

ARTICLE XII—*Guaranties by the Government of the United States of America*

The Government of the United States of America guaranties that:

A. The security safeguards and standards prescribed by the security arrangements between the Commission and the Atomic Energy Control Board in effect on June 15th, 1955, will be maintained with respect to all classified information and materials, including equipment and devices, exchanged under this Agreement.

B. No material, including equipment and devices, or any Restricted Data transferred to the Government of the United States or authorized persons under its jurisdiction pursuant to this Agreement will be transferred to unauthorized persons or beyond the jurisdiction of the Government of the United States of America, except as the Government of Canada may agree to such a transfer to another nation.

ARTICLE XIII—*Statement concerning construction of Article II A and B (2) and Article XI B*

Article II A and B (2) and Article XI B shall not be construed to prevent the Government of Canada from selling materials produced in its reactors to the Government of the United States for defence use or from making available, to the extent the Government of Canada may agree to do so, its reactor testing facilities for use by the Government of the United States in connection with the defence aspects of atomic energy.

ARTICLE XIV—*Definitions*

For purposes of this Agreement:

A. "Classified" means a security designation of "Confidential" or higher applied under the laws and regulations of either Canada or the United States to any data, information, materials, services or any other matter, and includes "Restricted Data".

B. "Equipment and devices" means any instrument, apparatus or facility, and includes production facilities and utilization facilities and component parts thereof.

C. "Person" means any individual, corporation, partnership, firm, association, trust, estate, public or private institution, group, government agency, or government corporation, but does not include the parties to this Agreement.

D. "Pilot plant" means a device operated to acquire specific data for the design of a full-scale plant and which utilizes the process, or a portion thereof, and the type of equipment which would be used in a full-scale production plant.

E. "Reactor" means an apparatus, other than an atomic weapon, in which a self-supporting fission chain reaction is maintained by utilizing uranium, plutonium, or thorium, or any combination of uranium, plutonium, or thorium.

F. The terms "production facilities", "utilization facilities", "source materials", "special nuclear materials", "byproduct material", "Restricted
