PROSPECTUS FOR 1873---SIXTH YEAR.

### "THE ALDINE,"

n Sinstrated Monthly Journal, universally admitted to the hands-meet Periodical in the world.

A Representative and Chamblen of
American Taste.

Not for Sale in Book or News Stores.

THB ALDNE, while issued with all the regularity has none of the temporary ortimely interest characteristic of ordinary periodicals. It is an elegant charactery for of ordinary periodicals. It is an elegant charactery fure, sight and graceful literature, and a collection of Metures, the rarest specimens of artistic skill, in black sod white. Although each survecting number affords a fresh pleasure to its friends, the real vatu and beauty of THB ADLINE will be most appreciated after it has been bound at the class of the year. While other publications may claim superior cheapness, as compared with Irels of a similar class, THE ALDINE is an unique and and original conceptions sione and unappreached—ab solutely without competition in price or character. The Possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any other shape or assiber of volumes for ten times its cost; and thea there are the chromos, besides i Not for Sale in Book or News Stores.

### ART DEPARTMENT.

To possess such a valuable epitome of the art world at a cost so trifling, will command the subscriptions of a thousand in every section of the country, but, as the needliness and attraction of THE ALDINE san be enclassed, in proportion to the numerical increase of its approvers, the publisher proposes to make "assurance assures," by the following unparalleled effort.

JAMES SUTTON & CO., Publishers.

58 Malden Lane, Borr Pork.

# WILL CLEANSE YOUR CLOTHES WITHOUT RUBBING.

Every one sold is fully Warranted.

NO FLUIDS OR EXTRA SOAP USED

It Consumes less Soap, less Time and less Fuel than the Usual Method. It Saves Labor, Wear and Tear, and the Annoyance of Wash Day.

IT REQUIRES NO ATTENTION WHILE THE PROCESS OF CLEANSING COES ON. It will do the Washing of the Family while you are Eating Breakfast and Doing up Dishes.

STEAM has long been known as the most powerful agent in removing dirt, grease, and stains from clothing, and bleaching them white. Paper makers have for many yours used steam as cleaning and bleaching their raiss, and the succeed in making, by its agency the fithlest plokings from the gutter perfectly pure and white Until the invention of the STIEAM VVASILIER OF VVOMAN'S ITALIEM D, although often attempted, no method had been discovered of applying steam directly to the clothing, which could be used in a postable manner for demastic purposes. The WOMAN STRIEM WASHER is superior to all other devices for the following reasons.

- 1. It does its own work, thereby saving a large portion of the time usually taken in a family.
- 2. It uses much loss soap than is required by any other method.
- 3. It requires no attention whatever while the progress e' cleaning is going on. A lady can do her washing while she is eating her breakfast and doing up the breakfast dishes.
- Clothing wears double the time, washed in this Washer, that it will washed by a machine, or by hand-labor, or a washboard.

5. Lacocurtains, and all fine fabrics, are washed in a superior manner. For flannels this Washer is most desirable, as it will not full them as a machine or hand-rubbing does. All fabrics, from the finest lace to a bed-blanket, can be washed perfectly and with ea-o, without the rubbing-board. It is Truly a Labor and Clothes Saving Invention.

READ THE FOLLOWING

### CIRCULARS AND TESTIMONIALS:

Irespectfully ask you to read this circular carefully, and cambelly consider what I now propose to you as a matter of business. Before making known to you my confidential terms, permit me to state that the matter of washing clothes is one of an small consideration. It is something which concerns every family and overy individual. It is but recent since HAND WASHING was an common use. Latterly, however, the aventite genius of the country has been directed to the invention and construction of various devices or machinery by which much of the labor, drudgery, loss of time, and wear of material might be obviated. Ponderous as well as intricate Washing Machines have been constructed—many of which are decided improvements over the old method of washing and lines machines have been very salable with all. Peel to will continue to have Washing Machines; but let me ask you, if the STEAM WASHEIL can be constructed for a few dellars much less that any ordinary Washing Machines, and able to suppose that it will supersed, in a great measure, all Washing Machines now in common use? The sale of this Washing that it will supersed, in a great measure, all Washing Machines now in common use? The sale of this Washing that it will supersed, in a great measure, all Washing Machines now in common use? The sale of this Washing is unparalleled, and must be so. There is nothing in use like it. It is now, and every family needs it and will buy it. I wish to secure a few good men to sell rights for me, and in order to secure as many as I need immediately, I offer extra inducements. My pice for territory is 89 per 1,000 inhabitants; but if you will buy a single county and agree to sell rights for me, I will allow you to deduct 62-3 per cent, as your commission, consequently, your county would cost you but 875 instead of \$223, should it contain but 25,000 inhabitants, more or less in the same proportion. And to those buying rights I will sell Washers at nearly cost, and to those now buying rights I will sell Washers at mealy cost, and to th

Many of my patrons have requested me to suggest to them the best method of selling the WOMAN'S FRIEND, in order to make the most money in the shortest time practicable. In reply I would say that there are many methods which might be suggested, all of which seem to work well, but the most promient of which I will suggest. In the first place send for a sample and carefully test it, you will learn by a single trial how to wash with it most successfully. All you have to do now is to exhibit to others. I will suggest that you make an engagement to wash at a certain place, at an appointed hour, manage to have as many present as possible. You will be astenished at the intense excitement it will produce after the water and steam have rushed through the tubes and founced over the clothing, rushing back through the clothing to the lower bottom, to be suddenly returned again in the same manner—say for thirty minutes—you take out the clothing, rinso and wring out, and find the clothing perfectly delighted with it.

will find all perfectly delighted with it.

You can take orders from nine in ten present, to be filled afterward, at prices ranging from \$8 to \$10 each. A single trial in this manner will satisfy you that the WOMAN'S FRIEND is a success and will sell. You should, in that case, lose no time in ordering a deel for your county, to be sent by express C. O. D., if not convenient to advance the money. You should, meanwhile, continue to take orders, and by the time your deed would come to hand you might have a gross sold. You should, likewise, arrange with a responsible Timer to make the Washen-the price will vary, according to style and finish. I have known some agents to soll as many as wonthy Washers in a day. After you have introduced it more or less in your county, you can take another county, and rest assured that whorever you can get a single Washers in the neighborhood it will sell many more. Consequently, after you have sold a few hundred in a county, you can sell the right of your county for much more than at the start. You can calculate what your gains will be by buying a single county but this is not a tenth part of what you ought to make, for while you are travelling you will meet with many men who want to make money to whom you can sell rights. There is no business you can engage in which offers such splendful inducements, besides, it is a safe business, no less, and pleasant because it rendors perfect satisfaction. I can not see how I can propose better terms. Should I allow my patrons to make their own terms, I scarcely believe they could make better terms for themselves, and make more money.

On the receipt of five della, a. I will ship you a complete Washer, as a sample, together with a Certificate of Agency, a book converning the census of 1870, Patent Laws, Instruction how to sell Patents, and Pictorial Pesters, with full instructions how to conduct the business. And upon the receipt of the Washer you may have time to test tim, and if you find it not as represented, I will refund your money. The Washers retail at \$10. After I send you a sample I will hold your county a reasonable time for you to decide whether you wish to purchase or not. I will furnish clank deeds, and will de all I can to employ you to succeed in the business. Let me hear from you soon, or your choice of territory may be sold to some one cisc. Do not ask me to send C. O. D.

### DIRECTIONS.

I. Souk the clothes over night in warm suds-in the usual manner.

2. Put in the bottom of the WASHER a quarter bar of good soap, or enough to make a good suds, sliced up thin, then fasten down the false bottom—see that the center valve is in the proper position; put in water enough to cover the cap ever the valve, say about an inch. Lay the clothes down smoothly with the solided parts well scaped, in the WASHER—not rolled up, but spread out, so the water can circulate freely—and carefully pack the clothes down, see that the fire is not sufficient to generate steam; when the water bols, it will begin to flow up the tubes on the outside, at he cade of the WASHER, and through the holes into the WASHER, and through the holes into the WASHER again, after a steady circulation has been going on in this manner for about thirty to forty minutes, the washing will be completed. Runse well and wring out, same as in the usual way. Colored clothers must not be mixed with white. Use soft water for boiling always. If hard, use sods, lye, or make it soft in any other way.

If it is desired to bleach with the WASHER, this may be done by adding a table-spoonful of borax commerce to a WASHER full of clothing.

I refer you to a few extracts from letters received. I can publish bundreds of letters from parties who have used the Steam Washer, and speak in its praise. I have, thus far declined doing so. I knew full well how Certificates are looked upon. I have sold the Steam Washer upon its own merits. Thousands have used it, and it has given universal satisfaction throughout the country. I ask none to reli-on what I say, or the commonstaries of others, but let the Washer stand on its morits. I would not ask or advise any one to engage in this business of selling Washers or rights, unless he has theroughly tested its work; and to enable all to do so, I send a sample Washer upon receipt of \$5.00 (about half the retail price), and guarantee that if not found as represented I will refund the money. So there is little risk to begin with. I have advertised the Steam Washer in all the leading and most reliable religious papers, also the leading secular papers in the United States and Canada, and no article over advertised before has been as extensively endersed by the press and the people, as has been the Steam Washer. I shall centimue to advertise it in all first-class papers—Of course my former patrons who have bought territory, and are solling Washers at retail and wholesale—as well as takes whom wy hereafter engage in the business, will be benefited proportionately—I am certain the Steam Washer will be used in every family.

St. Mant's, Auglaize Co., O. | knowledge it a perfect success. I write to order a

family.

St. Mart's, Augicize Co., O.

Doar Sir:—Having used your Steam Washer for over four months, we are prepared to recommend it to the public as far the cheapest and easiest method of washing that we have ever met with. We have tested it theroughly, washing very dirty clothing in it, and know that it will do all that you claim for it. We have never had to rub a single article on the wash-board that had been washed in the Steam Washershee we have ever met with.

J. C. Tilton, Sin.—We have used your Steam Washer in on family, for three months, and are well pleased with it. Would not do without it for three times its cost.

REV. J. JACKSON and WHEE

REV J JACKSON and WIFE.

COMPORT, Kendell Co., Texas, Feb. 10, 1873. COMPORT, Rendail Co., Texas, Feb. 10, 1615.

J. C. Tilton, Esq.—Dear Sir:—The sample Washor which I ordered arrived in due time. All who have seen it in operation are well pleased with it. It will do all that you claim for it. You will please send C. O. D. Deeds for the additional 12 counties ordered, and oblige. Very respectfully JOS. B. HADDEN.

Mn. J. C. Tilton—Doar Sir.—The Washers came duly to hand; accept my thanks for your promptitude. I am glad to acknowledge it all you recommend Several have come to see it tricd; all acknowledge it a perfect success. I write to order a Deed to Sampson Co., N. C. Please send C. O. D. Direct to

MECHIAS, Mr., Feb. 15, 1873.

MR. J. C. TILTON—Dear Sir:—Washer received, and I am very well pleased with it. I think it is all you claim for it, and more, too. I have fully tested it. All who have seen it operate are delighted with it, and, indeed, many are astenished, when they see it flow eight jots or streams of water—wonder to know how it can do it. It is mysterious to many. Many have promised to buy one as soon as I can deliver them. Bive I do not wish to operate here; business requires me to go to Illinois, and I will call and see you.

Yours, etc... C. SAND. We will pay Express or Freight charges to any place where there is an Express or Railroad Office. Will send to any Post-Office.
