Ship News.

The New Ship "Herald" 1200 tons Captain Smith, on her first voyage from Bathurst, N. B., bound for Liverpool, G. B., proving leaky after being out a short time, the crew unable to keep the ship free, bore up for Bathurst, but the wind coming ahead off Cape Miscou they put the ship before the wind for the East end of this Island, intending to make for Pictou, N. S., but in beating up Northumberland Strait on Thursday morning a little before daylight, the ship struck with much violence on Cape Bear Reef, near the Malabar Rocks; the Steamer immediately deserted the ship, leaving only the Officers on board, who with help of people from the shore and being favored with fine weather succeeded in getting her off yesterday morning, when she ran into Georgetown to repair. We understand from B. Davies, Esq., the Protective Agent for Provincial Insurance Company, C. W. who has just returned from the ship, that she is but slightly injured and probably may not require any further repairs than caulking; we think that if the other Insurance Companies had agents to look after their interest, much valuable property as in this instance might be saved.

For the benefit of whom it may concern.

Latest News!

By the arrival of the Lady Le Marchant, we have the following Telegram from the St. John's Courier.

BY TELEGRAPH FROM NEW YORK.

One Week later from Europe.

ARRIVAL OF THE "ATLANTIC."

The Collins steamer Atlantic arrived at New York on the morning of the 18th.

The news by her is not specially important.

The allies had blown up the remnant of Sebastopol in their possession.

Large Divisions of the Allies were threatening to attack the Russians at Baidar and Eupatoria.

The fleet had sailed on a secret expedition—the destination is supposed to be Nicolaeff or Odessa.

The Russians seem determined to meet the campaign vigorously.

The Emperor was at Odessa. He has issued an encouraging address to the Russian people, and will shortly be in the Crimea.

Some commercial uneasiness was experienced in England. Consols were quoted at 87½. Markets generally dull.

Wheat and flour in good demand, but with slight change in price.

SECOND DESPATCH.

Sebastopol was certainly to be blown up by the Allies, and mines were being sunk for that purpose.

Gortschakoff was threatened by large forces of allies from Eupatoria and Baidar.

On the 27th Sept. some Russians were defeated near Eupatoria by French cavalry, with a loss of 50 killed and 105 prisoners; the French loss was three killed and 25 wounded.

A collision is anticipated between the Western Powers and the King of Greece, on account of the Russian propensities of the latter.

The Bank of England had still further advanced its rate of discount to 5½ per cent.

The allies had mounted a large number of mortars at Sebastopol, preparatory to bombarding the north side.

Danish Constitution had been promulgated at Copenhagen. Prince Ferdinand having refused his signature, was dismissed from the command of Zealand.

The Russians had captured a Turkish convoy at Kara with provisions for the garrison, together with 100 horses and 300 men.

The restriction of the importation of salt into Russia has been abolished.

The Revenue returns of Great Britain show an increase of nearly £8,500,000 stg., owing chiefly to the income tax.

Kars still holds out, but its provisions were nearly exhausted; it is anticipated, however, that the snow would compel the Russians to retire.

The correspondent of the London News asserts that the Russians are making preparations for the evacuation of the north side of Sebastopol. Gortschakoff has issued a hopeful address to his soldiers. He admits the loss of 500 to 1000 men for thirty days previous to the termination of the siege; but he says, in conclusion, "we are now free, and a new war commences."

A letter from Revel estimates the Russian marine losses in that part of the Baltic last year at 40,000 tons.

The Africa, from Boston and Halifax, arrived at Liverpool on Saturday.
