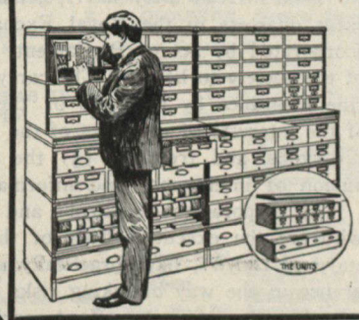
The Globe-Wernicke Co., Ltd.

STRATFORD, - Ontario.



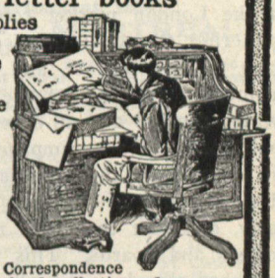
Profit or Loss often depends on finding a single letter, document, record or item of information. The

Globe-Wernicke "ELASTIC" CABINET

keeps all business papers and records instantly accessible. And it grows with your business. It's a system of units.

To fumble through clumsy letter books

to find replies which should be filed WITH the original letters is a foolish and expensive waste of time.



Our Correspondence Systems are simple, effective and reasonable in cost. Folder free.

IN HER PUBLIC LANDS

many thousands of square miles in extent, the Province of Ontario offers unexcelled inducements to mining prospectors and capitalists looking for large returns for their money.

Many valuable deposits of iron, nickel, copper, gold silver, arsenic, mica, corundum, graphite, granite, limestone and other ores and minerals have been found in Northern, Eastern and Northwestern Ontario, and many more are doubtless yet undiscovered.

For maps, reports, Mines Act, etc., apply to Hon. E. J. Davis, Commissioner of Crown Lands, or Thos. W. Gibson, Director Bureau of Mines, Toronto.
