He has practically toured the world and, leisurely, too. For Lloyd's he has written descriptive stories of these tours. As editor, he gave himself these pleasant assignments.

Mr. George R. Sims tells an interesting story of Mr. Catling's perseverance in keeping a promise. Both are members of the Savage Club, and one night were talking of a coming big Masonic concert. Mr. Catling finally agreed to take the chair. Almost immediately the Egyptian war broke out, and Mr. Catling was sent post haste to Khartoum. He put in four months campaigning and was about ready to go home. One morning he came across a "Referee," Mr. Sims' Sunday paper, and back to him came suddenly his promise to preside at the big concert.

Mr. Catling looked up the date and found that by lucky traveling he might get to London in time. He started at once and invoked all sorts of influences to speed him. He arrived minus baggage at 7 p. m., and when the concert began at 9 p. m. Mr. Catling, in his immaculate dress suit, was presiding.
