

A Start in the Right Direction

The temptation to spend money in your pocket is greater than when your money is in a savings account in the bank. That margin of temptation may mark the difference between an opportunity to go into business later on or of working for wages with nothing saved and nothing ahead, at the end of your working years.

Why not open a savings account in The Bank of Nova Scotia today?

Your account will be welcomed and you will have made a start in the right direction.

EXTERMINATION OF SHELLDRAKE

Investigation on Nashwaak
Showed Destruction Among Trout.

A movement towards the extermination of the sheldrake duck has been begun in New Brunswick by which it is hoped to remove a feathered pest and protect to a greater extent the trout waters of this and other provinces.

Col. T. G. Loggie, Deputy Minister of Lands and Mines, and W. H. Allen, president of the New Brunswick guides' Association have taken joint action in the matter and at their instance R. W. Tufts of Wolfville, N. S., Chief Federal Migratory Bird Officer for the Maritime Provinces came here during the autumn and made a special investigation of conditions.

Along the Nashwaak river an official hunt for sheldrakes took place twenty-six of these destructive water-fowl being killed. Their bodies were shipped to Washington, D. C. where an examination of their stomachs was made by experts. Trout were found in the stomachs of nineteen of the ducks. In the stomach of one duck were found seven trout.

Worst Case on Record.
The letter from Mr. Tufts giving the results of this investigation of the bird's stomachs was the worst on record in Canada or the United States.

If the sheldrake is to be exterminated the Migratory Birds Act under which Canada and the United States take joint action to protect certain wild-fowl must be amended as under the present act the sheldrake is given certain protection. This duck is useless for food or as a game bird as the fish diet gives a most unpleasant flavor to the flesh. Trout streams in all parts of the continent are infested by them with the result that the fish are destroyed. In this province it has been found that almost impossible to stock certain waters with fry on account of the depredations of the sheldrake.

As far as is known New Brunswick is the first province or state which has taken action towards having the sheldrake placed so its depredations will be limited.

DON'T RUN SHORT.
Are your counter check books running low? It takes from two weeks to a month to get an order through the factory. Better order your spring supply to-day. Phone The Graphic for prices—Jan. 44 th.

Whizz a minute and walk a Mile

That's tobogganing—a swift slide down hill, and a long walk up hill.

A cold is generally like that—it comes quickly and easily, but it is a hard uphill pull to get back to normal health.

SHARP'S BALSAM
of Borehound and Aulse Seed

assures a rapid recovery from colds, coughs, and other bronchial and pulmonary affections. It has been the most popular and reliable cold remedy in the Maritime Provinces for the last 70 years.

25¢, buy a bottle of this insurance against colds, at any drug or general store.

Mother

"California Syrup of Figs" is Child's Best Laxative

Beware! Say "California" or you may not get the genuine "California Syrup of Figs" which doctors recommend for babies and children of all ages. Nothing else cleans the little bowels and regulates the child's stomach and liver so gently, so thoroughly. Directions on each bottle. But you must say "California." Don't be talked into an imitation fig syrup which hasn't the delicious, fruity taste or the perfect "laxative physic" action.
