

THE ACADIAN.

WOLFVILLE, N.S., MAR. 1, 1912

Yesterday's Election.

Very little interest was apparent in the election held yesterday to fill the vacancy in the Council caused by the election of Coun. Chambers as Mayor. The vote was consequently small and resulted as follows:

Bishop 97
Starr 41

The first of the series of men's meetings arranged by Rev. K. E. Dixon, which was held at the Opera House on Sunday afternoon last was a decided success. About two hundred men and boys were present. Rev. Mr. Dixon presided and after stating the aim of the meeting conducted a short service. Excellent music was furnished. Rev. Dr. DeWolfe was the speaker and the subject of his address was, "Beau, the man without an ideal." The address was very interesting and practical and was listened to with close attention. These meetings will be continued during Lent and will undoubtedly be very beneficial.

On Monday evening a very pleasant time was had at Temperance Hall, the occasion being a fraternal visit from the members of "Lily of the Valley" Division, of Port Williams. About ninety visitors were present and these with the members of Wolfville Division well filled the hall which has been recently much improved in appearance. The visitors were welcomed by Mr. B. O. Davison, the deputy, Dr. Morse replying for the "Lily of the Valley." An excellent joint program was given which reflected much credit upon all who participated. Mr. W. S. Sanders, representing the Grand Division, was present and gave an excellent address. At the close suitable refreshments were served.

A Safe Medicine For Little Ones.

Baby's Own Tablets are a safe medicine for little ones—the mother may feel sure of that. They are sold under an absolute guarantee of a government analyst not to contain narcotics or other harmful drugs—they cannot possibly do harm—always do good. Thousands of mothers who have used them can vouch for this, and once a mother has used them for her little ones she always keeps them in the house. The Tablets quickly relieve and cure all the minor ills of babyhood. They soothe the stomach, regulate the bowels, expel worms, break up colds and make baby healthy, happy and fat. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Rev. D. E. Hatt, the well-known interpreter of Drummond, whom Wolfville audiences always delight in hearing, gave a most enjoyable evening's reading before the Current Topics Club of the Seminary last week. Dr. DeWolfe met the Club on Wednesday evening of this week and delivered an address on "The Things That Make for Peace," a most clear and strong outline of the influences in modern life that tend to banish war as a means of arbitrament between nations. Next week the Club will have the pleasure of hearing Mr. J. F. Herbin on a subject on which no one is better qualified to speak than he, "Acadia, its History and Story."

In a letter received on Wednesday last by Mrs. J. W. Vaughan from her brother, Mr. D. W. Eagles, of Newton Centre, Mass., he told her of having the old elm tree in front of his home taken down. There were fifteen cords of wood in it. It was five feet through at the place they sawed it off, seven feet above where the three main limbs started. The limbs spread over a space one hundred and twenty feet in diameter. It took two men more than a week to take it down and cut it up and split what they could. The rest was split by dynamite.

English capital is being interested in a project to erect a large pulp and paper mill on the Miramichi river, to be one of the finest in Canada, and the enterprise is said to have met the approval of the lumbermen and to be fairly well advanced towards an agreement as to terms.

DOCTORS COULD NOT HELP HIM

BUT GIN PILLS DID

"During August last, I went to Montreal to consult a specialist as I had been suffering terribly with Stone in the bladder. He decided to operate but said the stone was too large to remove and too hard to crush. I returned home and was recommended by a friend to try Gin Pills.

"They relieved the pain. I took two boxes and went back to the specialist. He said the stone was smaller but he could not remove it although he tried for two hours and a half. I returned home and continued to take Gin Pills—said to my surprise and joy, I passed the stone. Gin Pills are the best medicine in the world, and because they did me so much good, I will recommend them all the rest of my life."

Parliament at Ottawa.

Business is progressing at the first session of the Twelfth Parliament of Canada, with more or less satisfaction to those engaged in its work, as well as to all interested.

The habit of being in opposition, is perhaps, without any reflection on their ability, still hampering the Borden administration. When a party which has long been accustomed to pull back on certain or various lines is at once placed in a position where it is obliged, or necessary to take up a go-ahead policy, relationship change, and time is required to get down to the proper gait. This applies no more to the government than to its rank and file. This would equally apply to the Opposition which finds it hard, at first, to adjust itself to different conditions.

The government is moving ahead cautiously as though each step might explode some mine planted by diabolical enemies with malice and revenge aforethought. But, since no such mines have been uncovered, it is safe to assume that the enemy has been too busy, so far, in repairing its own injuries to have time, or material, for offensive operations.

So far the government has been one of few words, and absolutely no oratory, for which the country should give thanks. Ministers who suspected themselves of wishing to make speeches have given the country the benefit of the doubt and kept silent reserving ability for departmental duties. Upon the Premier and some of his colleagues has fallen the burden and any stress there was of debate. The Opposition is just as slowly wearing of the habit of governing. Sir Wilfrid is an exceedingly wise man with long experience in Parliament, and has met the altered conditions without repining. Most singularly the Opposition has been rather noted this session, so far, for its interest in details and its disregard for the perspective. Almost any suggestion of the Government, any clause of a bill, is received the same attention that is, or could be, bestowed upon any fundamental principle of legislation, or upon its effect. This excessive zeal to destroy is natural, but it is not wise or noticeably effective.

The extension of the boundaries of Manitoba have been discussed in the House this, and will probably be on the carpet next week. The Nationalists have been represented as pressing the claims of the Catholic minority to separate schools in Keewatin, while the foolish section of the Liberal press represent the government as yielding to these demands. That certain of the French Conservatives would like to see an educational clause inserted in the bill is without doubt. The bill has been presented and so such clause exists as these agitating newspapers forecast. It deals exclusively with territorial boundaries and financial terms. This omission of any provision for schools simply preserves the provincial autonomy and leaves the subject in the hands of the province.

What final attitude the French Canadian members will assume in regard to the omission of an educational clause, is a pure matter of conjecture. In some quarters it is believed that they will get over the traces, but should that occur the break will be of small proportions. All indications point to a peaceable adjustment. There is no foundation for the story published by the Morning Chronicle, and in similar trouble seekers, that Mr. Bourassa was at Ottawa on Sunday looking for blood. He has not been at Ottawa for a month. Manifestly by the bill introduced on Tuesday, by Premier Borden, is to receive generous treatment for which she is amply deserving after the treatment handed out to her by the Laurier government since she, herself, became Conservative.

Avoid Harsh Drugs.

MANY CATHARTICS TEND TO CAUSE INJURY TO THE BOWELS

If you are subjected to constipation you should avoid strong drugs and cathartics. They only give temporary relief and their reaction is harmful and sometimes more annoying than constipation. They in no way effect a cure and their tendency is to weaken the already weak organs with which they come in contact.

We honestly believe that we have the best constipation treatment ever devised. Our faith in it is so strong that we sell it on the positive guarantee that it shall not cost the user a cent if it does not give entire satisfaction and completely remedy constipation. This preparation is called **Resalt Orderlies**. These are prompt, soothing, and most effective in use. They are made of a recent chemical discovery. Their principal ingredient is odorless, tasteless, and colorless. Combined with other well-known ingredients, long established for their usefulness in the treatment of constipation, it forms a tablet which is eaten just like candy. They are taken at any time, either day or night, without fear of their causing any inconvenience whatever. They do not grip, purge, or cause nausea. They act without causing any pain or excessive looseness of the bowels. They are ideal for children, weak or old persons, and aged people, as well as the most hearty person.

They come in three size packages. 12 tablets, 25 cents; 25 tablets, 50 cents; 50 tablets, 75 cents. The Resalt Store, A. V. Rand.
