A PREFERRED CREDITOR

(From the Boston Transcript)

A man who had been running a dubious business failed and at a meeting of his creditors all but one agreed to accept his four months note for 10 cents on the dollar. The debtor took this man aside and by promising to make him a preferred creditor he won him over.

When the others had departed, the man said, "Well, now, I should like what's coming to me."

"Oh," replied the debtor, "you won't get anything, any more than the others."

"But I thought I was a preferred creditor."

"So you are. These notes won't be paid when they fall due but it will take the others four months to find it out—you know it now, so you see you are preferred."

"MARITIME SEPARATION"

(From the Sydney Record.)

"Some people talk about Maritime union," says the St. John Standard. "Maritime separation would seem more in order in view of the very cavalier treatment that these Provinces of ours get from the Ottawa authorities. The Standard, of course, does not intend to be taken literally in its reference to separation, but there are few Maritime Province people who will not share the paper's resentment against the constant neglect of Maritime Province interests by the Federal authorities. Just claims of the Maritime Provinces are constantly ignored and the development of the Provinces thereby held back. How long are the people going to tolerate this injustice?"

A gentleman who was a lover of art noticed two small boys looking at a statue. In order to see how it affected them he listened to what they were saying. In a couple of minutes he heard one of them say "I wonder if that policemen would see us if we threw mud at it?"

Advertising is not a matter of guesswork. It requires skill and knowledge and experience. It is not something to be lightly undertaken, but it can be undertaken with assurance of success if it is done properly.

Rich, Red Blood Means Health

Pale Cheeks and Bloodless Lips Are a Danger Signal

To be pale is no longer the fashion; to be languid is an affliction. Today the most winsome girl is the one with the pink tinge of health in her cheeks, lips naturally red, and eyes sparkling with life. Add to this a quick active step and everyone can tell the girl whose veins are full of the pure, rich blood of health. How different she appears from her ailing sisters, whose aching limbs and weak backs make them pale and dejected. Anaemia is the cause of so much suffering among girls and women that it cannot be too widely known that Dr. Williams' Pink Pills have transformed thousands of delicate anaemic invalids into happy, healthy women. These pills help to put rich red blood into the veins, and this blood reaches every part of the body, giving strength, rosy cheeks and brightness in place of weakness, prostrating headaches and a wretched state of half-health. Miss Edna E. Weaver, R. R. No. 1, Chippewa, Ont., says: "I was very much run down, weak, nervous and troubled with pains in the side. I tried different medicines but without any benefit until I began the use of Dr. Williams' Pink Pills. Under the use of this medicine I gained strength, had better appetite, slept better and the pain in my side disappeared. My health has since remained excellent and I advise any one troubled with anaemia, or weakness, to give Dr. Williams' Pink Pills a fair trial."

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuralgia and nervousness. Build up your blood and note how the purer and richer blood fights your battles against disease. Take Dr. Williams' Pink Pills if you are not in the best physical condition and cultivate a resistance that with the observance of the ordinary rules of health will keep you well and strong. Get a box from the nearest drug store and begin the treatment now, or send to The Dr. Williams' Medicine Co., Brockville, Ont., and the pills will be sent you postpaid at 50 cents a box or six boxes for \$2.50.

CANADA'S FISHERIES

For a country in which fish of all kinds are available, Canada uses entirely too little fish. The average consumption of fish in Canada is approximately nineteen pounds per head per year; in Great Britain the average consumption is 58 lbs. Consumption of fish is increasing very slowly and the hope is that by a little more publicity and a little more necessary enlightenment on the value of fish as a food and the desirability of encouraging its consumption, the fisheries may be made much more valuable than they are at present and the whole country benefited.—Charlottetown Guardian.

Whitney, Sir W. H. Hearst, and the present premier E. C. Drury.

Mr. Glackmeyer is hale and hearty and officiated at the opening of the second session of the Fifteenth Ontario Legislature on January 25th last.

NEVER AGAIN

(From "Foresight.")

John Clay, of Clay, Robinson & Co., relates the following story:

"I visited the old farm in Scotland, as was my custom each year, and when talking with the old Scotchman who had been a part of the farm organization since my boyhood days, I noted that he was not wearing the big fur cap with the heavy ear flaps which he had always worn in winter time.

"Where is your cap, Sandy?" I asked.

"Mi cap, mon, why I ha na wore it since the accident."

"Accident," I said, "I had not heard of any accident."

"Ah, yes, it was, when McGregor came over an' we were out together, an' he asked me to have a drink—an' I dinna hear him."

A Bill is now before the Legislature of Quebec which provides for imprisonment without the option of a fine, for drunken drivers of automobiles. This is drastic legislation, but it is demanded in the interests of public safety, and it would be well if similar legislation were in force everywhere. We should then have fewer cases of cars running amuck.

Mr. Rowell's glowing picture of the goal to which the League of Nations points may be regarded by some as merely idealistic. But it is a goal towards which the world must press on, and Canada must be in the front line of march.

Canada has an area of 3,729,665 square miles, or 111,992 more than the United States and Alaska combined. Canada is as large as thirty United Kingdoms, eighteen Germanys and thirty-three Italys.

AN UNEXPECTED REACTION

(From the Boston Transcript.)

The teacher was trying to illustrate and bring out the word "perseverance."

"Now suppose," she said, "some one were to go on day after day being good, and doing good, despite all temptations and hindrances, what would that be?" A small hand shot up. "Well, Johnny, what would you call it?"

"Monotonous," replied the boy.

HAVE YOU SEEN THIS PLANET?

During the recent clear nights, those who have looked toward the west will doubtless have observed in the heavens a star which was of unusual brilliance. Inquiries have been made several times as to what it is. This "star" is the planet Venus and is getting nearer the earth with each day. It will be at its closest point to us in April, but at that time will have passed from the realm of an evening star to a morning star and will be observed by few except the very sleepless.
