YORK COUNTY AND SUBURBS PROPERTY OWNERS PROTEST AGAINST CAR BARN SITE

Dear Park Residents Are Greatly Wrought Against Rumored Metropolitan Invasion.

The proposal of the York Radial Railway to erect a car barn at the corner of Yonge and De LaSalle-streets is not popular with property-owners. Benjamin Sinclair says: "I have been approached over the phone to sell my property, but I do not know by whom. I will not sell till I get my price. Concerning the Metropolitan car shed, the man who bought the 100 feet of land south of me says that the lot was bought for speculation. I don't think that anybody can stop the Metropolitan from erecting a car barn there."

Mr. Wallington said: "I don't like the idea of having said car barn opposite my house. I would not like to live here and would be forced to leave my home, which was dedicated to me as a resting place for the rest of my days. The proposal means a great injury to property in Deer Park."

Mr. Moore said: "All the property owners will fight the movement for all it is worth. We have a nice quiet place here and the residents are bound to keep it quiet. Property would depreciate 50 per cent."

Mr. Hill expressed himself as the he should be very sorry that a car barn should be erected on the street. "At the same time," he said, "we must take a liberal view of the matter. I suppose a car barn is a necessity, and it might prove an eyecore wherever it is put, and land values may depreciate on account of it, but we can't help that."

STRACHAN-AVENUE CAR ROUTE EXHIBITION'S PRESENT BIG NEED

Would Aid Greatly to the Coeffers of the Association and Comfort of the Public—Last Day of the Exhibition.

All day long a soft haze lay on the placid lake, while the great exhibition, game to the last, waited for sunset and the final hour. Nothing more melodramatic than that occurred. There wasn't breeze enough to raise a flag incident, even at the behest of a yellow journalist, an occasional zephyr floated along with the favor of military music on top of the new press bureau. The wind was as full as ever, and around the 2nd Life Guards the crowd was as dense in the afternoon as at any previous performance. Encouraged members of the King's Majesty's favorites were very good-natured in responding. The Galt Killies had a good share of patronage, and the Waterloos, the Buffaloes, the Guelphs, and the St. Catharines were Ontario's own, and the Buffalo 6th was the most popular of all among these.

The various buildings were well patronized, but the stock stables were King's horses had left for England they were, and the geese and the hens filled pyramids of coops on express wagons.

Butter-making still proceeded, and there was considerable interest displayed in the last competitions, which resulted as follows: Section 2, creamery class—1. F. H. Dennis, St. Mary's; 2. Miss Annie A. Orr, Galt; 3. Miss A. W. Green, Loyal; 4. Miss M. L. Green, Loyal.

Section 4, free-for-all creamery—1. Miss Annie A. Orr, Galt; 2. F. H. Dennis, St. Mary's; 3. Miss M. L. Green, Loyal; 4. Miss M. L. Green, Loyal.

Knows a Good Thing. There were a number of Americans among the visitors, and one of them took in the scene with amusement. He did not understand why Canada did not make more outcry over the display.

"Why, sir, the building of the exhibition was in Washington—yes, sir, in Washington, District of Columbia, there would be a great outcry over the display. Why, sir, the building of the exhibition was in Washington—yes, sir, in Washington, District of Columbia, there would be a great outcry over the display."

A less enthusiastic New Yorker made observations about the permanent nature of the building, and the investment in buildings? And you use them for two weeks in the year? Well, I understand that about a century ago the British government, sir, your King Edward did well to take his hand and his horses, but I believe he would not mistake in coming to see it himself."
