PARIS, Oct. 22.—Egan is reported as PARIS, Oct. 22.—Egan is reported as saying: We can rely on the devotion of the Irish farmers. The Protestant farmer in the north of Ireland allowed a farm in which I had an interest to the extent of £3000 to go the emergency committee. We could quote hundreds of similar cases. Egan did not think the 340 cases submitted to the land court was a large number for all Ireland. Some cases had been prepared by the league, which had intended to present 1500 cases to court when stopped by the strest of Parnell. Egan further said: By declaring the league illegal the English government cut the constitutional ground for agitation from under our feet. We shall now be compelled to have recourse to unconstitutional illegal action. QUINCY, Ill., Oct. 22.—35,000 acres of land have been overflowed by a break in the Warsaw and Indian Grove levees. There is imminent danger of a crevasse at East Hannibal, which would cut out several railroad bridges. The only means of communication remaining between Quincy and the west is the Louisville branch of the Chicago, Burlington and Quincy road. This link is also in danger of being broken. Just below the city the track is covered with twelve to fourteen inches of mater for two miles. Yesterday a passenger train of fourteen cars with two engines was sent. The scene as the train passed slowly over the treacherous track was thrilling. The fire in the front engine was put out, but the engine in the rear pushed it through. Trains on the Quincy, Missouri and Pacific continued. All the roads on the Missouri side will suffer severely, the water being shigh that the road beds will be washed out.

HANNIBAL, Mo., Oct. 22.—The Mississippi rose six inches in twenty-four hours. The levee in many places was only a few inches above the water, but still stands firm. The break near Rockport is constantly growing wider, and the water has already covered the greater part of the land subject to the overflow in that vicinity. Refuges from Illinois continue to arrive and preat nambers are moving their stock and household goods. The water is now eighten inches below high water mark, and 20 ft. 6 in. above low water mark.

New York, Oct. 22.—The Vanderbilt roads, it is said, are making six months' freight contracts from this point westward at the prevailing low rates. This indicates the rates war will last all winter.
