STIFFENED THE LIBERAL BAND:

Liberals Facilitate Business of Country by Passing Five Million Dollars Supply Before Easter Adjournment-Fight Next Week Likely To Be Fiercer Than Ever and Wild Scenes May Result.

Ottawa, March 20.—Parliament adjourned yesterday for Easter, and to get its breath for the contest which will be renewed when the law-makers assemble after the holiday.

To show their desire to facilitate the business of the country, the Liberals passed five million dollars supply before 6 o'clock last

Premier Borden's manifest to the country has not made much of an impression upon the Opposition. He stated that the rules were revised in 1910. So they were, and Premier Borden was on

He stated that the Liberals have already voted in favor of voting \$35,000,000 for the navy, but it is pointed out they did so on condition the money would be spent in Canada. To the claim of obstruction they point to disregard of the rules by the Speaker and chairman.

NO SURRENDER.

The ultimatum issued by Premier Borden, it now looks, would stiffen the Opposition in its determination to have the country pass upon the issue. Most of the members on both sides are going home, and when they return there will be an exchange of information in party caucus by both sides, which will guide the parties in

The Government after Easter will probably ask for more supply. The granting or refusal of this will have to be considered by the Liberals, who now seem inclined to follow the Conservative precedent and select the items which will be granted.

If the Government tries to force closure through, there will be a good deal of discussion. It will pass only after the Liberals have stated their views upon the closure plan of Speaker Sproule and the Government Saturday night. There are likely to be scenes in Parliament still before prorogation.
