All over the country the people are of one voice in the fight for "Safety First."

More than two years ago we were telling motorists that Safety was the First Consideration in buying tires. We knew then, as we know now, that Dunlop Traction Tread is the one tire which ensures Safety in automobiling.

Dunlop Traction Tread having settled the point of the motorist's Safety, the battle cry is now tending to the Safety of "the man on the street." But Dunlop Traction Tread while protecting the motorist in his car also protects the pedestrian, even if he is negligent in his own regard, because perfect control of the car means perfect control of the situation. The Master Tire is always master of events.
