

Consumption and Wasting Diseases.

L. de Itremont, M.D., Knight of Legion Honor, in his work on Consumption, says: Dr. CHURCHILL, of Paris, never mixes Iron with either of the Alkaline, Lime and Soda Hypophosphite Salts. He considers the mixture of Hypophosphites objectionable, preferring to fact the Salts separate, giving them alternately according to the Physiogenic or Pathogenic symptoms produced by either. He also says that the Hypophosphite Salts as sold are generally impure.

EAGAR'S PHOSPHOLEINE contains PURE HYPOPHOSPHITES with NORWAY COD LIVER OIL only. It is free from Iron or any other chemical which will account for its superiority to all other preparations offered for Wasting Diseases. Read below the certificate of Dr. Slayter, DATED JANUARY 1881.

The proprietor also has certificates from leading physicians in Toronto, St. John, Halifax, &c., of equal value, proving conclusively that EAGAR'S PHOSPHOLEINE or Cream is the greatest preparation now in use. Second Certificate from Dr. Slayter:

Halifax, Jan., 1881. Since giving you my last certificate I have had many opportunities of further testing your Cod Liver Oil Cream and as well of comparing its action with the EMULSIONS AND PREPARATIONS OF OIL IN THE MARKET. I may state that I BELIEVE IT TO BE THE BEST PREPARATION NOW OFFERED TO THE PUBLIC, the drugs and oil being of the very finest quality, while the facilities and machinery used for mixing them are of the most perfect kind. I have no hesitation in stating that where Oil is indicated EAGAR'S CREAM WILL BE FOUND TO BE EVERYTHING THAT IS CLAIMED FOR IT BY ITS PROPRIETOR.

ZOEDONE.

A Delicious Beverage.

The BRITISH MEDICAL JOURNAL says:

"We can confidently recommend it to the attention of physicians and others who are occasionally at a loss what to direct their patients to take when parched by feverish thirst or depressed by exhausting ailments—notably in cases where alcoholic stimulants would be prejudicial. We feel that it would be found exceedingly useful in mitigating the discomfort oftentimes experienced by those suffering from the thirst, loss of appetite, and general malaise connected with the last stage of phthisis and chronic bronchitis. We would also, from our observations and experience, advise its introduction into clubs, taverns, and places of public amusement, where it would judiciously supersede vinous and alcoholic stimulants, seeing that it contains, as its name implies, life-giving ingredients in a form easily assimilated."

A BRAIN AND NERVE TONIC.

The LANCET says: "Zoedone contains the soluble phosphates of lime, iron, soda, and potash in medicinal quantities. Very efficient and pleasant."

The MEDICAL PRESS AND CIRCULAR says: "Is commendable equally for the style in which it is put up and the delicate flavour which it possesses, and also on account of its special merits as a nervine tonic."

NON-ALCOHOLIC. STIMULATES BY STRENGTHENING.

CAUTION.—Dealers should be on their guard against numerous imitations of ZOEDONE, put up in the same style and offered as substantially the same article. The composition of ZOEDONE is protected by Letters Patent, and the Zoedone Company will proceed against infringements.

Every Chemist that has introduced ZOEDONE has found a large and regularly increasing sale for it.

It is put up in Champagne Bottles, and there is no trouble with empties, as the bottles are included in the price.
