Other Officers and Many Men Killed on the Flagship  
Czarevitch, which is Severely Damaged and  
the Rudder Smashed Beyond Repair

(Special to The Planet.)  
St. Petersburg, Aug. 13.—1 p. m.—Rear Admiral Witthoft, who was in command of the Russian naval forces at Port Arthur, was killed during the engagement Wednesday.

The emperor has received a telegram from Tsingtau signed by Capt. Matousevitch, the rear admiral's chief of staff, reporting that Witthoft met his death aboard the flagship, the *Czarevitch*. Both his legs were blown off.

Capt. Wamoff, of the *Czarevitch*, Commander Samoff, and several officers were wounded. Several officers besides the rear admiral were killed.

The battleship *Czarevitch* was damaged. Her rudder was broken beyond hope of repair.

Capt. Matousevitch did not report as to the whereabouts of the other vessels, but the dispatch adds that the protected cruiser *Novik* has left Tsingtau.

Tokio, Aug. 13.—110 a. m.—Admiral Togo reports that five Russian battleships appear to have been heavily damaged in the engagement of Aug. 10. The *Pobeda* lost two masts and one of her heavy guns was disabled. The *Retvizan*, which was hit several times at a distance of 3,500 yards, seems to have sustained the greatest injury. The damage inflicted on the Russian cruisers was comparatively slight. The *Bayan* was not apparently damaged.

London, Aug. 13.—A despatch to a newspaper from Tokyo to-day says: "Another sign that a general assault on Port Arthur is imminent is found in the fact that the emperor of Japan has not fed Field Marshal Yamagata, chief of the general staff, of his desire that non-combatants be allowed an opportunity to leave the fortress. The chief of staff consequently instructed the Japanese commander at Port Arthur to accord the necessary facilities for their removal."

Further details of the naval engagement of August 10, indicate that Admiral Togo's main attack was directed against the Russian battleships and that this was going on the speedier Russian cruisers succeeded in getting away.

According to another despatch from Tokyo, the Russian torpedo boat destroyer *Ryeshitani*, which was captured by the Japanese at Chefoo, is being taken to a Chinese port.

A despatch from St. Petersburg to a news agency says the machinery of the Russian battleship *Czarevitch* was so knocked about during the fight that most of it was worthless. She lost 210 officers and men killed, and had 60 wounded. Rear Admiral Witthoft was on the bridge of the *Czarevitch* when a shell exploded there blowing him to pieces.

**OUR INVESTIGATORS ABROAD.**  
Ontario Railway Commissioners Have Reached the Quaker City.  
Philadelphia, Aug. 13.—How to equalize taxes on railroads is the question which the Commission of the Ontario Government has been investigating in this country for a month, spending yesterday in Philadelphia. H. J. Pettypiece, chairman of the Commission, stated that Canada was getting no taxes at all out of a great deal of railroad property. Their tax was simply based on the same value as the land through which the roads run.

They have been interviewing railroad commissioners in nearly all the United States and find many systems. Michigan taxes on the whole value of the railroad property. Connecticut takes one per cent. of the capital; Minnesota takes three per cent. of gross earnings; Pennsylvania combines three systems, but the average of all the States amounts to \$154 a mile on 200,000 miles of railroad. In Canada it is about \$50. In Massachusetts it is \$1,100 a mile.

The Commissioners are meeting railroad tax experts as well as state officials wherever they go. They will next go to Baltimore, then to Washington, to many and home. The scope of their investigation takes in telegraph, telephone, express and like business.

**THE PINES**  
Successful Termination of Summer Exercises at the Ursuline Academy.

On Friday morning at half past eight the retreat, which has been in progress since Monday evening, came to a close. Reverend Father James, O. F. M. P. P., conducted the exercises, which were a grand success. It is the custom of the Ladies of the Academy to throw the doors of their excellent institution open for three or four days every year or thereabout, during the summer holiday time to those of their former pupils and other ladies, who wish to give up some part of their busy social life to things spiritual. This is also a time when many of the pupils of by-gone years take the advantage of renewing acquaintances with their early companions and beloved teachers.

On Friday evening the ladies spent some happy hours in the music hall, where a very fine program was presented by the Alumnae Association, under the direction of Mrs. John Crotty, Bothwell, assisted by Mrs. D. Wallace, Thamesville. The first feature was a piano duet by Mae A. D. McIlvay, of Kalamazoo, Mich., and Eva Dazell, of Windsor, both of whom were pupils of the Academy in '99. Mrs. John Crotty, also a former pupil, a lady of high social standing and merit, read in a very elegant style an appropriate address to the teachers, in which she lauded a very handsome presentation to the Rev. Mother and Sister from all those whose privilege it was to have spent some days at St. Ursula's of "The Pines."

Songs, recitations, piano solos, etc., followed, after which the happy company bade farewell to each other and to their beloved "Alma Mater."
