The resolutions of the recent Dominion Alliance Council and Prohibition Convention in favor of a deputation to the Dominion Government to ask for prohibitory legislation and respecting the plebiscite, and a deputation to the tive legislation, were considered and early convenient dates, the arrangements being left to the chairman.

The decision of the Privy Council having cleared all doubts regarding the local option clauses of the Ontario license law, it was considered desirable to take steps to stimulate local option contests in a number of municipalities this fall, and in this connection the secretary was instructed to prepare a manual on local option.

Two committees were appointed, on printing and distribution, consisting of Dr. Maclaren, Ald. Spence and Mr. W. H. Orr; and a finance committee, composed of Mr. J. T. Moore, Mr. H. O'Hara and Mr. W H. Orr. The printing committee was instructed to print and distribute a digest of the report of the Royal Commission on the Liquor Traffic, manual on local option and the minutes of the prohibition convention. The members of the executive were unanimously of the opinion that the outlook for the enactment of a prohibitory law for the Dominion as a result of the Dominion plebiscite was most hopeful.
