

County Council

(Continued from last week)

Wednesday Afternoon Council resumed 2.30 p. m. Committee on Petitions through Coun. McKnight recommended that a new polling booth be established at or near the Sweeney School House Parish of Gilepsie.

Petitions committee recommended that sum of \$8.00 be paid for sheep killed in parish of Ludlow.

Coun. Watling thought that all should be paid the same amount for sheep killed, not \$5.00 to one and \$8.00 to another.

Coun. Pond did not agree with that for pure bred sheep were worth more than grades and should be paid according to the value, but let there be a uniform price for grade sheep.

Coun. Menzies enquired as to where the funds come from to pay for sheep, there was no dog tax assessed on North Esk and they had been paid for sheep killed.

Sec. Teed said that if Parish had no dog tax these accounts cannot be paid.

Coun. Pond said that because Ludlow had a large credit balance was no reason why they should pay more for sheep killed. The committee were not doing their duty and should recommend a uniform price for grade sheep.

Coun. Watling thought that \$6.00 was reasonable but \$8.00 too much per sheep.

Coun. Mersereau said that \$1.00 was too little for some sheep and \$5.00 too much for others.

On motion of Coun. Pond the bills for sheep killed by dogs were all referred back to the Committee for a uniform price to be agreed upon by them and report made.

An Account from the Hotel Dieu Hospital, Tracadie for \$16.00 medical treatment for resident of Alpwick was read.

Coun. Anderson asked what was the status of the account as it came from a hospital outside the County, and he would like to know how far the County was liable for patients who go to outside hospitals.

Sec. Teed said that there were a good many other bills of the same nature to be dealt with some already had been paid. According to the legal status the Hospital gave notice to the County that the patient was there and if they did not repudiate them, they must either take them away or pay the bills, and it was an impossible thing to take a patient from a hospital outside the County and if they did where would they put them?

Clerk of the Peace Whalen read the law on the matter which showed that it was chargeable to the County and that the County must pay the bills when presented.

Account passed as did another for \$10.00 from the same institution for a like case.

On motion a delegation from the Red Cross Society was heard.

Mrs. W. A. Park said that the Red Cross had been interested in sending a girl to the Sanatorium at River Glade, who was suffering from tuberculosis, they had already paid out over \$100 for her maintenance and asked that the County take over her case as it was a very deserving one, the girl came from blackville parish.

Coun. Anderson asked what was the charge for her maintenance.

Miss L. Manny said that the charge was \$45.00 per month and the society had paid up until last September and now owed about \$260.00.

Coun. L. Doyle thought that the matter was a most urgent one, and should be acted upon at once. If the County refused to provide for her they could send her home or they could make the County pay.

Coun. D. Doyle thought that the matter should be decided at once and moved that the County take over the responsibility of caring for this patient. Carried.

Coun. Anderson said that the Red Cross deserve great praise for the work that they have already done in this case. It was a noble thing and he hoped that a vote of thanks be extended to the ladies for their excellent work.

Coun. Mersereau said that the work being done by the Red Cross and L. O. B. E. was beyond praise and much appreciated. He said of the philanthropic and patriotic work that they were carrying on was unknown to many but they were carrying on a work that few would undertake, and a work that was absolutely necessary in the community and the works of the Council could not sufficiently thank them for that which they had already done.

The vote of thanks on being carried was extended to the delegates by Wardy Hill and Mrs. J. A. M. Bell replied briefly.

Dr. Desmond of the Board of Health was heard. Dr. Desmond said that he had come to present the requisition for the Board of Health for 1924. During the past year there had been some cases of scarlet fever and diphtheria, but no cases of smallpox. Cases of diphtheria had not been reported soon enough and he desired to draw the attention of the Councilors to any case of severe sore throat should be immediately drawn to the attention of a physician, so that there would be no epidemic. In one district in the County a doctor had not been notified until two were at death's door. The detailed list of expenditures would be found in the report and the Board had asked that the same appropriation as last year. He had been requested by Dr. Stobert to state that The Rockefeller Institute were prepared to pay

ONE 50c BOX BROUGHT HEALTH

Years of Constipation Ended By "Fruit-a-tives"

The Wonderful Fruit Medicine

Anyone who suffers with miserable health; who is tortured with Headaches; and who is unable to get any real pleasure out of life; who is interested in this letter of Mrs. Martha de Wolfe of East Ship Harbor, N.S.

Mrs. de Wolfe says, "For years I was a dreadful sufferer from Constipation and Headaches and I was miserable in every way. Nothing in the way of medicine seemed to help me. Then I tried 'Fruit-a-tives' and the effect was splendid; and after taking only one box, I was completely relieved and now feel like a new person."

50c. a box, 6 for \$2.50, trial size 25c. At dealers or from Fruit-a-tives Limited, Ottawa, Ont.

the expenses of one or two districts nurses in each county for two years providing that the counties would assume their expenses at the close of that time. The Rockefeller institute would maintain them at a cost of \$2,100 per year for the two years but it would be eight months or more before that system could be worked out.

Coun. Parker asked if a child that had been vaccinated four years ago should have to be vaccinated now before they were allowed to go to school?

Dr. Desmond said that the patient's arm was the best indication of successful vaccination. If the vaccination was successful the child would not have to be re-vaccinated. It was the School law as well as the Health law that no child should be allowed in school who was not successfully vaccinated. By vaccination they had been able to almost stamp out smallpox in this province, only 2 cases occurring in the five counties during the past year and 3 more in the entire province.

Coun. Tucker complained that the officials of the Dept. could not be made to do their work in Renous in diphtheria cases. There had been two deaths in Renous and the Health Official had refused to go near the house. He would make a complaint against the official for he was not doing his duty.

Dr. Desmond said that it was their duty to see that the people get a doctor, then placard the house, call and see if there was anything they required and after it was all over fumigate the house. He was to prevent public funerals, see that people must not go in or out of the house and carry contagion. The doctor must be allowed to do his work but he must not come in contact with the patient and must take every precaution to see that he did not carry infection. If the Health official was not doing that he was to hear the complaint, he was glad to hear his duty and he would do it.

Coun. Tucker—He certainly is not. Sect'y Morris of the B. of H. said that he had personally gone to Renous and instructed the officer there as to his duties. It was hard work getting reports from the doctors in that vicinity as they were slow in making reports. It was hard to get some men to do their duties.

Coun. Parker—"Is it hard to get them to take their salaries?" Mr. Morris—"Certainly not."

Coun. D. Doyle asked re \$500 that had been paid to McDade and Barry regarding a Williams claim. The Council had refused to pay and the Board of Health had now done so.

Dr. Desmond explained that he had paid the bill on order of the Minister of Health, the Province had assumed one third of the cost of the matter. The bill had come before the B. of H. and they had referred it to the Council and they had taken no action.

Petitions Committee recommended that Gertrude Jardine, Renous be refunded taxes she had paid on widow's exemption and on motion of Coun. Schofield and Holmes it was passed.

Petition of P. L. O'Shaughnessy for refund of taxes paid in 1921 and 1922 when he was away attending college was recommended by Petitions Committee.

Coun. Copp said that the only thing he knew of the matter was contained in the petition. It was a very small affair to bring before the Council, but as the Committee had recommended it he moved, seconded by Coun. Menzies, that a refund be made. Carried.

A Petition from the Buckley Estate for exemption of one third taxes on account of the burning of their mill was read.

Coun. Watling enquired as to the amount due from Co. Sec'y Teed—About \$81.00. Coun. Fletcher thought that if refund was made the Estate would not benefit very much it would be largely the Royal Bank and they could afford to lose the money as well as the County.

Coun. L. Doyle said that a precedent had been established in the case of Mr. Hutchinson, the same exemption should be allowed to the Buckley Estate as they should treat all the same. It was merely a matter for the Parish and not the County.

Coun. D. Doyle thought that the Councilors for Newcastle Parish were the ones to deal with the matter and make recommendations as they thought fit.

On motion of Coun. Parker the matter was referred to the Newcastle Parish Councilors for settlement.

Coun. Tweedie congratulated Warden on his appointment. The County could be assured that the business of the County would be carried on in a businesslike manner. He had attended several meetings of the Council and the members from Chatham Town had been shown every consideration. It was a pleasure to attend the meetings and while he missed many old faces he saw several new ones and assured them all of the hearty support of the Town of Chatham. The matter he desired to bring to the attention of the Council was the change in time table of the "Whooper" train which now arrives in such a time as to make it impossible for residents of the upper river districts to come to Newcastle or Chatham and return home the day. When the "Whooper" was first put on it was to accommodate the upper river people who desired to do business here, the same as in the morning trains enables them to do in Fredericton, it was a matter that affected the upper river section mostly but what affects one part of the County affects the whole and he read a resolution requesting the C. N. R. to put the Whooper trains on the same time table for at least two days each week as they had run before the change. The resolution carried unanimously and was ordered forwarded to L. S. Brown, District Manager, Moncton.

On motion of Coun. Bransfield the Council resolved itself into a committee of the whole to consider the rate of pay to be paid revisor for their work in assisting the valuers during the past summer.

Stiffness

It is astonishing how quickly Minard's Liniment relieves stiffness and lameness.

Gives Great Relief

Miss A. R. Calver, 25 Park Ave., Cambridge, Ontario writes: "My husband has been afflicted with rheumatism for some time and it has become very painful. I purchased a bottle of Minard's Liniment and after using it for a few days he is now free from all his troubles and is able to do his work as usual. I can go out without tying up my face and give the credit to Minard's Liniment. Have told several people about Minard's, and where are using it."

Chateau Frontenac Team Leader's Long Journey

A breath from the freezing winds of the Canadian Arctic, with something of its loneliness, its savagery, its call upon the elemental qualities of courage and endurance and a dash of the romance of the long trails are embodied in Moutie, veteran hero of the wilderness and new leader of the Chateau Frontenac dog-team at Quebec.

Moutie is a husky, in other words, part wolf and his wolf strain shows itself in his handsome head, with its sharp ears and nose, its steel-hard, flaming eyes, its gleaming fangs and its great ruff of fur. He is a dark grey giant, almost one hundred weight of muscle, bone and sinew, ferocious, grim determination and unwavering fidelity. He was born away up within the Arctic Circle, at Lac-du-Brochet, bought in 1919, when very young, by

Sergeant Grennan of the Royal Canadian Mounted Police, and trained by him. He put in nearly five years as a member of that famous force, running patrols on His Majesty's Service with the red-coated heroes of the wast.

The journey from Le Pas, in Northern Manitoba, where he was purchased to Quebec, a distance of well over two thousand miles, was an exciting and extraordinary experience embodied in Moutie, veteran hero of the wilderness and new leader of the Chateau Frontenac dog-team at Quebec.

rest and there adjusted himself comparatively easily to the strange turmoil of the great city. His driver, Arthur Beauvais, an Indian from Caughawaga, took him for a short stroll through the streets, where he created a tremendous sensation. And no wonder, for Beauvais says he is without exception the finest husky he has ever seen, while the Mounted Police report that he has always been greatly admired wherever he has been, both for his appearance and his capacities.

Now he is at the Chateau Frontenac, working comparatively easily at giving visitors a ride and is one of the big attractions of winter-time Quebec and will no doubt shine brilliantly at the forthcoming carnival there.
