

# Tomorrow is "BIG HEART" SUNDAY

Tomorrow is the day selected by the citizens of London to demonstrate their belief in the work of the Queen Alexandra Sanatorium.

Every man, woman and child is urged to contribute liberally, so that the Sanatorium's fight against tuberculosis may go on aggressively and successfully, and that the returned tuberculous soldiers may be properly provided for.

300 citizens have volunteered to make a house-to-house canvass Sunday, collecting the contribution envelopes left by the postman at every home in the city.

**SAVE A SOLDIER!** \$57,300 is the Amount Required For Improvements at the Sanatorium

**Start the Day Right on Sunday Morning--Give Freely**

If, for any reason, the collectors miss you, don't think that "lets you out." Mail a check to D. McEachern, Campaign Treasurer, Canada Trust Company, London, Ont

By 9 o'clock—or shortly after—a collector will be knocking at your door. Have your envelope filled and ready for him. Don't just open your small-change purse. Don't merely give the loose dimes and pennies in your pocket. Don't just say, "I guess that will do!" For if you do the campaign will fall flat. Let everyone in your household give generously and help the soldiers back to health.

The Queen Alexandra Sanatorium is doing a great work for the citizens of this community and surrounding district. It is saving lives and also protecting homes in London and Western Ontario by fighting against the spread of "The great white plague." The Sanatorium needs help. Its resources are not equal to the task before it. Money is needed to carry on and extend the work—therefore, this appeal to you.

**NOTE:** The collectors will carry an official box and badge to identify them. All contributions of one dollar or more will be acknowledged by a receipt.

## DISTRICT CASUALTIES

### KILLED IN ACTION

EUGENIA FALLS.  
Pte. E. C. Smith.

## FOOD CONTROL TO BE PUT INTO OPERATION AT ONCE BY HANNA

At Present Conferring With Hoover in Washington.

ALIKE IN BOTH COUNTRIES

Problems Are Identical, Even to Matter of Present Year's Crops.

WASHINGTON, June 22.—Food control in the United States and Canada will be made as nearly alike as conditions in the two countries will permit. In many respects it will amount almost to a joint control. It was said today after a conference between Herbert C. Hoover and Hon. W. J. Hanna, the newly-appointed Canadian food controller.

Food laws already enacted in Canada, Mr. Hanna said, closely approach the United States administration's food legislation pending in Congress. The purpose of his trip to Washington was to permit him to study the American program, that Canada might follow it as closely as possible. In most respects, Mr. Hanna explained, the United States and Canada have identical food problems. Both are exporters of grain, and this year will have smaller crops than normal.

Start Here at Once. Mr. Hanna will remain here several days for conferences with officials of the temporary food administration. He thinks food control will be put into operation in Canada as soon as he returns, and is pleased with Mr. Hoover's able through the voluntary assistance of food interests, instead of invoking harsher methods.

Millers from the west and south met Mr. Hoover today and pledged their co-operation in the food administration. The section which would authorize the president to limit, regulate, prohibit or reduce the supply of food materials or feeds used in making alcoholic liquors falls short of the demands of most of the anti-liquor elements. A majority hopes for absolute prohibition of the use of grain for beverage purposes during the war. They are not agreed on any one proposed amendment, however, and their divisions may result in leaving the present provision unchanged.

Except for the prohibition drive, nothing was in sight tonight to prevent the passage of the measure tomorrow in the House, and the outlook in the Senate for quick action was also considered good.

PLAYED WITH SIR A. CURRIE. WINNIPEG, June 22.—It is interesting to Middlesex people that a Winnipeg woman, Mrs. Harry Johnston, Tandoon Apartments, Winnipeg, avenue, is a first cousin and child playmate of Sir Arthur Currie, commander-in-chief of the Canadians in France. Sir Arthur and Mrs. Johnston were raised together at Stratford, Ont. Mrs. Johnston has two sons overseas. Leslie H. is attached to a at Shorncliffe. The younger son, "Bert," who is just 17 years of age, went overseas with the 90th Rifles and has been in the trenches since September last. This young soldier came through the Vimy Ridge engagements with just two slight wounds.

## SWISS MINISTER IS ORDERED TO REPORT ON THE GRIMM INCIDENT

Berne, Switzerland, June 22.—The Federal Council has ordered the Swiss minister at Petrograd to come to Berne and make an oral report on recent incidents, including the expulsion of Robert Grimm from Russia and his relations with Dr. Hoffmann, former Swiss foreign minister.

### PASTOR'S WIFE DEAD.

Glencoe, June 22.—The death of Mrs. Ford, wife of the Rev. Mr. Ford, took place this afternoon at her home in Concession street. The deceased had been in failing health a number of years, and she had the misfortune to fall this spring, breaking her hip.

Rev. Mr. Ford was pastor of the Methodist Church here several years ago, and upon retiring from the ministry, settled in Glencoe. Mrs. Ford will be greatly missed in this community, as she always took a prominent part in church affairs up to the time of her sickness.

### GENERAL BROADWOOD DEAD.

LONDON, June 22.—Announcement is made that Lieut.-Gen. Robert G. Broadwood has died of wounds received in action.

General Broadwood was born in 1862 and had held numerous important commands in chief, notably in South China and Africa. He fought with the Dongkwa expeditionary force in 1896, in the Egyptian war in 1898 and in South Africa in the Boer war. He had received numerous medals for his brilliant services, and frequently was also mentioned in dispatches.

### LITTLE WORRIES IN THE HOME

These Bring the Wrinkles and Pallid Faces That Make Women Look Prematurely Old.

Almost every woman at the head of a home meets daily many little worries in her household affairs. The care of her little ones, the work about the house all contribute to these worries. Most of them may be too small to notice in hour after hour, but they constitute a constant strain that affects the blood and the nerves and make women look prematurely old. The effect of these little worries may be noticed in sick or nervous headaches, tickle appetite, tiredness after slight exertion, and the coming of wrinkles, which every woman dreads. To those who are afflicted by these worries, Dr. Williams' Pink Pills offer a speedy cure. A restoration of color to the cheeks, and a sense of freedom from weariness. Among the many thousands of Canadian women who have found new health and strength through these pills is Mrs. G. Strasser, Acton, West Ont., who says: "I am the mother of three children, and after each birth I became terribly run-down, and unable to do my household work. After the birth of my third child I seemed to be worse and was very badly run-down. I found the greatest benefit from the pills, and soon gained my old-time strength. Indeed after taking them I felt as well as in my girlhood, and could take pleasure in my work. I also used Baby's Own Tablets for my little ones and have found them a splendid medicine for childhood ailments."

Dr. Williams' Pink Pills are sold by all dealers in medicine, or you can procure them by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Company, Brockville, Ont.

## SIR RODMOND ROBLIN'S TRIAL SET FOR MONDAY

ROBLIN AND OTHERS TO BE ON TRIAL MONDAY

[Special to The Advertiser.] WINNIPEG, June 22.—Sir Rodmond Roblin, Hon. George R. Caldwell and Hon. James P. Howden will be again placed on trial Monday afternoon on a joint indictment charging conspiracy to defraud the province.

"The crown is ready to go on," declared R. A. Bonnar, chief crown counsel, when questioned as to whether decision had been arrived at by the attorney-general.

A. J. Andrews, K. C., counsel for the ex-ministers, declared Sir Rodmond and his co-defendants are ready to proceed at once with the trial. He said it would be better for Sir Rodmond to have the trial gone on with now than later in the hot weather. Sir Rodmond's condition was caused largely through worry over the trial. Mr. Andrews stated that as to the expense of the trial, his clients probably would be ruined in any event, and they did not desire any delay.

### OVER THREE BILLIONS FOR THE LIBERTY LOAN; FOUR MILLION PURCHASE

Washington, June 22.—Liberty Loan subscriptions total \$3,050,326,500, an over-subscription of nearly 52 per cent. The final subscription was officially announced tonight, showing that more than 4,000,000 persons bought bonds, or those of 3,999,000 persons were for sums varying from \$50 to \$10,000, while twenty-one subscribers applied for allotments of \$5,000,000 each, or more.

The New York Federal Reserve District led the list with subscriptions totalling \$1,186,788,400, or more than three times the amount subscribed in the next district, Chicago, \$357,195,950.

WASHINGTON, June 22.—Reported contributions to the \$100,000,000 Red Cross "Mercy Fund" tonight reached \$77,000,000, of which \$33,000,000 was from New York, and the remaining \$44,000,000 from the remainder of the country. Three days, including Sunday, remain in which to raise the additional \$25,000,000 of the fund.

## AIR REPRISALS BY BRITISH WOULD BE DIFFICULT MATTER

Necessary Raid Must Be Far Into Enemy's Territory.

London, June 22.—Public agitation for the adoption of air reprisals against German cities as a reply to recent zeppelin and airplane raids on Great Britain has been the subject of several private conferences between military and political leaders here. The hope was expressed at these meetings that public clamor would not override the safer strategic considerations, and that any elaborate system of reprisals would be postponed until the assistance of American airmen is available.

A Difficult Job. "The German air raids," said an official to the Associated Press today, "were comparatively easy to perform because they were largely over territory in German possession or across the sea, where the enemy airmen could travel unseen and unopposed. On the other hand, British airmen in executing a reprisal must carry a load of bombs over a route that from the start crosses hostile territory. Throughout the fight, our airmen must run the gauntlet of land guns and air fighters. The most expert airmen would be necessary for such ventures, the percentage of losses would be large and the strain terrific on the fliers, and the element of surprise largely would be lacking against the enemy."

Cannot Spare Pilots. "Thus it becomes a question whether the number of skilled pilots and the powerful machines required can be spared without impeding far more important military operations. Although the British army flying corps has a tremendous number of airplanes and maintains aerial supremacy on the battlefield, it must be remembered that the airplane in recent months has been devoted exclusively to military operations. Divisions of even a small number of these eyes of the army would create a serious problem."

According to the Associated Press informant, army leaders while admitting the military value of reprisal raids are unwilling to agree, in fact they distinctly German industrial centres, declare that such expeditions, to be effective, must be carried out on a large scale and an

## WHY DREAD OLD AGE?

It should be the pleasantest time of life and if coupled with good health it is. Many of our most remarkable men and women have won fame and prominence after reaching the sixties, and in lots of cases they have not been robust in youth.

The secret of health in old age is the prevention of bowel disorder. Constipation is the foe to be dreaded. Care in diet is necessary, also the avoidance of harsh cathartics, which only aggravate the trouble.

The ideal laxative for aged people is Chamberlain's Tablets

On account of their mild and gentle action, you hardly realize that a medicine has been taken. Yet the effect is none the less certain, and the tonic properties of these Tablets so build up and strengthen the digestive system that the health is greatly benefited. Try a bottle today.

**CHAMBERLAIN'S TABLETS** 25c

R. B. BENNETT IN HOSPITAL. [Special to The Advertiser.] TORONTO, June 22.—R. B. Bennett, M. P., director-general of national service, is reported to have undergone an operation in Ottawa today.

Until a little while ago she thought them unavoidable. If you have corns don't blame yourself too much. Many an old person has had them fifty years.

YET they have done what you compared them and used old-time, useless treatments.

But what folly it is when nowadays about half the world keeps free.

The chemist who invented Blue-jay made corns forever needless.

Last year some 17 million corns were ended in this simple, easy way.

Just try one corn.

Apply a Blue-jay plaster in a jiffy. Then forget it. It will never pain again.

In two days take the plaster off. The corn will disappear. Only one corn in ten needs another application.

You will laugh at the old ways when you try Blue-jay. You will wonder why people ever let corns hurt. Please start tonight. You have suffered long enough.

BAUER & BLACK Limited Toronto, Canada Makers of Surgical Dressings, etc.
