 the Men—Who They Say They Are.**

Tweed, May 15.—(Special.)—There was considerable excitement here about 5 o'clock this afternoon, when a posse of special constables marched through the town with five suspicious-looking characters under arrest. The whole affair was carefully planned and quietly carried out, and only those who were summoned to the scene knew that anything out of the ordinary was taking place.

Since the bank burglary at Bowmanville on Friday night a strict watch has been kept of all passing trains, but strange to say, not a single tramp put in an appearance during Saturday or Sunday.

**Suspicious Strangers Appear.**  
 At an early hour this morning, however, three suspicious-looking characters appeared in town. They kept apart on the street, but seemed to recognize each other when they arrived at the Victoria Hotel, where they bought a few rounds of "O," being joyful in the bargain.

The next day the bar tender with a \$5 bill on the trader's bank of Canada.

At one of the stores he paid for his goods with two quarters and eighteen cents in coppers.

During all this time the other two kept a sharp lookout on the street, but did not move until a short distance from the town and were not seen again until shortly after dinner.

**They Wanted to See The World.**  
 On the arrival of the small train from Toronto, one of the trio entered the News printing office and asked for a copy of the Toronto World. The News editor was reading when the stranger entered, and from his seeming anxiety to scan the front cover, the News editor's suspicions were aroused and the two local constables were notified.

**A Posse in Pursuit.**  
 In less than an hour a posse of special constables were sworn in and armed. They started in pursuit, and in a short time came across the men a mile or so east of the town in a nicely secluded spot alongside the lake.

**They Were Surrounded.**

to realize that they were being pursued, they were surrounded, and all possible chance of escape was cut off. They were ordered to give themselves up, and at first did not care about complying with the request, but on being told they were suspected of having robbed a farm house a short distance away, they willingly submitted to the strong arm of the law, and were marched in a body to the police station, where they are now carefully guarded.

**Who the Men Are.**  
 At the call The World correspondent had the privilege of interviewing the prisoners, all of whom talked freely, but showed rather uncomfortable feelings in consequence of their arrest.

The first man interviewed said his name was James Conklin of Toronto, that he was 32 years of age, that he was a moulder by trade, and worked a short time ago in the safe works of J. & J. Taylor.

The second man's name was George Ward, said he was 33 years of age, and last worked in the Detroit Stone Works, at Detroit, Mich.

The next gave the name of William Jones of Toronto. He said he was 27 years of age, and worked in the carriage works of Jones & McLaughlin in Buffalo.

The fourth said he was born in Lambton County, 42 years ago, and that he last worked in Erie Pa.

They claimed to have come in on a freight train from Toronto between 9 and 10 o'clock on Sunday evening, and that they spent the night in a short distance from the town.

The last man gave the name of Patrick O'Brien, and said he had been working with a farmer named Torpy, six miles from Peterboro. He also denied having anything to do with the other.

**Greer Goes to Tweed.**  
 A telegram was sent to the general manager of the Standard shortly after the arrest, asking for instructions, and this evening a message was received from Provincial Detective Greer, giving instructions to hold the prisoners until his arrival on the 2 a.m. express from Toronto.

**Mr. West Don't Know Him.**  
 Mr. Joseph M. West, president of the J. & J. Taylor Safe Works, was called on early this morning, at which time he stated that he did not know any of the men who had been employed at the Taylor Safe Works.

A Utah Man Was Killed—Rapid-Fire Guns in Play—The Filipinos Will Not Surrender.

Manila, May 15.—(Special.)—The "tinian" gundown Laguna de Bay and Cavadonga, and a launch, under Captain Grant, ran into a nest of insurgents concealed in the bushes on both sides of the Rio Grande River, three miles above Calumet, yesterday afternoon and were received with heavy volleys at short range. A sergeant belonging to the battery, was killed and several others were wounded. Opening with their rapid fire guns, the Americans killed twenty of the natives and wounded several others, filling the jungle with a hail of shot for a half hour, until the enemy fled.

**Agninaldo Gives Notice That the War Will Be Continued to the Bitter End.**

London, May 15.—The Filipino Junta here has received the following message from Agninaldo, cabled from Hong Kong under date of May 12: "The Filipino Government, in accordance with the general feeling of the country, has decided to continue the war, at all costs, until independence is achieved."

The Filipinos energetically refuse the American peace overtures, based on the articles of the American constitution, and demand a strict fulfilment of the treaties and contracts by the American representatives, who are exploring the possibility of an alliance with the Spaniards.

All the Filipino generals support Agninaldo. General Luna's reported overtures for peace are untrue. Our army is near Manila, strenuously attacking the whole American line.

"The heat and rains are causing many casualties in the American army. All the hospitals are crowded with sick and wounded. Four hundred of the Cincinnati regiment have been imprisoned by General Ota for insubordination in refusing to fight. The regular troops quartered in Manila and other towns are quiet. The volunteers are abused and are always at the front with scanty rations."

"The discord between the Americans and Europeans is general."

**Struck an Officer on the Jaw—The Riot Act Read, After Which the Men Were Ordered to Get Off the Property or Else Be Shot.**

Vancouver, B.C., May 15.—(Special.)—The Riot Act was read on Dead Man's Island this morning, and Theodore Ludgate was arrested and put in handcuffs after a three struggle with two officers, one of whom he roughly used.

Joe Martin's men, who were on the island apparently acting as night watchmen, apparently landed on the island to make another landing on the disputed island. At 9 o'clock a force of sixty or seventy men were actively at work cutting down trees.

**Ludgate Defied the Officer.**  
 About 6 o'clock a provincial constable arrived and ordered that the work be stopped. Ludgate defied him and the officer stopped. Ludgate's helplessness, did not attempt to use force, but set off for assistance. About 6:30 Officer Baines of the city police arrived and his order for cessation of work was also ignored. Ludgate and his men were ordered to get off the island at once, but refused to do so.

**A Warship Ordered Out.**  
 The province has received a special message from the Admiralty, which is to be departed from that port this morning for Vancouver simultaneously with the arrival of the H.M.S. Kereka. It is expected here almost any hour, but it is not known what action will be taken.

**The Police are Still on the Island and are being reinforced.** It is believed that Ludgate's men will go back and attempt a seizure. It is also rumored that troops will be ordered out. Ludgate is in jail and refuses to accept his release on bail.

**SENATOR BOUTON IS DEAD**

**The Malady Was Congestion of the Lungs Brought on by a Drive in a Snowstorm.**

**HE WAS A NATIVE OF ONTARIO.**

**A Son of D'Arcy Eight of Colours and Was Ill Only Eight Days.**

Russell, Man., May 15.—(Special.)—A despatch dated May 15, says: Senator Bouton died this morning at 1 o'clock of congestion of the lungs, brought on by a drive from Elk Point to the late snow storm. He was ill eight days. The funeral will likely be on Wednesday.

**Brief Biography.**  
 Lieut.-Colonel Hon. Charles Arkoll Bouton was the son of Lieut.-Colonel D'Arcy Bouton of Cobourg, Ontario, and was born in that town Sept. 17, 1841. He was educated at Upper Canada College. In 1858 he was gazetted ensign in the 10th Regiment (Royal Canadian); was promoted to lieutenant in 1861, and after serving in various parts of the world, returned to the County of the North-West, Y.M., and soon afterwards went to Red River and Manitoba. At the outbreak of the Assiniboia insurrection in 1856 he took an active part on the side loyal with the late Sir John Schultz, and was one of the Canadian party arrested and imprisoned and sentenced to death by the conspirators.

Returning to Ontario after the restoration of peace, he engaged in lumbering operations in Lakeside, and was elected reeve, serving for three years. He became a member of the Liberal party in that chamber, and in 1873 and retired with that rank in 1881.

In 1880 he again became a resident of Manitoba, and then devoted himself to farming at Shellmouth. Elected warden of the County of Neudale, he filled that office for three years, and was subsequently chairman of the Judicial Board of the Western Judicial District.

He raised a corps of mounted riflemen known as the "Bouton Rifles," and commanded the same throughout the Northwest Rebellion, 1885, for which he obtained a medal. He was also elected reeve of the Municipality of Neudale in 1886, and represented the Municipality at the general election in 1887, and for Marquette in the House of Commons at the general election in 1887.

He was called to the Senate by Lord Stanley in 1889 and has since acted generally with the Liberal party in that chamber. In 1897 he accompanied Sir Wilfrid Laurier to England as a member of the committee sent to represent Canada at the Queen's Diamond Jubilee. He favored a commonwealth of the Empire upon a free trade basis. In 1906 he introduced a motion favoring an international peace tribunal.

The late Colonel married Miss Lettice H. Galt, daughter of John Galt, a prominent lawyer and statesman of Ontario. He was a member of the Church of England.

**BY MISLEADING MANIFESTS**

**Orders Have Been Sent Out From Washington to Have That Sort of Thing Stopped.**

**IT IS PERHAPS GOOD FOR CANADA**

**Inferior United States Cheese Has Been Sent to Britain Labeled as Canadian.**

Montreal, May 15.—(Special.)—The Herald has the following special: Washington, May 15.—The officials of the Treasury Department have become a good deal concerned about the apparent inaccuracy of its statistics of trade, owing to the shipment of goods to Canadian points, destined finally to ports in Europe. The result is that the department has sent instructions to Customs officers on the northern border regarding the exports by rail and inland vehicles over the Canadian boundary. Manifests must show definitely hereafter whether the goods shipped are bound for Montreal and other Canadian points as the final destination, or whether they are really to be shipped to England and other countries across the ocean.

The fact is that the shipment of goods from the United States to Europe by way of Montreal and the St. Lawrence River has increased to such an extent as to attract serious attention on the part of the Government officials at Washington. It is apparent that there is a strong desire to keep a record of the movement of the goods, and also to have a more accurate record of what Canadian goods are actually being produced in the United States. One paragraph in the new instructions to the Customs officers is this:

"The most notable departures from correct assignment of the true destination of market of exports occur with respect to articles of breadstuffs, provisions and other articles shipped through northern border ports and Canada, destined for Europe via Montreal, Quebec and the St. Lawrence River. These articles are frequently declared by shippers in their manifest as for export to the Provinces of Quebec and Ontario, when they should be declared as for export to the country of true destination in Europe and beyond. The fact of shipment through Canada being merely an incident in their transportation to the true point of export or market."

There is no doubt that the Washington Government is greatly interested in the movement of the St. Lawrence route, and that it regards this great waterway as destined to become a great factor in the movement of export goods, both from Canada and from the United States.
