#### Telegraphers Strike

Canadian Press Operators Refuse Arbitration—Two London Newspapers Co-operating To Substitute News Service by Long Distance Telephone.

The telegraph operators of The Canadian Press, which is the cooperative news service of the Canadian daily newspapers, went on strike at 1 o'clock today.

The strike has been called as the result of a failure of negotiations for a new scale of wages between the operators and The Canadian Press. The day operators have been receiving \$45 a week and the night operators \$46. The operators demanded an increase of over 36 per cent. or \$60 and \$65, respectively. The Canadian Press, in its turn, suggested a scale of \$42 for day work and \$43 for night work in cities of over 50,000 population, and \$38 and \$39 in cities of less.

The Canadian Press, in accordance with the existing agreement, asked that a conciliation board be appointed to arbitrate the whole question. This the men have refused unless the proposals for a decrease are withdrawn. As a result, the operators have walked out. The two London newspapers have co-operated, in so far as is pos-

sible, to substitute a mutual service by long distance telephone, so that the strike will mean a minimum of inconvenience to the public Please see also Page 2. Columns 2 and 3.

#### PREMIER OF BRITAIN ATTACKS PROFITEER

Ramsay MacDonald Deplores Present Tendencies of Workers.

London, Sept. 11 .- That the present day tendencies among the workers threaten the ideals of genuine socialism is the fear expressed by Premier MacDonald in a preface he has just written for a new addition to his well-known book on socialism. After defending socialism as evolutionary, not revolutionary, the premier writes:

### **DEVISE OWN WORK PLAN**

Murdock States Government Is Unable To Act in Present Situation.

LABOR DISPLEASED

Department of Municipalities Is Urged To Be Formed at Ottawa.

In a letter to the city. Hon. James Murdock, federal minister of labor, outlining the policy of the government on unemployment, states that the cities and provinces will be expected to find a solution of the problems presented by unemployment. While the mayor and Alderman Frank McKay were appointed a committee by the city council to go to Ottawa to ask for consideration for the city and for some measure of

Ottawa to ask for consideration for the city and for some measure of financial aid in the matter, it is now probable that they will not go. This letter of the minister is written following the late conference on unemployment, and is considered by city officials as representing the final decision in the matter. Frank White, M.P. for London, had nothing to say when told of the communication.

Ex-Alderman John Colbert, president of the London Labor party, views the decision of Ottawa unfavorably. "It is grossly unfair," he told The Advertiser today, "for the federal government to let the whole bucden of taking care of the unemployed fall on the shoulders of the municipalities and the provinces.

and the provinces.

Pertinent Questions.

"If Hon. James Murdock, the minimer of labor, attends the Dominion Trades and Labor Congress here next week, he will have some very partinent questions to answer in regard to this decision. On the other hand, this this decision. On the other hand, this is pretty much the treatment the cities have learned to expect, from past experiences with other federa. moved into the new quarters on or about the first of October.

Mayor Weniga Aldams. It is more published the situation of the city council including the control of the city council including the control of the city council including the control of the city council including the city council incl Mayor Wenige takes the situation a little more philosophically and be-lieves that something may yet be

with cases of this kind, where an obvious injustice is done to his city and others. All that is needed to put things right is to exert sufficient pressure behind every member at Offers Solution

A prominent member of the London Labor party suggests that the solu-tion lies in the formation of a department of municipalities at Ottawa. He believes that there should be a min ister to represent the municipalities and that a department should be provided to take care of the needs of the ties. He recognizes, however, the expense that this would be and agrees with the mayor that real live action n a large scale by the united munici. ality representatives in the govern ment would accomplish the required end. In the meantime labor is chewing the cud of thought and allowing ng the end of thought and allowing ts imagination to dwell on the com-ng winter, and will probably have comething to say about the matter next week in the national congress.
