**Government RIFLES,**  
 Using 45.70 Cartridge.

These are made of the best material,  
 originally for the U. S. Government.

Many old Government Rifles use Car-  
 tridges that are not made now; therefore, when  
 Stock is sold out no more can be had, conse-  
 quently the Rifle is of no service.

This Rifle takes the 45.70 Cartridge which  
 can always be had; therefore.

**NO THOUGHT READER**

Can foretell the day or the hour when  
 your property may burn. Most people  
 are aware of this and make provision  
 for the disaster by insurance. Why are  
 you not so insured? I offer the lowest  
 rates and strongest offices. The prompt-  
 ness and liberality of my settlements  
 are well known.

**PERCIE JOHNSON, Insurance Aet.**  
 Office: corner Duckworth and Prescott Streets.

**WHEN YOU ARE READING**

Does the print run together?  
 Do black spots appear before your eyes?  
 Do you have to place the light between your-  
 self and the print?  
 Do you find it necessary to hold the book further  
 away in order to see distinctly?  
 If you observe any of the above signs it means you are no longer  
 able to adapt your eyes to focus rays of light coming from different  
 distances. A contest with failing sight is hopeless. You should  
 wear properly fitted glasses. Consult us.
