THEY WILL BOOST AMATEUR SPORT

Athletic Association of Commercial Club Formed—Out for Field and Aquatic Sports.

The athletic team of the Commercial Club is now the Athletic Association of the Commercial Club. The change was made last evening at a meeting of the team in the rooms in Prince William street, after having been sanctioned by the executive of the Commercial Club. The following officers were elected—President, F. Coombes; vice-president, K. J. MacIver; secretary-treasurer, Dr. Stanley Bridges; executive members, Frank White, A. W. Covey, F. DeForest, A. M. Belding, A. C. Skelton and H. R. McEllan.

The secretary was authorized to affiliate with the A. A. U. of C. It was also decided to conduct field sports in July, August and September. A. W. Covey was appointed chairman of a committee of five to conduct these sports, and Frank White chairman of the committee on aquatics. The aquatic sports will consist of four-oared and single races. It is hoped to have competition from Halifax, and special committees will be appointed to look after their welfare and comfort while in the city. It is also hoped to send St. John oarsmen to Halifax. As a beginning of the new order of things every member of the Commercial Club will be asked to boost the sports to be held this week by the Playground Association. It is hoped the Rockwood Park grounds may be ready for a great field day early in September under the auspices of the new association. It will give every encouragement to the different Improvement Leagues to develop the athletic talent in the different portions of the city.

CLEAR THE WAY FOR BRITISH TEACHERS HERE

Resolution of National Council of Women Today

Discussion on Remedy for High Cost of Living—Daylight Saving Time Question Also Brought Up.

At this morning's session of the National Council of Women Mrs. Hamilton reported on the question of admitting British teachers to teach in Canada and moved a resolution, seconded by Mrs. Murray, as follows:

Whereas, there is a great scarcity of trained teachers in all the provinces of Canada; and

Whereas, trained and experienced British teachers are debarred from teaching in many of the public schools of Canada unless they pass an examination or take a further course of training in Canada; and

Whereas, under existing regulations the certificates obtainable by Canadian teachers do not qualify them to teach in every province of the Dominion, be it

Resolved, that the National Council of Women of Canada do urge the National Council of Education for Canada to take immediate steps to establish a Dominion certificate which will enable the holder to teach anywhere in the Dominion of Canada, certificates and diplomas already held to be accepted pro tanto, so far as the training and standard of the examination taken to obtain them are equivalent to the requirements for the Dominion.

It was strongly recommended that the requirements for this certificate should be a theoretical knowledge of all matters pertaining to Canadian education and citizenship.

Miss Jessie Lawson, St. John, explained that this would put the British teachers on the same footing. The resolution was carried.

LIVING COST.

Mrs. Hamilton also read the report of the committee on economics, which stated that the action had been taken with regard to the high prices of food and clothing. The committee recommended that the national government should petition the Dominion government to provide for the appointment of one commissioner in each province, under the authority of a federal commissioner, whose duty it shall be to co-operate on the matter of prices with the understanding that none of the necessities of life shall be exported till the needs of the Canadian people are provided for.

This was moved by Mrs. McIvor, who delivered a very interesting address on the matter. She first paid a tribute to a pamphlet prepared by W. Frank Hatheway on the question of labor and prices. She said Australia has passed high price legislation. They had a commissioner for every state who ascertained the quantities and costs and later assisted to fix the prices. The result is that prices have gone up only twenty-eight per cent as compared with more than 100 here. What is required is legislation and she suggested the issuing of development bonds. "The banks are bursting with money," she said, "and the people of the country should be allowed to become shareholders of the country's development."

Mrs. Adam Shortt of Ottawa said that the board of commerce was still in existence and the formation of a substitute body would be expensive proceeding. She said the reason Australia's prices were lower than ours was due to the fact that during the war the marine menace prevented the export of products. Hence that country was able to secure a great quantity of home economic stuffs while Canada was called upon to assist in feeding the empire.

Mrs. A. M. Murray said that the resolution proposed a system of boycott and there was a possibility of reprisals, including the export of hard coal from the United States.

After further discussion the resolution was lost, 27 to 22.

The committee further recommended that the council strongly urge that the school curriculum include home economics rather than domestic science alone as at present taught.

Miss Carrie Carmichael, New Glasgow, suggested that in view of the confusion resulting upon the adoption of daylight time the council should ask the government to pronounce on the matter. She referred to the matter of the mail situation in St. John as a result of this confusion. It was decided to leave the matter to the business.

In connection with the report of the committee on laws for the better protection of women and children, Mrs. Muir Edwards recommended that women be appointed to juries in all cases where women are concerned; that legislation be enacted giving the same rights to homestead to women as to men; that adultery be made a crime; that extension of the indeterminate sentence be made to all convictions for sexual offences under the criminal code; that the age of juvenility be raised to eighteen years and that each local council consider a remedy for the evil of men and women living together in irregular unions. All carried.

In this connection Mrs. Hamilton moved that the council urge the appointment of women inspectors in institutions where women are confined. The matter was carried unanimously.
