The Divisional Court has refused the appeal of Mrs. Mary Robinson of 19 Walton-street against Mr. Justice Street's ruling that her daughter Alice had been properly indentured out by the Girls' Home to one Mrs. Piper of Owen Sound in 1892. The mother claimed that the home had no right to apprentice her child, but the court held otherwise. So the young lady must complete her six years' service, which expires in March, 1898.

The Divisional Court has sustained the appeal of Mrs. Brown of Chatham against the non-suit of her action for alimony against her husband.

CHICAGO GOSSIP.

Henry A. King & Co., 12 King street east, received the following despace to-day from Chicago:

Wheat opened strong this morning. Commission houses—were buyers early, and prices were to a considerable extent governed by pit operations. There were no especial reasons assigned for the numerous and sharp fluctuations. There was a moderate quantity of news in circulation, but the traders in the pit paid more attention to conditions there than to those outside. The weather map showed rains over a good part of the west, southwest and south and predictions are for more. Counselman was a seller on the bulge. New Yorkers and sollers are afraid of the Government report which is due today, and do not stand on the short side. There is snow in the Northwest and the season there is two weeks late. Country offerings have increased slightly and millers report a better demand, and have advanced prices. Armour is said to have started on a bull campaign. The general impression prevalls that he will put May into the seventies before he gets through. We consider breaks similar to that of to-day as the time for bellevers in wheat to buy.

4 p.m.—Government crop report: Wheat, condition 77.1 per cent., against \$1.4 last year.

Corn and oats opened steady, and ruled.

4 p.m.—Government crop report: Wheat, condition 77.1 per cent., against 81.4 last year.

Corn and oats opened steady, and ruled a shade higher. There was a fair trade reported, and moderately active markets, with contracts chiefly in the July options. The feeling developed was unsettled, and largely sympathetic, selling up and down with wheat.

Provisions—Considerable interest was manifested in the market for hog products and the volume of speculative business was somewhat larger than for several days past. Packers were sellers around the opening, and values receded, sharply, but on the slump commission houses were liberal buyers for country, account, and prices rallied sharply. Foreign advices indicated a stronger feeding. Domestic markets were stopped to the stronger feeding. The peneral surroundings of the trade were faverable to the "long" side of the markets were faverable to the "long" side of the markets were faverable to the "long" side of the markets were said to the "long" side of the s

McIntyre & Wardwell (John J. Dixon) received the following despatch to-day from their branch office in Chicago:

The trade in wheat to-day was largely professional and of a scalping character, and as traders did not make large ventures and were inclined to run quickly, the market was decidedly erratic in a small way. There were all sorts of guesses on the Government report, which rather kept the pit in a ferment all day. The news was unimportant. Cables were steady to firm and New York reports a fair export demand for May-June shipment, about 160,000 bushels being taken. The cash demand there was not so good; 81,000 bushels reported sold Minneapolis and Duluth stocks are estimated to show 300,000 bushels in crease, and the visible to decrease about 1,000,000 bushels. We would not feel surprised should the market suffer some temporary set-back after the publication of the Government report, as many are prepared for a buillish one.

Provisions—Heavier receipts of hogs opened the market a little lower. Packers sold
