A NOTED BUT UNTITLED WOMAN. [From the Boston Globel

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large-correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Hor Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recon and prescribed by the bost physicians in the country, One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhosa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulcration, Floodings, all Displacements and the con-sequent spinal weakness, and is especially adapted to

the Change of Life."

It permeates every portion of the system, and gives now life and vigor. It removes faintness, flatulency. destroys all craving for stimulants, and relieves weak ness of the stomach. It sures Bloating, Headaches, Nervous Prostration, General Debility, Sloeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only \$1, per bottle or six for \$5, and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is

nneurpassed as abundant testimonials show.

" Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the ours of Constinution Billousness and Torpidky of the liver, Her Blood Purifler works wonders in its special line and hids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others. Phili- ohia, Pa. (2)

lican of that city :- "The public has formed wrong impression of Mary Anderson. Pecple think of her as a living iceberg. Nothing could be farther from the truth. She is for all the world like a big schoolgirl, chockful of animal spirits, and overflowing with joili-ty. Why, I have seen her bound into the wings, and, in the exuberance of her frolicsome disposition, jump on a man's back and make him carry her. loebergs don't do that She is just the sweetest, nicest and best girl you ever met, and not a bit stuck up when you come to know her. When Louis James was playing 'Romeo' to her 'Juliet,' in the theatre, two or three years ago, he took her nose between his teeth when she stooped over to take the poison from his lips, and held her an unconscionable time. Mamma Griffin saw what he was doing, and she was in an agony of fear lest the audience should see it, too. 'Just look at that devill' she cried coming over to where I was standing, the is biting Mary's nose right there on the stage Oh, I wish I could get at him!' What a circus there was when the outtain rang down Mary chased James all over the stage with a plece of board, and the company looked on and split their sides laughing at the sight."

OUR HABITS AND OUR CLIMATE. All persons leading a sedentary and inactive life are more less subject to derangements of the Liver and Stomach which, if neglected in a changeable climate like ours, leads to chronic disease and ultimate misery. An occasional dose of McGale's Compound Butternut Pills, will stimulate the Liver to healthy action, tone up the Stomach and Digestive Organs, thereby giving life and vigor to the system generally. For sale every-There. Price, 25c per box, five boxes \$1.00. Mailed free of postage on receipt of price in money or postage stamps.—B. E. McGale, chemist, Montreal.

Washington, D. C., Feb. 19th, 1882. Gentlemen-Enclosed find one dollar, and will you send me some of N. H. Downs' Vegetable Balsamic Elixir, by express. I have a bad cold, as has almost everyone else here, but cannot find the Elixir, which I use frequently at home, and consider a most valuable medicine; in fact, the very best remedy for a cough that I ever used.

Very truly yours, William W. Grout.
To Henry, Johnsons & Lord, Burlington, Vt. Downs' Elixir is sold by all Druggists throughout Cauada.

SUCCESSFUL CELERY MANAGEMENT Certain plants grow most rapidly during September. The warm days are followed by cool nights, which bring copious dews; these refresh and invigorate the plants to such a marked degree, that it is not difficult to believe that they act as a fertilizer, bringing down the ammonia of the atmosphere for the use of the plants. Among the crops most strikingly benefited by the alternation of warm days and dewy nights, is celery. Having recovered from the effects of transplanting, it is now fairly established; its rapid growth should be encouraged by the frequent use of the hoe, without reference to the pre-sence of weeds. In the old plan of planting celery at the bottom of a trench, earth was added every weak or two. Some, in adopting the improved method of planting upon the surface, think that it is necessary to earth up the plants gradually. This is a mistake, and the treatment will result in poor, hollow stalks. In the present method, the plant should first make its full growth, and then be blanched by excluding the light, which is the object of earthing up. If the earthing is gradual, the stalks will contime to grow at the tops, but largely at the expense of the lower part, which will be drawn upon to continue the growth, and instead of solid, crisp, and tender celery, it will be tough, hollow, and stringy. The main portion of the crop should not be blanched until its growth is complete, and severe frosts are at hand. If celery is needed for early use or sale, then a share of the crop, but only as much as can be disposed of, is to be earthed up. The first step in doing this is to bring the stalks of each plant into an upright position, grasping them with one hand, while with the other sufficient soil, previously made loose by hoeing, is drawn towards the plant and pressed against it, to keep the stalks erect. This operation, called "handling" by the gardeners, is followed in about a week by earthing up by use of the spade, banking the earth against the plants to about half their height. A week later the earthing s carried as high as the tops of the plants. Oelery thus treated will blanch in about ten days, and should be used as soon as ready. The bulk of the crop, for winter use, is to be 'handled" in the same manner, but not until next month, when all the plants should be brought into shape, the stems being erect, by this treatment.

HOW TO TELL GENUINE FLORIDA

WATER. The true Florida water always comes with litte pamphlet wrapped around each bottle, and in the paper of the pamphlet are the words, "Lanman & Kemp, New York," water marked or stamped in pale transparent letters. Hold a leaf up to the light, and if genuine, you will see the above words. Do not buy if the words are not there, because it is not the real article. The water mark letters may be very pale, but by looking closely against the light, you cannot fall to see them.

LAY NURSES.

THE RESULT OF EXPELLING SISTERS OF CHABITY FROM THE FRENCH HOSPITALS.

The scandals arising from the expulsion o Sisters of Charity from the hospitals of Paris increase daily. The women chosen to take the place of the Sisters are of light character, the chief qualification for the post being a declaration of unbelief. One lay nurse who has not abandoned her faith writes to the Clarion to complain bitterly of the injustice and persecution of the authorities. At the Hospice des Petits des Menages, a patient named Beek implored the infirmarians to send for a priest, but he was allowed to die without the sacraments. His son was afterwards informed that the officials had been forbidden to obey the dying request of the patient. The mistakes made by inexperienced nurses frequently cause death, and one of these who was employed at the Hospital Tenon, has been arrested for criminal imprudence. The Catholic nurses have petitioned M. Quentin, the director of the Assistance Publique, to be allowed to pay the expense of daily mass in the now abandoned hospital chapels. They declare that the blind and other helpless patients found deep con solution in the offices of the Church, and that Medical College no Christian nurse can fulfil her irksome duties without having recourse to prayer and being faithful to her religion. The present French republic is evidently siraid that its subjects may die Christian deaths and ask for Christian burial. This is why it employs nurses who are professed atheists and whose morals are not unlike those of the women in no Christian nurse can fulfil her irksome dumorals are not unlike those of the women in

higher positions who are supposed to be the burning and thining lights of the anti-Chris tian and persecuting regime now dominant in Catholic France.—Liverpool Catholic Times.
