IN CLASSIC LINES

**New Parisian Coiffures Modeled
 After Famous Greek Statues.**

**Artificial Waves Out of Favor and
 Hairdressers Are Trying to Give
 Natural Effects.**

Two of the newest headdresses for
 girls are shown in the accompanying
 sketch. The profile head shows the
 classic outline which is so much in fa-
 vor with the Parisians. The unwaved
 hair is softly drawn back from the
 face and twisted into a coil at the back

of the head, after the manner of so
 many of the famous Greek statues,
 writes Idalia de Villiers, a Paris cor-
 respondent.

Then a long length of gold galon
 edged with black is passed round the
 forehead, then round the chignon, with
 a bow tied underneath the latter. Any-
 one with regular features could adopt
 this headdress with much benefit, but
 pretty girls with small and uncertain
 noses would do better to copy the sec-
 ond style which shows a narrow ban-
 deau of multicolored beads drawn
 round hair dressed in Julia James
 fashion.

In this latter headdress the hair is
 cut in a fringe across the forehead and
 loose curls over the ears. Artificial
 waves have completely gone out of
 favor and all our best hairdressers are
 trying to give natural effects, even
 when making use of the waving tongs.
 Kiss curls over the ears are still in
 favor and straight fringes are worn by
 every second smart one one meets.

How Coal Was Named.
 The name of coal was first applied
 only to fuel made of charred wood or
 what we call charcoal, says an ex-
 change. When the use of mineral coal
 began it was called sea coal, because it
 was at first only found along the sea-
 shore along with seaweed and other
 wreckage cast up by the waves and
 thus supposed to be of marine origin.
 From its resemblance in color and
 burning qualities to charcoal, it finally
 received the simple name of coal.

Humor.
 Humor is the true sixth sense. Lack-
 ing it, one misseeth the joy of living.
 It lurks under the serious affairs of
 life as a violet lurketh under the trees
 of the forest and when so found is
 more to be prized than that which
 shouteth itself from the housetops.

Potatoes.
 The stem end of a potato is the end
 that was attached to the vine; the op-
 posite end is the seed end. The seed end
 might be called the top of the potato
 and the stem end the bottom. The buds
 at the seed end swell and grow first.

His Threat.
 "He must be a perfect savage."
 "Why?"
 "He threatens his wife with his civil
 when they have a difference."

Executive Ability.
 Little James—Father, what is execu-
 tive ability? His Father—The faculty
 of earning your bread by the sweat of
 other people's brows, my son.

Tree Juice.
 Intoxicating liquors have been made
 from the sap of the birch, the willow,
 the poplar and the sycamore.

Too much rest itself becomes a pain.
 —Homer.

**DOCTOR SAYS
 VINOL IS THE
 BEST TONIC**

**Honest Opinion Doctor Gave
 His Patient**

Bedford, Ohio.—"I was in a pitiful
 condition, weak, nervous and run
 down so I could not do my housework.
 I had doctored for years and tried
 everything under the sun. A friend
 told me about Vinol. I asked my
 doctor about it, and he replied, 'It
 certainly is the best medicine that can
 be had today. I couldn't give you
 any better.' I took it, and today I
 am as well and strong as any woman
 could wish to be, and it was Vinol
 that saved me."—Mrs. Frank A. Hor-
 key, Ash St., Bedford, Ohio.

 and iron tonic for all such conditions.

The Bean Family

Pound for pound beans furnish
 one-third or one-half more nourish-
 ment than meat. There are many
 kinds of beans such as the red or
 chili bean, the black bean, the speck-
 led black and white bean and the
 lima, which should find more staple
 use. What is more delicious than a
 casserole dish of red chili beans com-
 bined with a little mutton and flav-
 ored with tomato sauce? Limas
 and other beans may be boiled, sea-
 soned, run through a puree strainer
 and used mashed instead of potatoes.
 All of them make good soup, espe-
 cially the black bean. Dried limas
 are good soaked, stewed and season-
 ed with sausage fat. The common
 pea or navy bean is excellent baked
 or made into a nourishing soup.

If milk is cheap the housewife will
 find it one of her greatest food allies.
 It is common in some households for
 the adults not to use milk except
 with cereal. More milk dishes should
 be used, especially in creamed soups.
 These are made by combining milk
 with the cooked pulp of some vegeta-
 ble. Eaten with bread they form
 most wholesome meals. More vegeta-
 bles should be creamed and cus-
 tards be regarded not as luxury des-
 serts but as a substantial dish. The
 use of eggs, milk and cheese as in a
 soufflé is another excellent form.
 Milk toast, milk sauces and other
 forms can be used in place of more
 expensive foods.
