The question was, Had any right under the constitution been taken away from any minority? The privy council says yes. On behalf of the Catholics he said it was a great injustice for Mr. McCarthy and others to raise the cry that this was an attempt of the Catholics of Canada to coerce the Protestants into granting separate schools for Manitoba. He agreed with those who entertained the hope that Manitoba would through its legislators deal effectively with this matter. The remedial order did not ask for the last pound of flesh, and until this parliament had refused to accept a reasonable compromise it did not lay in Mr. McCarthy's mouth to interpret the oranti-confederation days. After a number of reports were laid on the table the house adjourned at 5.50 till tomorrow.

HEALTH AND HAPPINESS,

HOW IT WAS FOUND BY A LANARK COUNTY LADY.

culously Restored. From Brockville Recorder.

On a prosperous farm in the township Lanark county, lives Mr. in the village of Merrickville, and spent her whole life there until her marriage, her on her recovery to health and etrength after years of pain and suffer-When the correspondent of the order called at the Wood homestead, Mrs. Wood, although now not looking the least like an invalid, said that since girlhood and until recently, she was troubled with a weak back which gave her great pain at times. As she grew older the weakness and pain increased, and for nearly twenty years she was never free from it. About a year ago her misery was increased by an at tack of sciatica, and this with her back trouble forced her to take to bed, where she remained a helpless invalid for over four months. Different doctors attended felt a slight improvement, which determined her to continue this treatment. From that cut she steadily improved, and was soon able to be up and about the house. A further use of the Pink have passed since she ceased using the Pink Pills, and in that time she has ness, and says she is confident no other medicine could have performed the won-der Dr. Williams' Pink Pills have done for her. She says 'I feel happy not only because I am now free from pain or ache, but because it my old trouble ache, but because it my old trouble should return at any time I know to what remedy to look for a release.

Dr. Williams' Pink Pills are especially valuable to women. They build up the blood, restore the nerves, and eradicate those troubles which make the lives of so many women, old and young, a bur-den. Dizziness, palpitation of the heart, nervous headache and nervous prostration speedily yield to this wonderful medicine. They are sold in boxes, the trade mark and wrapper printed in red ink, at 50 cents a box or six boxes for \$2.50, and may be had of druggists or direct by mail from Dr. Williams Medicine Company, Brockville, Out.

#### THE PATRON FLOP.

MR. HAYCOCK AND HIS FOLLOW ERS SUPPORT THE FEE SYSTEM.

Both in the Provincial and Dominion arenas the Patrons of Industry have entered the field of politics, with distinct promises that they propose to act independently of either party, and to bring about reforms which they declare have called their organization into existence. This is the declaration adopted by their leaders at a meeting in Toronto on July

It follows just as surely as day follows night, that if the Patrons make themselves in provincial matters the donkey engine of either party, they will when the proper time comes be used for the same purpose in the large and more important struggle that is approaching. THE BROKEN PLEDGE.

At the same meeting at which the a question likely to be dealt with by the Ontario Legislature. This question was discussed a few days ago and hence it is well to recall the pledge of the Patrons als as Patrons will try to dupe the far regarding it made ten months ago. Touching the fee system of remuneratthe school question, which began in the by officials should be fixed by a tants asked for full control of their dered and that the balance of fees be proposition, why not give to the It is well to remember that the prin-Catholic minority of Ontario the same ciple of a reform of the fee system was minority in Quebec ? These rights were 1893. In the bye election in North tlement was as permanent as among other things that they were oplegislation could make it. He warmly posed to the fee system. This arrangecondemned the agitators who, like Mr. ment which enables Sir Oliver Mowat ing. Hon. Mr. Costigan was loudly the one question above all others on the one question above all others on the country. They stand to-day ready to do the will of their Grit masters just what are the facts that have been dis-

In almost the same terms as the Patron platform above quoted was the resothe duties performed, and the surplus out our own beef, pork, mutton, flour, fees if any should be funded for the etc. This is their policy of free trade ness and Pains in the Back—Sciatica benefit of the municipalities." This Complicated the Trouble and Added to was a declaration directly in line with the Her Misery-Her Health Almost Mira- Patron policy. Indeed, their leader Mr and Mrs. Joseph Wood, esteemed by all are not here to make or break governments." The result of this utterly inconsistent declaration was that in spite her whole life there until her marriage, of their previous pledges all the alleged and her many friends are congratulating Patrons in the Ontario Legislature attached themselves by their solemnly recorded vote to the Liberal party. This is done in spite of the declaration that no coalition will be attempted with either of the existing parties and in de-

fiance of the promise that the Patrons would seek to reform existing evils. A SHALLOW EXCUSE. For this act of political perfiely two excuses are offered. The first of these is that the subject has been referred to a Royal Commission, and the second that the organization does not propose to make or unmake governments. Regarding the first it has all along been clear to everyone that the fees commisto be a cure for her trouble, but despite all she continued to grow worse. She was advised to try Dr. Williams' Pink Pills, but she had dosed herself with so many medicines that her faith in the healing virtues of anything was about gone, and she had fully made up her mind that her trouble was incurable. At last a friend urged her so strongly that she consented to give the Pink Pills a trial. Before the first box was all used she felt a slight improvement, which deterwas in existence, and yet they made no reservation in favor of waiting until the report of the commission had been received. It is an open secret that when the commission does report it will find Pills drove away every vestige of the pains which had so long afflicted her, and in favor of the present system. It folshe found herself again enjoying the lows, if the Patrons are determined to blessing of perfect health. Eight months wait until the report is received, that wait until the report is received, that they propose to be guided by the conbeen entirely free from pain or weak- Otherwise what is the object of waiting for the report? The pretence that they cannot make up their minds upon a subject, regarding which thay have already get the opinion of somebody elie is as transparent as it is ridiculous. There is some other reason than anxiety to read a report by which Patrons do not propose to be guided that prompts this extraordinary consideration for the Liberal party. As to the declaration that a reluctance to make or unmake governments compels Mr. Haycock and his followers to support Sir Oliver Nervine Tonic. Mowat it is scarcely creditable to a body of men who are taking a real part for sale at E. Lee Street's drug store. in politics. Every representative of the people who is professedly independent should be prepared to cast his vote regardless of whether it will help or defeat the government of the day. If he is not able to do this of what service is he to his constituents. Are we to b lieve that so childish a reason as dread of
