NOT SUFFICIENT TO BUILD FENCES

Germany Must Not Be Allow ed to Hold Her Present Position.

OFFENSIVE NECESSARY

Enemy Cannot Be Starved Out, is Opinion of Professor Lloyd.

"If Germany can hold her present position she will have accomplished all that she set out to do. If the Germans can do this, at least half the English population must either emigrate or starve. If the allies should be unable to gain further ground, and Germany can hold her present position or even the next line of fortifications the kaiser will be victorious." Such was the rather surpising statement made by Prof. G. I. H. Lloyd in his lecture on "The Economic Background" before a large audience at Convocation Hall last night, in which he dealt with war from a dollars and cents standpoint, and from the standpoint of the German who believes that war ultimately pays. In spite of greatly increased armament expenditures, the military burden had become lighter on the German people, during the last twenty years, due to the wonderful increase in their commercial strength. The stupendcus sum which the war was costing the nations was given by Prof. Lloyd as \$250,000,000 for Austria, \$150,000,000 for Britain, \$225,000,000 for France, and \$300,000,000 for Russia. This was exclusive of Japan, Servia, Belgium and the smaller "If Germany" can hold her presen

powers.

The total cost of \$1,200,000 a month was considerably augmented when devastation, the destruction to property, to productiveness and to a much greater degree, human life was pointed out by Prof. Lloyd. Already there had been eaten up all the savings of Britain, France and Germany for a whole year. Already it had cost more than all the former wars of the twen-

whole year. Already it had cost more than all the former wars of the twentieth century.

Plenty of Food.

Germany was said to have plenty of food to last for ten or eleven months, with a possibility of making the supply last for a little longer than that time. Sugar and potatoes, which were the superfluous products, were being made to help out the deficiency of wheat, and potato flour would be mixed with wheat flour. With plenty of food within her borders, and with a prospect of obtaining more from Roumania if that country remained friendly, the only problem which Germany could not solve would be to secould not solve would be to s cure forage for animals. That, according to Prof Lloyd, did not admit of

North Sea power, he said, was not Belgium was the centre of German sterdam and the complete control of the Rhine. The last-named port was ranked second in importance only to London as a North Sea centre. In Antwerp there was more wheat traffic

Germany's colonial system in all its weaknesses was exposed. Its productive colonies were unhealthy, and its healthy ones were unfertile. They healthy ones were unfertile. They ation before June 1 of next year. Al-were never a paying proposition, and tho the city asked for a wholesale exwere but sparsely settled by Germans. German urban population was grow-ing faster than that of the United States and since 1870 German trade from half of that of England, to very nearly an equal basis. The tremendenterprises, including the Kiel Canal, the Krupp plant, and other examples were pointed to as indicative

of an enormous economic development It was not on economic, but on military grounds that the war must be waged. The only factor to enter into the equation was men's lives and acres of land. The food question was not at present serious, but it might become so if Russia invaded East Prussia, the granary of the empire. An economic collapse would not come. Prof. Lloyd

MILITARY TRAINING

Premier Hearst to Attend Newmarket Meeting-Dominionwide Campaign.

Premier Hearst has promised to attend a meeting to be held under the auspices of the Toronto Military Training Association at Newmarket on Saturday night. A training corps will be organized there and this step is expected to be the beginning of a Dominion-wide movement, and such a

At the inquest yesterday before Coroner Dr. Wesley, into the death of William Moore, who was run over at the Grand Trunk crossing last week, the jury returned a verdict of accidental death, and added a rider that the crew of the freight train were in no way responsible for the accident.

discussed their policy in the confor the present year. An attempt will be made to strengthen the Conservative party, and to further this end a bisurated magnesia from your druggist number of prominent political speak-ers will be secured to address them during the year.

eat what you want at your next meal, take some of the bisurated magnesia as directed above, and see if I'm not right."

CORPORALS OF THE 4TH RIFLE BRIGADE, DAGSHAI, ORDERED TO THE FRONT

Corporal Walter Rogers, 144 Boon avenue, Earlscourt, is third from the right on the second last row. Mr. and Mrs. Rogers, 144 Boon avenue, Earlscourt, received notification from their son Walter, a corporal in the 4th Rifle Brigade, stationed in Dagshai, India, that the regiment has been ordered to stand by for active service. "I can not tell you when we shall go, neither can I tell you our destination," he writes, "as we are not allowed to tell anyone even if we know, so you see that I have given you all the information that I am allowed to. Please do not worry too much, as I can assure you that I am ready and willing to do my duty for my country and have no fear, also, I can tell you that we shall go in command of one of the finest commanding officers that we could wish for."

SEVEN INJURED BY ORDERED TO BUILD FLOOR'S COLLAPSE FIFTY MORE CARS

ment Must Be in Operation Next Summer.

WESTERN EXTENSION

Line Must Be Built Northwest of Bloor St. and Ossington Ave.

The City of Toronto won out in their case against the Toronto Street Railway Co., according to the order hand-ed out yesterday by the Ontario and Municipal Board. The city demanded hat 200 new double truck cars be built, but the expert consulted by the board decided that only 50 would have to be ordered, which must be in oper tension of the present lines, the order issued by the board asks the railway company to lengthen one line and to reconstruct 13.45 miles of track. They made a recommendation that a second line be extended also. One reason why more extensions and improvement the expert employed by the board, was that the company had only seven years left of a 30 years' contract.

The order suggests that a considerable part of the company's equipment be consigned to the junk heap, but it does not enforce this recommendation.

The line which must be extended is from Bloor street, along Ossington avenue as far as Hallam, along Hallam to Dufferin, and thence to Lappin.

Time Extended.

A month's extra time will be allowed for the completion of the line along or to overcrowding. Teraulay north from Agnes, to conrect with the College lines. The suggestion was made that the Wilton avegestion was made that the Wilton avenue line be constructed to Pape, and pital, as a result of injuries he receive thence north to Danforth. The cost of the report, which aggregates some \$9960, will be borne equally by the city and the railway company. Corporation Counsel Geary considers that the order is a fairly satisfactory one.

WHAT DYSPEPTICS SHOULD EAT

A PHYSICIAN'S ADVICE. "Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity: therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or corps will be eventually formed in all parts of the country. Messrs. W. G. Ellis and A. E. Jacks will attend the meeting as representatives of the executive of the Toronto Association. The Newmarket corps will be the first organized outside of Toronto undertaking to train in accordance with the plans of the Toronto Military Training Association. Premier Hearst has already expressed his warm sympathy with the movement.

The association's central executive committee will hold a meeting in the city hall tomorrow hight.

ACCIDENTAL DEATH.

At the inquest yesterday before

little hot or cold water. This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fulness; you will find that your food agrees with you perfectly. Bisurated magnesia is doubtless the best food corrective and antacid known. It has no direct action on the stomach; but by neutralizing the acidity of the food contents, and thus re-VARSITY POLITICIANS CONVENE.

Conservatives of University College held a caucus last night, at which they discussed their relief to the contents, and thus removing the source of the acid tritation which inflames the delicate stomach lining, it does more than could possibly be done by any drug or medicine. As a physician, I believe in the use of medicine. cine whenever necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with drugs instead of getting rid of the acid -the cause of all the trouble. Reeve Syme Charges Broken Faith - Acted on Commission's Advice.

The interest being taken by residents of Runnymede in the problem of street lighting, which is vexing the district, was hown at the special meeting of the Rate-

payers' Association in Cooke's Hall, St. John's road, last night.

The report of the committee appointed to wait upon the township council and ask that they take some steps to procure lights from the hydro was presented by the president, T. C. Woobeer, but little relief could be promised by the council. A committee was appointed to investigate the cost and advisability of establishing a hydro commission in the township, but this is not the solution sought by the residents.

Domestic Power Only.

Sought by the residents.

Domestic Power Only.

At present the district is served by the Toronto Hydro-Commission. The streets are supplied with poles and wires, and power for domestic purposes is supplied over these lines from the city pervice. The ccuncil claimed that the lines were erected by the provincial commission, who have allowed the city hydro to supply householders with domestic services. When asked to instal street lights the city hydro refused, claiming that they had not legislation to supply street lighting outside the city limits. The provincial commission will not supply the lights except thru the municipal commission plan.

pl/ the lights except thru the municipal commission plan.

Think it Unfair.

This is felt to be manifestly unfair to the citizens of Runymede, who claim that that the city are providing lights in the Village of Todmorden, which is also outside the city limits. "If the city hydro come in here and eat up our domestic lighting services they ought to light our streets," declared the president. "We are willing to pay for it."

It is also claimed that many of the ratepayers who have signed contracts with the city hydro have done so with the understanding that street lights would be provided.

"There is a private company who would be willing to give an adequate street lighting service, provided they are given a five-year contract." explained Mr. Woolner. "I am for public ownership wherever possible, but it is not fair to any company to give away the domestic lighting and then ask that company to supply street lights. It we sign a contract for this company we want to stop the city hydro from supplying power for domestic purposes, and we can issue an injunction to bring this about if necessary."

All in Favor.

sary."

All in Favor.

Dr. Dow, ex-president of ward 7 association, urged the Runnymede ratepayers to obtain some system of street lighting. John T. Moore also spoke in favor of some adequate lighting in the western district, as well as a system of sewers and water.

Reeve Syme also wished to have the district adequately lighted. "When the lighting question was first spoken of we acted on the advice or the hydro commission to obtain our lighting thru extensions from the city commission. Now they ask us why we do not establish a hydro system of our own, saying that we cannot expect the city commission to extend their system into the township. In doing this they have broken faith. I think, with the township."

It was decided to approach the city hydro commission again and ask them on what terms they would instal a sysof street lights in Runnymede, whether for a rental or for payment of the actual cost of the lights. or a rental or for payment of the actua

LIBRARY INSTITUTE OFFICERS.
