

METEORIC STONES ARE NOW known to descend periodically on certain zones of the earth. Almost all of these meteoroids contain iron, and most of them contain a proportion of the metal known to commerce as "Nickel." This metal, separated from its ores, and alloyed with more ductile metals, produces the celebrated article known as

NICKELITE SILVER.

Spoons and forks made of this metal have almost all the properties of silver, being hard, white, and taskless, yet they can be sold for less than one-tenth of the price. All articles made of this metal are stamped "R. W. & Co., Nickelite," and are highly warranted. No others are genuine. For Hotels, Restaurants, and private families they are unequalled. To be had of all dealers.

CERTIFICATE FROM MR. ALFRED KNUCKLE, American House, St. Joseph Street—

MONTREAL, March 7th, 1872.

DEAR SIR,—I was afflicted during the beginning of this winter with a most severe COLD, attended with incessant COUGHING and DIFFICULTY OF BREATHING, which reduced me to low that many persons supposed I could never recover. I tried a great many things, which were given me both by my doctors and friends; but did not receive any benefit from anything until I commenced using your "HOARHOEN AND HERRY BALSAM," which seemed to give me relief immediately. I continued using it until I was completely cured, and now I believe I am as well as I ever was in my life. I would gladly recommend it to any person suffering from a similar complaint. Almost anybody who knows me can testify to the above. ALFRED KNUCKLE, Mr. RICHMOND SPRINGER, Chemist, corner of McGill and Notre Dame Streets.
