NEW FLOOR COVERINGS.

Just opened another shipment of

Floor Canvas and Linoleums,

In the Newest, Neatest and most Attractive Patterns, at very Lowest Prices. We invite you to see our stock.

WILLIAM FREW.

Take a Mackintosh and You'll be Safe.

Fall days will soon be here, and Fall days mean rainy days; even if you go for a walk when it's nice and bright, it's safest to take a raincoat with you, for the fall showers come at a moment's notice.

¶The best thing to do is to be prepared for the "rainy day."

¶We have just received a splendid stock of Men's and Women's Mackintoshes in all the newest styles and colorings, and in a great variety of textures and weights. These new Mackintoshes are in advanced styles and are in reality samples of what will be the leading fashions next Spring in "rainy weather" wear.

Women's from..... $3.75 to $16.
Men's from..... $6.75 to $18.

U.S. Picture & Portrait Co.

Major Desbrisay.

At the S. A. Citadel To-Morrow, Major L. Desbrisay, Secretary for the Women's Social Work for Canada and Newfoundland, will be the speaker at the 11 o'clock service at the Citadel to-morrow morning. The Major has been making a tour of inspection of that branch of the work, having recently visited all the large cities in Canada, and her visit to this city in company with Commissioner Rees is to inspect the work here with a view to making some improvements. To-morrow night at 7 o'clock Staff-Capt. Mrs. Payne, another of the Army's women social officers in charge of the splendid Rescue Home at Winnipeg, will address the meeting. Mrs. Payne is a native of this country and a daughter of Captain and Mrs. Rumsey of Hamilton Avenue.

Directors Movements.

Yesterday forenoon the eight Directors of the Dominion Iron and Steel Co. made an inspection tour of the plant at Bell Island, as announced by the **Telegram** exclusively on Thursday last. Yesterday afternoon the party came across from the Island. They visited the fox ranch at Murray's Pond. Last evening the visitors were dined at Waterford Hall. This afternoon they will attend a luncheon at the Golf Links, Bally Haly. The party will leave town by the express this afternoon. While en route to Sydney they will stop off at Stephenville and visit the limestone quarries at Port au Port.

Swimming Competition

The members of the Young Men's Mutual Improvement Society Swimming Club gave a public display in the pool at the Seamen's Institute last night. A most enjoyable time was spent. The main feature was a plunging competition for a silver cup presented by Dr. W. S. Armstrong. This was won after a tie by H. Baird with a plunge of 32 feet 2 inches; Mr. E. Spry being second with 32 feet 1 inch. A breast stroke race by Mr. R. Clark, Mr. E. Spry proved a close second. Mr. Baird gave a fine exhibition of life saving. The evening was brought to close with the presentation of the cup to the winner by Judge Malone, U. S. A.

Port Rexton Notes.

The fishery remains a blank. Very discouraging reports come from the Labrador floaters. The Labrador fishery promises to be a failure, unless a "spurt" of fishing enables our hardy toilers to make good their lost time.

We were visited by a northeaster a few days ago, which did a little damage to traps. Mr. G. Ivany's and Mr. R. Randell's traps were wrecked so much so as to put them out of commission for any future operations.

Mr. J. Fowlow's trap (Trinity East), during the same storm left its berth and proceeded out to sea. When the tide and wind slackened it came into view, and was discovered by Mr. Oldridge, of Trinity, who was fishing at the time. He signalized his discovery, which brought other boats to the scene. Finally after a severe "tussle" the combined crews managed to get the runaway trap into one of the boats, which conveyed it home.

Trap operations are now practically over, which for trap fishing, ends the worst voyage on record.

Mrs. Roberts and son of Boston, Mass., are spending the summer with her sister Mrs. Harry Plowman. We wish them a pleasant time.

Our teacher friends who have been spending their vacation here leave by Tuesday evening's train for pastures new. We wish them success.

Mr. William Moore, of Jas. Baird, Ltd., St. John's, is here on a business and pleasure trip combined. Mr. Moore is favorably known here and no doubt does a good business for his firm, on account of his being so.

Mrs. Cooper, with her two bonny boys, are here spending a few days with her mother.

The supply of Government money seems enormous, if one is to judge by the many special grants given out this summer. Such reckless expenditure! Where is the country going?

—COR.

Port Rexton, Aug. 19, 1913.

Minimise The Loss.

Practically farmers may easily minimise the loss, due to a backward and cold season, by the judicious use of Sulphate of Ammonia as a fertilizer.

Sulphate of Ammonia contains over 20 per cent of nitrogen, as against 15 per cent in Nitrate of Soda, and is therefore more than 25 per cent better than nitrate of soda as a means of quickening and increasing the growth of crops.

The use of Sulphate of Ammonia has increased enormously of late years and it is recognized to be the most valuable fertilizer obtainable. By its judicious use the production of root crops per acre may be doubled, and the growth of late crops stimulated.

We invite the attention of Farmers to our spcial pamphlet on the best methods of using Sulphate, copies of which will be forwarded free to any address on application.

The price of Sulphate is moderate, and our terms are accommodating.

CHEAP PIANOS, ORGANS, Etc. — We are now in a position to state truthfully that our instruments are the cheapest under our new business arrangement, viz, cash down, no book ing, 15 to 25 p.c. discount. CHESLEY WOODS, Importer and Manufacturers Agent, Water Street.—dng23,tf

HAVE YOU A BAD LEG

With Wounds that discharge or otherwise, perhaps surrounded with inflammation and swollen, that when you press your finger on the inflamed part it leaves the impression? If so, under the skin you have poison, which defies all the remedies you have tried. Perhaps your knees are swollen, the joints are being ulcerated, the same with the ankles, round which the skin may be discoloured, or there may be wounds; the disease, if allowed to continue, will deprive you of the power to walk. You may have attended various hospitals and been told your case is hopeless, or advised to submit to amputation, but do not; for I can cure you. I don't say perhaps, but I will. Send to the Drug Stores for a Box of

GRASSHOPPER

OINTMENT and PILLS, which is a certain cure for Bad Legs, Poisoned Hands, Ulcerated Joints, Housemaid's Knee, Carbuncles, Snake and Insect Bites, &c., &c. English Prices, 1/1½ and 2/9 each. See Trade Mark of a Grasshopper on a Green Label. Prepared by ALBERT, Albert House, 73 Farringdon Street, London, England.

At the City Hall.

Yesterday's session of the Council was an unexpectedly tame one.

A communication was received from the Colonial Secretary intimating that the Government would cover by debenture the cost of widening Waterford Bridge and Topsail Roads.

Applications from E. Harvey, South Side, complaining about pipe; and from J. Best, Springdale Street, asking for sewer, were referred to the Engineer.

A fountain will be erected at Beaumont Street to give a supply of water there.

W. Snow, South Side, complained of a house owned by him being unnumbered. Will be attended to.

Permission was granted to Patrick Flynn to repair house on Stevens' St.; plans of house submitted by W. Butler, were approved of.

The price of oats used by the Sanitary Department, was discussed. One Councillor complained of a certain business firm getting all the orders from the Council because he offered cheap but inferior oats.

The moving picture question was brought up by Councillor Mullaly, but the statistics were not ready, through a misunderstanding, the matter was deferred and all the fun was spoiled.

Attention was called to the refuse left on the streets, particularly on Sundays. Councillor Mullaly held that the Supervisor was not doing his duty and called for an enquiry to be held next week.

Councillor Mullaly then asked if the oil sprinkler was ready, not to use on himself of course, but on the streets. Following a conversation with the Toronto man Councillor Mullaly foretold that in another few days the ground would be covered with snow—(laughter). He was of the opinion that the Council were not acting as they should in not dealing with the oil springling experiment ere this.

The Health Inspector reported a number of public and private lavatories in unsanitary condition. The Supervisor will act.

ARTHUR B. WALKER, 27 Charlton St. (3 doors from Springdale Street). Fresh stock of Groceries, School Supplies, etc., Ice Cold Drinks, Delicious Vanilla Ice Cream, Tuesdays Thursdays and Saturdays, served in cones or dish. Full line of English, American and local Candies. The "good measure" store. My motto, "A nimble sixpence is better than a lazy shilling." Headquarters for highest grade Picture Postcards, the finest in the land. Evening Telegram for sale.

St. Joseph's Notes.

Editor The Evening Telegram.

Dear Sir,—When a note appears in your esteemed paper from St. Joseph's it is generally to chronicle some happy event, but at present the outlook is so gloomy that it is difficult to see the silver lining. Our staple industries, the cod and lobster fisheries, are almost a total failure to date and do not average one half of last year's catch. In the spring herring had been hard to obtain, and the caplin proved even more elusive then ever before. The small catch of fish is mainly attributed to the failure of these bait fishes to make their appearance in the coves, where they can be seined and taken for use as bait.

Failure of caplin to come to land is, in the opinion of fishermen, due to the scarcity of whales, the number of which is becoming smaller every year. When whales were plentiful, caplin and fish abounded in the shallow waters, driven landwards by the monsters that preyed upon them.

Rose au Rue gets every whale that goes around Cape St. Mary's, a fisherman said, and that is not far from the truth. The question is being asked if something cannot be done to protect the few whales remaining in our waters and the presence of which is so essential to the success of the shore cod fishery. We have abundant evidence that destruction of these "fish" mean loss of our bait supply, and its consequent loss to fishermen and the country.

Mr. V. Singleton who as before noted in the **Telegram**, had a motor boat engaged in the lobster fishery this summer, is immensely pleased with the splendid working of his engine, which is a Fairbanks Morse. The engine has worked satisfactorily all through the summer, in all kinds of weather, without a single defeat. Although the result of the voyage has been far from encouraging, the motor has proved itself to be superior to the old order of things and wonderfully increases the working power, while it saves time and extends the field of operations. Next year we predict several more motors will be operating in this vicinity.

The crops are all that can be desired, and we are glad to be able to chronicle improvement in at least one "field" of work.—Com.

St. Joseph's, Aug. 20th, 1913.

Investment News

St. John's, Aug. 22nd, 1913.

To Start an Investment

sometime is the ambition of many thrifty people of moderate means who have hitherto never had sufficient surplus to put their desires into effect.

Through our Partial Payment Plan

there is no need of waiting until you accumulate a considerable sum. An initial deposit of as low as $20 is enough, and monthly payments of as little as $10 will carry your securities until paid for. Larger deposits and larger payments will purchase proportionately more securities. Thus the plan

Is Within Reach of of EVERYBODY

and is therefore one that EVERY man or woman anxious to conserve their savings should learn more about. Our booklet fully describes this convenient plan and should be sent for before the present edition becomes exhausted.

"Stella Maris."

Sentiment, one of the characters says, is everything in life. Without it no heroic action would ever be performed, no self-sacrifice shown; everything would be just miserable. Mr. Locke can certainly not be accused of losing sight of this most pleasing human attribute. Stella Maris, with her delicate thoughts and fancies, is thoroughly charming; Risca and Herrold are both quite captivating. The story as a whole is well worthy to rank with Locke's best and most successful novels. Special Colonial Editions —paper, 50c.; cloth, 75c.

Other novels by this same writer are:—
