FOR OLD PEOPLE!

In old people the nervous system is weakened, and that must be strengthened. One of the most prominent medical writers of the day, in speaking of the prevalence of rheumatic troubles among the aged, says: "The various pains, rheumatic or other, which old people often complain of, and which materially disturb their counfort, result from disordered nerves." There it is in a nuchell—the medicine for old people must be a negre togic. Old people ass justed with constitution, flatulency, drowsiness, diarrhon, indigestion, rheumatism, neuralpia.

These diseases are of nervous origin. Paine's Celery Compound, that great nerve tonic, in almost a specific in these disorders, and by its regulating influence on the liver, bowels, and kidneys, remises the disorders pacular to del use. Old people find it attinuishing to the whall powers, productive of appetite, and a promoter of digestion.
