

PEASE ECONOMY FURNACES

"700 Series"

This is our new Furnace which we are just introducing to the Canadian public—while retaining all the best features of our past furnaces (which have earned their name "ECONOMY") it possesses in addition many improvements and exclusive features. Among them are—

1. Copper Bearing Steel Radiator—adds 50 per cent. to life—is non-corrosive.
2. Clean out doors—enabling one to clean out furnace any time whether the fire is going or not
3. Specially shaped firepot, preventing ashes clogging and largely increasing heat.
4. Special provision for Domestic Heater which can be attached without taking down the Furnace or putting out the fire.

And many other features too numerous to mention
