Showing Cement Siding on "Herringbone" Lath, with half-timbered effect.

## Cement Siding on "Herringbone" Lath

is not only a **cheap** but a **good** construction. It is quickly erected, and grows more durable with age. It admits of a great variety of finish, and requires no paint. Cement siding costs much less than brick or brick veneer, and in many localities, it is even cheaper than clapboard siding.

For both residence and factory construction cement siding answers all requirements. It is **cheap, handsome, durable and fireproof.**

Our Booklet A 114 fully describes this construction. Drop us a postal and we will be pleased to send you this booklet, together with a sample of "Herringbone" Lath.
