O'Connor; plumbing and gas fitting, Mahome Bros.; painting and glazing, William Scriven; heating contract not let.

ALL CANADA AT TORONTO.

There will not be a province or a piece of territory in the Dominion that will not be represented at the exhibition to be opened in Toronto by Earl of Dunsdon on Labor Day and to be continued from Monday, September 1st, (Labor Day) to Saturday, September 13th. To mark their appreciation of this evidence of the country's confidence, the Executive have increased the Prize List until now it is proudly boasted that, with specials, upwards of \$37,000 will be distributed in prizes among the exhibitors, six-sevenths of which will find its way to the agricultural community. While this large sum proves the magnitude of the exposition, the enterprise of its managers, and the comprehensiveness of the exhibits, the fact that \$30,000 is to be spent in attractions and special features, the latest inventions as well as the latest novelties in the amusement world, and including \$7,000 for music, shows that while the agricultural and industrial interests of the country are to be well looked after, the people's enjoyment will not be neglected. America and

Europe have been scoured for all that is best in every line of attraction. Bolossi Kirally, the greatest master of spectacle on earth, has been secured to produce in all its brilliancy and gorgeousness his stupendous production "The Orient," which was the wonder of London, Eng., at Olympia for a year, and that is only one of the really costly features that have either been engaged or are being negotiated for. Then there are the new Dairy Building and the new Art Gallery, which will greatly increase the value of the exhibition as a factor in the education and elevation of the people. Reduced rates will, of course, be available on all lines of travel.

DATE OF PUBLICATION

Architects, engineers, municipal authorities and others are reminded that the CONTRACT RECORD is printed every Tuesday afternoon, and that advertisements should reach the office of publication not later than 2 o'clock p.m. on that day to insure insertion in the issue of the current week. Advertisements are frequently received too late for insertion, to avoid which special attention is directed to this announcement.
