

COULD NOT STAND ON FEET

Mrs. Baker So Weak—Could Not Do Her Work—Found Relief In Novel Way.

Adrian, Mich.—"I suffered terribly with female weakness and backache and got so weak that I could hardly do my work. When I washed my dishes I had to sit down and when I would sweep the floor I would get so weak that I would have to get a drink every few minutes, and before I did my dusting I would have to lie down. I got so poorly that my folks thought I was going into consumption. One day I found a piece of paper blowing around the yard and I picked it up and read it. It said 'Saved from the Grave,' and told what Lydia E. Pinkham's Vegetable Compound has done for women. I showed it to my husband and he said, 'Why don't you try it?' So I did, and after I had taken two bottles I felt better and I said to my husband, 'I don't need any more,' and he said 'You had better take it a little longer anyway.' So I took it for three months and got well and strong."—Mrs. ALONZO E. BAKER, 9 Tecumseh St., Adrian, Mich.

Not Well Enough to Work. In these words is hidden the tragedy of many a woman, housekeeper or wage earner who supports herself and is often helping to support a family, on meagre wages. Whether in house, office, factory, shop, store or kitchen, woman should remember that there is one tried and true remedy for the ills to which all women are prone, and that is Lydia E. Pinkham's Vegetable Compound. It promotes that vigor which makes work easy. The Lydia E. Pinkham Medicine Co., Lynn, Mass.

NOTE AND COMMENT

Greece has massed picked troops. Well, better picked than pickled.

The counterfeiter makes money dishonestly, but there are others.

Even when John Bull "goes up in the air" he accomplishes something.

The world's greatest misfit is illustrated by the big opinions of a small man.

"Billy" Sunday, the revivalist, who is now addressing crowds in Philadelphia, the other evening paid his respects to the modern American legislator as follows:—"The Clay and Webster and Calhoun and Douglas and Lincoln type has been supplanted by the good-for-nothing, lickspittle, peanut-headed, wasel-eyed, whisky-soaked, rum-guzzling, gin-swilling politicians of our day." Couldn't we sick Billy on the Germans and Austrians for a round or two?—Orillia Packet.

During the past three years Canadian municipalities have borrowed \$240,000,000. Of that amount 25 per cent. was marketed in Canada. One hundred and thirteen million dollars was borrowed in 1913, which was a high watermark, and unlikely to be reached again for some time. In the opinion of some financiers, the tendency is towards lower rates of interest. The extensive liquidation that has been going on, the cessation of new enterprises and the marked caution followed in every direction in the matter of improve-

ments and developments are the influences at work which will lower the interest rate. This condition, it is thought, will continue regardless of whether we witness a fair revival in industrial activity next year or not.

Patriotism and Production

Patriotism without production is an empty sound. If ever there was a time when by your deeds you are required to be known, it is now. Now, when the Empire is at war; now, when many of the regular channels of supply are closed; now, when men in millions have been summoned from the paths of industry to the inferno of destruction; now, when Britain is fighting for Belgium's right to live; now, when the world's liberties are at stake; now, when Germany seeks to prostrate Britain even as she has prostrated Belgium; now, when Germany threatens the forty million people of England, Scotland, Ireland and Wales with starvation; now, when the enemy is bombarding peaceful towns and villages, slaughtering innocent and harmless women and children; now, when fertile fields and fruitful gardens of other lands are lying in waste and swollen with death; now, is the time when Canada is called upon to put forth her mightiest effort to help stem the tide of destruction, to aid the Empire and to profit herself.

In entering upon the campaign in which it is now engaged, the Department of Agriculture of the Dominion has entered upon a task that should do untold good. It is not that our farmers needed altogether to be prompted to benefit themselves, but that perhaps some of them do not recognize the seriousness of the present and the more than probable critical conditions of the future. If the war were to end to-morrow, there would still be need for every effort in productiveness, for many years must elapse before the devastation that has been caused can be remedied or repaired. Unhappily, the probabilities are that the giant conflict will continue for many months yet, in which case the mind of man cannot fathom or foresee the damage that will have been done to every form of industry. To agriculture in particular, by the waste of life, by the wrecking of property and by the spreading of desolation. It is in repairing the damage others cause that the farmers are called upon to aid. It is their mother country that cries to them.

The Agricultural Department is not alone holding conferences at any points in the country, but it is engaged, as will be seen by the announcement elsewhere, in distributing large quantities of literature telling how the farmer can best serve the interests of the empire, display his grateful sense of patriotism and bring profit to himself. In brief and explicit language, that all who run may read and understand, is pointed out the needs of the situation and how those needs can be met. Above all, the advice is given to avoid waste. Everything can be utilized. Nothing need be thrown away as valueless. The economy of production is in saving.

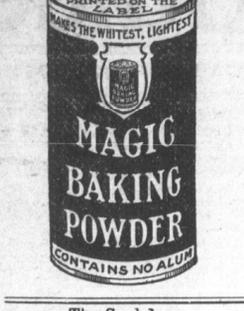

The wisest can learn something by reading, and in the Bulletins and Reports prepared and written by experts and men of practical science, farmers will find hints, suggestions and information of the greatest possible value at this season, and such as will advantage both their land and themselves for all time. They will also aid them in that duty to the Empire which is such pressing and instant importance that to shirk it is to be criminal. Copies of the publications of the Department can be had upon addressing Publications Branch, Department of Agriculture, Ottawa. No postage is required on the application.

Clean Stomach, Clear Mind.—The stomach is the workshop of the vital functions and when it gets out of order the whole system clogs in sympathy. The spirits flag, the mind droops and work becomes impossible. The first care should be to restore healthful action of the stomach and the best preparation for that purpose is Parmelee's Vegetable Pills. General use for years has won them a leading place in medicine. A trial will attest their value.

Of French invention is a rubber stopper with a flexible projection which can be folded down around the neck of a bottle for additional security.

An electric motor with a number of flexible rods mounted at right angles to its shaft has been invented in Germany for beating and renovating furs.

NO ALUM

The Seed Law

With the opening of the 1915 seed trade, seedsmen, farmers and gardeners may wish to review the conditions under which sales may be made. The Seed Control Act provides that timothy, alsike, red clover and alfalfa seed must not be put on sale for the purpose of seeding without being plainly marked with the grade, namely:—Extra No. 1, No. 2, No. 3. Farmers may sell seed below No. 3 in quality only to dealers to be cleaned and brought up to grade. All other grass, clover and forage plant seeds and those of cereals and flax must be marked in a plain and indelible manner with the common name or names of any noxious weed seeds present.

Seed of cereals, flax, grasses, clovers, forage plants, field roots and garden vegetables must have a germination of two-thirds of the percentage standard of vitality for good seed of the kind or be marked with the percentage that are capable of germinating. "Papered seeds" must be marked with the year in which the packet was filled.

Representative samples of seeds for purity and germination tests may be sent to the Seed Branch, Ottawa. Two ounces of grass seed, white or alsike clover; four ounces of red clover, alfalfa or seed of like size and one pound of cereals are desired. Samples under 8 oz. may be sent without postage and are tested free of charge up to 25 in number for each person or firm.—Seed Branch, Ottawa.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75¢. Take Hall's Family Pills for constipation.

The Bacon Hog

"Swine Husbandry in Canada" is the title of Bulletin No. 17 of the Live Stock Branch of the Department of Agriculture at Ottawa. This publication describes the bacon hog and discusses his breeding and rearing.

The breeds of swine reared in Canada are described and a history of each is given. An interesting section is devoted to the production of pork on Canadian farms. The information was evidently secured from practical farmers in cheese factory and in creamery districts and in sections, where hogs are raised without dairy by-products.

The bulletin concludes with articles on hog cholera and tuberculosis, written by the Veterinary Director General and the Chief Meat Inspector, respectively. This bulletin is generously illustrated and printed in sepia brown ink. Copies are available to those who apply for them to the Publications Branch of the Department of Agriculture at Ottawa.

Simple and Sure.—Dr. Thomas' Electric Oil is so simple in application that a child can understand the instructions. Used as a liniment the only direction is to rub, and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young or old, in

SAVE YOUR DOLLARS \$

ONE WAY TO SAVE YOUR DOLLARS IS TO BUY WHERE YOU CAN GET THE BEST VALUE FOR THE MONEY—ALSO THE BEST SERVICE.

It is recognized, and we can back up what we say, that we are the cheapest place in the west at which to buy all kinds of Builders' Materials.

For all our contract customers we will run out flooring or any interior finish out of their own lumber.

Our Mr. Daniels, Alvinston, has been engaged for this year. He is an expert mechanic.

We have bought heavily in lumber and got the discounts. Our lumber comes direct from the mills. We can save you the middleman's profit.

Large Shipments Arriving Weekly.
