Telephone M. 5308.

THURSDAY MORNING, AUG. 19.

Good News for Canada Ottawa has been asked by the imperial government to state the probable quantity of wheat available for export, and the tonnage required to move it. From this it is inferred that Britain is preparing to purchase the entire quantity, and will furnish freighters to carry it oversea. This is the solution of the problem which the World has strongly pressed upon the attention of the Dominion Government. We can only hope that the plan will be worked out so as to give the Canadian farmer a fair tion in the way in which the tenders price without delay, and to permit a part of the crop to be delivered in the in one tender and a day later Thomas shape of flour. Our millers should Kelly & Sons put in another. The grind at least a portion of the crop, as Kelly bid was just a trifle lower than war conditions exclude their product

from many markets. As we have already said, the crop situation can only be solved by the imperial government, but our own government should help. We believe the transaction will not necessitate shipping any gold from London, and that it can be successfully financed by an issue of national currency.

The Wall Street Journal quotes a New York banker as saying that Can-presence of all the tenderers. A similar ada could easily float a loan of \$500,ada court easily flow. True, he sugone of her practice been so generally followed from Ontario to help in the great gests having the loan guaranteed by in Canada? the British Government, but in the same breath declares that the main security would be the vast natural resources of the Dominion, which will be unaffected by the war. This means that Canada can finance her expenditures in the war without adding even temporarily to the great burdens of

the mother land. We have already ventured to advise Hon. Mr. White to go back to New York for more money, as more money will be needed. If The Wall Street Journal be correctly informed, the latch-string is hanging out for him.

A Choice of Evils

says that President Wilson will fail of re-election unless he makes war on city. some foreign country or contrives to have railway freight rates materially increased. The Boston contributor, whose name is not given, is evidently a Republican of the most aggressive,

Yet the Euopean investor seems reluctant to part with those securities, perhaps looking for a sharp rise in the near Main 5308—Private Exchange connecting future, while there is a strong demand in the United States that they should be used to pay for war supplies. In a recent article in Moody's Magazine Mr. W. F. McCaleb, vice-chairman of the Federal Reserve Bank of Dallas, urges

> problematical if the war is to continue indefinitely. President Wilson is not likely to bring on a war in order to promote his re-election and is even less likely to enter upon a crusade for higher freight rates. The railway situation, however, does present a serious problem, which in our opinion can only be solved by nationalization. Raising the rates only postpones the inevitable blowup and no advance granted in the past has been followed by the promised

A Unique Ceremony

prosperity.

Hon. T. H. Johnson, minister of works, set a precedent today when exactly at noon, he began opening tenders for two separate contracts on a tunnel between the new court house and

the power house. This was done in the presence of a roomful of witnesses, some of whom were tenderers, but the majority of whom were merely interested spectators who had accepted the invitation to the public to be present

It was all over in 20 minutes Cotter Bros., Limited, were declared the successful tenderer for 'piping" at \$3970 and J. H. Tremblay & Co., Ltd., for "concrete laying" at \$6356.14. — Winnipeg Tribune, Aug. 12. A few weeks ago The World called

attention to the fact that the Manitoba capitol scandal found its incepwere juggled. Peter Lyall & Son put the Lyall bid, and the charge was made that the contents of the Lyall tender had been tipped off to the Kelly firm. We thereupon called attention to the vicious practice in Canada of opening

tenders in secret. In the departments at Washington sealed tenders are called for, with the steamer named the Isodoro. announcement that they will be opened, at a time and place named, in the practice, we are told, exists in the United Kingdom. Why has a differ-

favorably commented unc Winnipeg Tribune, which joined in the suggestion that the Norris Government might make a name for itself by opening all tenders in public. The excerpt from The Tribune quoted above indicates that good advice is not wasted upon the Norris Government.

The opening of some tenders in public by Hon. Mr. Johnson in Winnipeg is hailed as a unique ceremony. We would be sorry to believe that the Dominion Government and the other provincial governments are lagging behind Manitoba. The pretence that it would be unfair to the unsuccessful The Montreal Journal of Commerce tenderers to have their tenders made quotes with apparent approval from a public is not one to command respect. writer in The Boston Commercial, who Those who aspire to do public business must be prepared to face publi-

SHELL CONTRACTS

D. A. Thomas Says War Of- Chas. J. Doughty and Ald. D. fice Will Give Dominion a Preference.

PRICES MUST BE RIGHT

on Progress in Making Munitions of War.

"Canada will be given a preference by the British Government in the manufacture of munitions, providing the prices are not too far apart from others," said D. A. Thomas, the special representative of the British Govvested with full buying power in America. With him are Mrs. Thomas, Miss Jameson, Gen. R. H. Mahon and R. H. Carr of the British war office. V. Lloyd Owen, the associate of Mr. Thomas, and Gen. Bertram of the Canadian Shells Committee. Arriving in Toronto at 8 o'clock yesterday morning, Mr. Thomas was given a welcome by civic officials and was taken on a drive around the city to inspect the factories. On Friday he will be tendered a luncheon at the Royal Canadian Yacht Club.

Thomas is styled a Welsh Coal King in Great Britain, and for 23 years occupied a seat in the British House of Commons, and is said to have twice refused a peerage. He was a survivor of the Lusitania disaster. His mission to America is to purchase munitions, to inspect the factories and to prepare a report to present to the British Government

Will inspect Factories.
While in Toronto he will visit the factories, but he would not promise that he would inspect every plant in the city where munitions are being made. In New York he had to see only principals of firms, and may have to follow a similar course in this city. Altho he is not looking for complaints Mr. Thomas is ready to look into any grievance which may be advanced. Giving his impression of Canadian munition factories, the British representations. sentative said that this country has done very well in this branch of industry, and that considering the fact that there was only one arsenal making ammunition in Canada before war broke out, the manufacturers of this country had done very well in developing the industry to the extent they

Canada has been treated very fairly by the British Government, stated Mr. Chomas, as no less than \$230,000,000 n contracts had been placed in this country. He declined to give the amount of the contracts placed in the

United States. Mr. Thomas has a technical expert with him, who looks after that branch of the work entirely, and Mr. Thomas himself is concerned solely with the business end of the operations. Great Britain had gone into the output of munitions in earnest and he expected that within a short time she would be turning out all that would be needed. He was confident that Britain would victorious in the struggle, saying that from a state of unpreparedness she was advancing by great strides to a position where she would be able to remove the menace which threat-ened her. The policy of President Wilson received a hearty endorsation from Mr. Thomas. He said that the actions of the president of the United States had been judicious thruout, and that he had acted in a deliberate and firm manner to guide the Ameri-

can people thru the orisis.

The party will spend several days in Toronto before visiting other Candian control of the control adian centres. A municipal welcome will be tendered when the represen-tatives visit the city hall before the conclusion of their visit.

DIVIDEND DECLARED BY GUELPH RAILWAY

Share of City is Less Than Usual -Starting Recruiting Campaign.

Special to The Toronto World.
GUELPH, Aug. 18.—At a meeting
of the directors of the Guelph Junction Railway this morning, another quarterly dividend was declared on the capital stock of the company. The amount paid over to the city was \$7650. This is a little less than usual. Altho the official announcement has not been made, it is understood that recruiting will start in Guelph in a few days to raise one company for the from enlargement of Eglinton Public 71st Battalion of infantry. It is also likely that a Guelph officer will have for the 71st.

JUDGE HANDED PICKPOCKET

A TWO-YEAR TERM. When sentencing William Laidlock on a charge of pocketpicking, in the county criminal court yesterday, Judge Denton said: "It is useless to give a man like you a short term. I am going to give you the full term of two years in the Ontario Refermatory, and hope that will be a lesson to you." William Blake, a confederate of Laidlock, was sentenced to 60 days, and a further sentence of four months 118 was imposed for receiving a quantity of stolen cloth, valued at \$21.

WOULD HELP TO MAKE AMMUNITION

Editor World: In view of the fact that the allies are experiencing a shortness in the supply of ammuni tion, may I submit, thru your valuable paper, the following suggestion: There are hundreds of business mer

including myself, who would be ready

and willing to give two or three hours each night (or even more) gratis, to the manufacture of ammunition, or in any other capacity which would prove neficial to our cause. It may be said that unskilled labo is of no use. This may be so, in part, but there is no doubt but that within a very short time the patriotic zeal, the intense desire to produce, will vercome all difficulties.

We who cannot go to the front are more than anxious and to do our bit for the empire. Perhaps there are some employers also skilled mechanics, who would take this matter up, if so, the writer will do his part in work, also in trying to bring together men who are anxious to assist in this mighty struggle of right against might, of democracy

against autocracy. J. J. Noad 23 Scott street.

NEW CANDIDATES ARE NOW IN FIELD

Spence Rivals for Fire Department Job.

SPENCE RESIGNS SEAT

Compliments Manufacturers Retires From Council Before Entering Open Contest for Post.

> The board of control has at las shelved Col. Langton as its nominee for the position of fire commissioner, and the smoke beclouding the department has lifted somewhat. In fact the

Yesterday the controllers nominated Charles J. Doughty, sanitary engineer of the board of education, and following immediately on the heels of the nomination the mayor received the resignation of Ald. David Spence, who has long been generally considered a candidate for the position. From this it would appear that the alderman had hoped to get the nomination while still retaining his seat in council, but, failing this, he has taken the only course open, if he desired to become commissioner, his resignation leaving him free to become an applicant for the position

McBride Favors Doughty. Whether Ald. Spence will have enough votes to get the position is not known outside of council, but it is interesting to note that Ald. McBride has ex-pressed himself as being pleased with the nomination of the board. "Doughty will carry in the city council," he said.
"He comes of fire fighting stock and

there is not a string on him."

Before receiving his appointment with the board of education Charles J. with the board of education Charles J.

Doughty was in the plumbing business, having received his appointment following a discovery that there was a shortage of radiation in the schools.

He was nominated as a Conservative enable the bureau to tell which men fail to report for work. In the past placed by Joseph Russell when he espoused the abolish-the-bar platform of the Liberal leader.

It has been impossible to investigate the cases of failure to report alleged by the commissioners.

Ald. Spence's Confirmation. Ald David Spence last night con-firmed the report that he would retire from the Toronto Council. He has resigned in order to become an applicant for the position of fire commissioner. "I am not doin ganything in the matter," he said, "and if the other man is appointed I am out of it en-

He denied havin gany knowledge of the rumor that Ald Meredith would nominate him at the next council meeting when the name of C. J. Doughy comes up, but stated that some member of the council might make the nomination. Ald. Spence has represented ward six for the past five years.

Abattoirs Warned The board of health yesterday gave vent to its displeasure because the abattoirs of the city have failed to comply with certain regulations, and a resolution was adopted to the effect that if they do not comply with the requirement laid down some time ago they will be closed. The board has already adopted a standard for the abattoirs, and the latter were notified to file plans of changes necessary in plants to meet the requirements So far only two of them have replied: one firm stating that they were willing to do as asked, and the other sent in a statement of proposed improvements. Dissatisfaction at the replies was expressed and it was suggested that ac-

tion be taken under the Public Health The companies will be given thirty days more in which to comply with the regulations, failing which action to close them will be taken.

for the same month last year it was 10.3. There were 382 deaths during ble feature of the report is the decreass in infant mortality. wants \$3000 for the secret. Yesterday norning the controllers were a little bit wary about spending so much money on a secret, and decided that they ought to have a little more in-

formation about it.

A new scheme has been adopted by

Welcomed D. A. Thomas.
D. A. Thomas, representative of Lloyd George, who is in Canada looking after the manufacture of war mu tions, was yesterday met by Mayo Church, who is endeavoring to secure for Toronto a fair share of the contracts that are to be allotted.

Mayor Church has not yet received a statement from City Solicitor Johnston regarding the remarks of Assistant City Solicitor I. S. Fairty about the mayor's comments on the legal department, as Mr. Fairty left on his

City Will Appeal. court of Ontario for a reversal of the decision given by the Ontario Railway Board in connection with the entranc of the Metropolitan Railway terminal station south of Faralian avenue. This was the decision of the board of control yesterday when the transportation problem was being dis-cussed. It was pointed out that if the decision was allowed to stand the Canadian Northern might extend their steam line over their present right of way along the west side of Yonge street to their old terminal, and that

if they did this the city might not be able to prevent them from connecting up with the radials, as the steam road has a Dominion charter. The privy council has already given a decision in favor of the city, preventing the Metropolitan from crossing the streets south of Farnham avenue over their old private right of way

Toronto Railway Appeal.
