What His Improved Homeopathic System Has Done for the People of Canada.

SICK MADE WELL.

Troops of Rescued Invalids and Sufferers Tell Their Glad Stories.

WHAT THE PEOPLE ARE SAYING.

Mrs. T. Maloney, 2 Gildersleeve avenue, Toronto, Canada, says: "I have used Munyon's Grippe Cure with splendid results. My husband was suffering extreme pains from the disease, but after using the remedy for only one night, awoke the next morning completely cured, and has not been troubled since. My experience was similar. We have also used Munyon's Croup Cure for our little one six months old, and again we had the best of results. The child was very bad, but after this treatment she completely recovered. We have implicit faith in Munyon's Remedies, and keep them constantly in the house."

Munyon's Rheumatic Cure seldom fails to relieve in one to three hours, and cures in a few days. Price, 25c.

FOOTBALL

LONDON'S EASY WIN.

The London Junior Rugby Football Club journeyed down to Ingersoll Saturday afternoon and had no trouble in defeating the Ingersoll senior team by 14 to 0. The London boys played a beautiful combination game, and it was chiefly by the ingenuity of their play that they were able to outwit the Ingersoll team, who were very heavy players, but their knowledge of the game was very limited, so their weight was easily overcome by the London juniors, as they are all on to the fine points of the game, thanks to their coach, Frank Reid.

The game was advertised to start at 3:30, and shortly after this the game was started by the referee, Mr. Frank Reid. Ingersoll won the toss and kicked west, with a slight advantage of the wind. The game was rather loose and ragged for the first few minutes, but London settled down to work and soon led two points, by compelling Ingersoll to rouse twice, and shortly after added two points more on a touch in goal. This ended the scoring in the first half, and the London boys were very near scoring at times. It was very easily seen at the beginning of the second half that Ingersoll was nearly done out, and the London boys were not slow in taking advantage of it.

Skinner scored first, by a beautiful run, and managed to plant the pigskin behind the posts, for four points. Niven failed to kick a goal from the same London scored twice again in quick order by two more rouses, and four points more by Figgott, who followed up Niven's kick by a beautiful run. The game was very uninteresting. The game ended shortly after this, with the ball well in Ingersoll's territory. The Ingersoll team have players who, with a little more practice, will give the best team a hard fight.

The London team was: Full back, Allan Macree; halves, Hueston Niven and McNece; quarter, Pigott; scrum-half, Simon, McEwen, and Taylor; wings, Clark, Moore, Skay, Beales, Skinner, Payne, and Smith.

The intermediate team is requested to practice every evening this week, starting at 5 o'clock to get in shape for the final championship game, at Toronto, with Varsity next Saturday. An excursion will be run from London and many of the team's admirers announce their intention of going down.

KICKS.

At Ottawa, Saturday—Ottawa College defeated the McGill Rugby team by 19 points to 10. McGill, however, won the round between the two teams, as they had a lead of 14 points from the first game played on McGill grounds. McGill will count two points toward the championship, and the college gets a goose egg in the McGill round.

At Kingston, Saturday—Queen's and Varsity Rugby football teams played in exhibition game. Queen's 10, Varsity 5.

At Toronto, Saturday—On the Rosedale grounds the T. A. C. Lornes combination were defeated by the Hamilton Tigers—22 to 10. Gilmore, Moss, Martin and McQuill were sent off for scrapping in the McGill round.

At Toronto, Saturday—The annual Rugby match between Ridley College, Et. Catharines, and Trinity School, Port Hope, on the Rosedale grounds, was won by Ridley by a score of 33 to 2.

The western football association

match between Berlin high school and Seaford, for the Hough cup, was played at Berlin on Saturday. Seaford 2, Berlin 0.

In the game of football played at Tilbury on Saturday in the Peninsula League, Essex vs. Tilbury, was won by Essex. Score, 1 goal to 0.

The Windsor and Chatham football teams played a game at Chatham on Saturday. The Chatham team winning by 2 to 0. The game has been protested.

At Philadelphia, Pa.—The Cornell freshmen football team defeated the University of Pennsylvania freshmen—6 to 0.

At Princeton, N. J.—Princeton defeated the strong Dartmouth team—20 to 0.

At Cambridge, Mass.—Harvard defeated Cornell 24 to 5.

The Tilbury-Chatham and Windsor-Chatham protests were considered at a meeting of the executive committee of the Peninsula Association Football League at Windsor Thursday evening, and Chatham was the loser in both protests, by reason of the casting vote of A. J. Watts, the secretary of the league.

It is likely that the intermediate and junior finals will be played in Toronto on Nov. 6, even if Brockville should win, as it would be fair to send them to Brockville, and Toronto is about half way.

WHEEL.

Bicycle polo, which has for some time been played at the Crystal Palace, is being taken up as a game around London. The ball is played by twisting the front wheel of the machine. Nottingham captain talks of making the attempt to cross the Atlantic in a steel boat 8 feet 2 inches in length, which will be propelled by a screw, pedalled bicycle fashion.

American insurance societies are demanding higher rates for "scorchers." Where possible in France roads will be assigned for the exclusive use of cyclists and pedestrians, to the exclusion of vehicles and cattle.

CASUALTIES IN ENGLAND.

During a carnival in Croydon, the dress of a married lady cyclist, who was attired as a snow queen, became ignited while lighting her lamp. She was seriously burned. An aged man was killed while cycling near Sunderland, and a Congleton curate met the same fate. A dog running in front of a bicycle at Lincoln caused the death of the rider. A lady, aged 45, fell dead while cycling near Stafford.

A RAILWAY PUZZLE.

The railway companies are sorely perplexed over the question of conveying bicycles safely and easily by rail. Dozens of schemes for securing the cycles to the sides or tops of the vans have been suggested, but the different railways, but the ideal device has not yet been discovered. Wooden stands, covering the whole floor space of the vans, have been suggested, but the cost of putting sixteen machines can be put into a van so fitted, against 40 to 50 cents, commodes in an ordinary van. Over 11,000 cycles were booked from Liverpool street alone during August, and many as 1,042 being sent in one day, so that any decrease in the capacity of vans (of which as many as possible are already made for cycles) would actually make train for cycles only an occasional necessity. The railways have to be prepared for anything now that everyone cycles, it is on record that one day at Bognor an ordinary train was beset by 300 cyclists, all demanding transportation for themselves and their wheels.

SPOKES.

The Chinese in Australia have taken to the bicycle. One of them in Sydney covered the distance in 2-4-5. Twenty thousand people, including the governor, Lord Hampden, assembled to witness the Chinese sports, which resulted upward of £1,200 for the Sydney charities.

The German imports and exports for cycles and parts for the first seven months of 1907 very nearly balance one another, according to the last official returns. From this source it appears that America is answerable for more than one-third of the imports, England for one-fifth, and Austria-Hungary and one-fifth for about one-sixth together.

A week ago last Sunday a wheelman was killed in a peculiar manner near Bridgeport, Conn. He sustained a fall, which, however, would probably not have resulted in any serious injury had not one of the side pockets of his coat contained an apple. He fell in such a way as to bring the apple between his head and the ground, and the sudden pressure of it upon an important abdominal nerve center caused a shock resulting in almost instant death.

Frederick Young and Ed Bertrand, of Crediton, went after the Sharon and Crediton road record of four miles on Thursday, doing it in 9 minutes and 58 seconds. This is fast time, considering the road. Both rode wheels geared up to 35.

NEW THREE-YEAR OLD RECORD.

Santa Anna, Cal., Nov. 1.—Searchlight is king of the pacing 3-year-olds. With a running mate was driven by Tom Keating, and established a new record at 2:05 1/2. His time at the quar-

ter was 3:32, half 1:02 1/2, three-quarters 1:34 1/2.

CRICKET.

Adelaide, South Australia, Nov. 1.—In the cricket match between an Australian eleven and the English eleven, the latter in their first inning made 475 runs, and the Australians made 409. At the close of play the Australians had 124 runs for three wickets to their credit.

ATHLETICS.

At Heywood, near Manchester, England, the other day, Mellor, the champion middle-weight wrestler of England, defeated Jack Omy, 140 pounds, of America, for £100 a side. Mellor won two out of three falls.

The mayor of Troy, N. Y., has put his foot down on boxing, and no more contests will be held there, it is said. He states he is satisfied that fighting did the town no good.

SPARRING MATCHES IN TORONTO.

At Toronto, on Saturday in a ten-round bout between James Smith, of Toronto, and Jack Ritchie, of St. Louis, the St. Louis fighter obtained the decision in the eighth round, when Smith took a cramp in his left leg. Ritchie had his man nearly out when the accident occurred. The evening was a fine one.

A 20-round fight at 150 pounds for a purse of \$500, of which \$100 was to go to the loser, Jim Popp, of Toronto, who recently fought draw with Frank Erne, of Buffalo, and George McFadden, of New York, were the contestants. Popp was declared the winner at 20-10 rounds. McFadden is a stayer, but he was evidently not in good condition.

DRAFTS.

Mr. Wylie, the herd laddie, who is now in the 18th year of his age, is slowly recovering from a rather sharp attack of bronchitis.

Great interest has been shown in the match at Edinburgh between Jordan and Stewart, for the championship of title world and £100, and the attendance of spectators at the various sittings has invariably been a fine one.

Where possible in France roads will be assigned for the exclusive use of cyclists and pedestrians, to the exclusion of vehicles and cattle.

self-surrender of the child of God is both a true and a progressive education. Sanctification is radically different in character from justification. Justification is complete; sanctification is progressively developed. Justification is Christ's work, once and forever imparted to us, and is of God alone. Sanctification is God's work, by the Holy Spirit in us, the progressive work in us both to will and to do of his good pleasure. "Man working and God enabling." The classifications with which Mr. Clark concludes his paper exhaust but do not overstate the facts of their theology.

He states he has established a mission in his opinion about evangelists in general, and the importation of extraneous elements to "aid" or to interfere with the work of the Holy Spirit in his mind, nor will it ever serve any end but that of extinction and annihilation.
