That the cat show, with its display of aristocratic felinity, has lost none of its old-time power to attract, was shown by the steady stream of visitors which flooded thru the building yesterday. It will continue to-day.

The pussies are as usual on their best behavior and submitted alike with unruffled good temper to being stroked by Gladys or poked with a straw by Clifford, for the youngsters didn't fail to take in the show, and while, apart from the judges and fanciers, nobody knew the difference between a shaded silver and a chinchilla, they enjoyed themselves buggets. tween a shaded silver and a chinchilla, they enjoyed themselves hugely.

Many of the pussies dozed tranquilly, on silken cushions; others viewed passers-by with a complacency born of the knowledge that they were of the elect and precious, and all seemed perfectly content with their surroundings.

perfectly content with their surroundings.

The number of exhibits was about the same as last year. Friction between the two large cat associations of the United States is said to have been responsible for keeping away about 30 exhibitors.

The cat which by some fanciers was given first place among its aristocratic brethren is Saratoga Johnny Fawe II., a very fine specimen of the black, long haired variety. The proud owner is Mrs. Ottolengin of Saratoga Springs, and 'tis said that it would require about the amount of a prince's ransom about the amount of a prince's ransom

to acquire Johnny.

Lady Melba, with her litter of four happy orange kittens, made up one of the most admired exhibits. The owner, J. M. Alexander, of Buffalo, is a Mason, as the names of two of the kittens, Potent Monarch and Veiled Prophet, might indicate.

Teddy R., a sedate tabby shown by Dr. W. J. Tilman of London, was singled out for much notice.

are natural in a struggling republic torn by internal dissensions. "To the victors belong the spoils"—that is one of the tenets of the back-veld political creed; it is held in all sincerity, and perhaps almost unconsciously, by many of them, but it is there, and it influences the policy of a ministry which is maintained by such supporters. But the progressive community which has by its energy and its work built up the fabric of the state, and maintained it thru good times and bad, is to live contentedly and quietly under an administration nominated and appointed on racial lines; the reward of its labors is to be taken by others and used as they like; protest is unpatriotic, for such is the policy of "reconciliation."

Decline of Johannesburg.

Jahannesburg of to-day is but the shadow of that progressive, hopeful town, full of youth and energy, which emerged from the ashes of the long war. The mines are working at greater pressure than ever before, but that spirit of almost buoyant confidence in itself and in the country is gone. Every week some well known figure is missed from the clubs where Englishmen have congregated since the war. On every side is heard the voice of regret that some man, in the prime of life, who had struggled to build up some small business, or had served

approval of some new appointment given to a Boer, he is accused of "fanning the embers of racialism." That is the government defence of their is the government defence of their policy; ministers talk glibly of "reconciliation," but their reconciliation is only being brought about by the elimination of one party. The government assumed office with the good wishes of every Englishman in the colony. They had every opportunity; all men were anxious to think the best of them; early blunders were readily forgiven, and confidence was expressforgiven, and confidence was expressed that they would learn and improve

RABY HAD DIARRHOEA FOR SEVEN WEEKS

Thousands of infants die annually who could be saved by the timely use of DR. FOWLER'S EXTRACT OF WILD

STRAWBERRY. There can be no doubt about it. Sixty-three years experience has proved this sterling remedy to be the best for Diarrhoea. Dysentery, Colic, Cramps, Cholera Infantum, Cholera Morbus Summer Complaint, and all bowel troubles

in both children and adults. Many of the imitations sold are positively dangerous, as they often check the diarrhoea too suddenly and cause

inflammation. Always insist on the genuine Dr. Fowler's. Sold at all medicine dealers

at 35 cents a bottle. Mrs. A. B. De Marchand, Bath, N.B. writes: "My baby was troubled with Diarrhoea for nearly seven weeks." I tried three different doctors, but none of them could do her any good. I was advised to try Dr. Fowler's Extractor Wild Strawberry and less than half a bottle cured her."

See that their name is on the wrappet and the insure getting the genuine.
