There is danger in neglecting a cold, Many who have died of consumption dated their troubles from exposure, followed by a cold which settled on their lungs, and in a short time they were beyond the skill of the best physician. Had they used Bickle's Anti-Consumptive Syrup before it was too late, their lives would have been spared. This medicine has no equal for curing coughs, colds and all affections of the throat and lungs.

from Frank G. Logan & Co., Chicago: Wheat opened firm. Cables a disappointment to everybody, for instead of coming lower they came higher. May wheat is held with great confidence, apparently the strength in that position showing its effect more than on any other. Anxiety about the growing crop is beginning to be revived, for the moisture is still vastly deficient, and the season is now getting advanced, so that any continuation of dry weather will be a strong speculative factor. The truth is, the trade has not realized that the rainfall has been so deficient in March and April; we may break into excitement on this subject yet. It looks more like it to-day than it has. The indications this week have been for rains, and we have had them, but chiefly west of the river.

the river.

Demary, Heintz & Lyman received the following from their correspondents, Kennett, Hopkins & Co. The crowd are bullish and don't care what the receipts or exports are, whether it rains or not, whether cables come higher or lower; the receipts continue to increase exports Wednesday Evening, May 1.

The advance in C.P.R. was unexpected. Cable is very firm, selling up to 147 1-2 in Montreal.

Bank holiday in London, which accounts for absence of quotations to-day from that centre.

There is an agitation in Berkin to raise duties on grain, and this causes a firm market there.
