**EXPERIENCE**  
**and CAPITAL**

Are most essential features in up-to-date piano manufacturing.

Is it not reasonable that a concern established A.D. 1849 could qualify as to **EXPERIENCE**?

Is not a capital of many millions a guarantee that proper material can be secured, and proper experts engaged to put it together?

Is not the following list of distinguished patrons—viz.:

KING EDWARD, Windsor Castle,  
RT. HON. SIR CHARLES TUPPER, K.C.M.G.,  
HON. G. W. ROSS, L.L.B., Premier of Ontario,  
HON. R. P. ROBLIN, Premier of Manitoba,  
TORONTO COLLEGE OF MUSIC,  
ONTARIO COLLEGE OF MUSIC,

evidence that all that experience and capital can avail has been used in manufacturing a high grade instrument?

We refer to the

**WILLIAMS PIANO**

for which we are the sole Western Agents.
