Products/Services

Diagnostic and research reagents • Immunology test systems

Current Export Markets

U.S.A., Europe

Company Summary

Established in 1986, STC Laboratories Inc. is the biochemical division of Export Packers Co. Ltd. The company is involved in the research, development and manufacture of high purity proteins and enzymes primarily extracted from agricultural raw materials for use in the pharmaceutical industry. STC's fully-equipped laboratory specializes in the analysis of proteins and enzymes with bench and pilot scale protein purification unit processes. A plant adjoining the laboratory houses a fully-operational enzyme purification system which produces horseradish peroxidase for the clinical laboratory industry. The company currently has several other enzymes and phospholipids at various stages of development and testing.

Products/Services

Sterile and non-sterile latex surgical disposable gloves

Current Export Markets

U.S.A.

Sterling surgical gloves feature a curved finger design following the natural contours of the hands.

Company Summary

Canadian-owned Sterling Rubber (1985) Inc. is a leading manufacturer of latex surgical disposable gloves and the only producer of curved hand design rough finish gloves in North America. Combining the latest in latex technology with custom formulation and 100 per cent inspection process, the company has earned a North American-wide reputation as a supplier of premium surgical gloves. Sterling Rubber was recently awarded a multi-million dollar contract to supply gloves to the United States military and, as a result, has established a subsidiary in the U.S.A.
