RED HAT TO THE NEW CARDINALS

Public Consistory Held Today At The Vatican

BRILLIANT CEREMONY

Impressive Scene as Pope is Escorted to and From Consistory—Cardinals Receive Rings and Are Given Privileges of Their Position

(Canadian Press) Rome, May 28—A public consistory at the Vatican, at which the red hat was conferred on those of the thirteen new cardinals created on Monday, who are now in Rome, including Cardinal Begin of Quebec, was held today and was attended by several thousand people, most of whom were foreigners. A special mission will be sent to take Barretta to assist Cardinal Begin.

The ceremony attracted much attention even outside the Vatican, the public being interested in the departure of each cardinal from his residence to go to the apostolic palace. The papal procession and ceremony which followed were conducted with great pomp. The passage of the Pontiff, surrounded and followed by many ecclesiastical, military and civil dignitaries, both going to and returning from the consistory was most impressive. After the consistory the cardinals, both old and new, gathered in the Sixtine Chapel to return thanks and then presided over by the Pope in the consistorial hall, where Pius X bestowed the cardinal's ring, granted them the privilege of their position and named their titular churches.

Durbar's horse capturing the derby. Mr. Durbar was the largest individual winner.

The great Surrey foal stakes, five furlongs for two-year olds, was won by King George's Friar, Marcus Bright was second, and Cherry Hinton was third. The Royal Stakes handicap of six furlongs for three year olds and up was won by P. Broome's Neville Holt, Bugler was second, and Jarnac, II third.

U.S. Steel Corporation Plans Ten Million Dollar Plant In Canada

(Special to Times) Montreal, May 28—That the United States Steel Corporation will erect a ten million dollar plant in Canada at the earliest possible moment, was a statement made to your correspondent by a representative of the United States Steel Corporation here. The corporation has already laid aside a reserve fund amounting to ten million dollars, and it

is now only a question of where the plant will be located. This action on the part of the company, of which Andrew Carnegie is head, was decided upon only at a very recent date. It is not improbable that this plant, which it is proposed to make the largest in Canada, will be located at Montreal, in opposition to the huge Armstrong &

Whitworth plant (an old country concern) now in process of construction on the south shore of the St. Lawrence and on the confines of Montreal. The plant will be the most costly and modern in every respect of any steel plant in Canada and the ambition of the corporation is to gain the same control of the steel production in Canada as it now has in the United States.

Local Bank Figures Add To Evidence of The Sound Position of Affairs Here

The soundness of business conditions in St. John is again illustrated by the showing made by the local banks during 1913. In spite of the financial stringency which has prevailed all over the country and the fact that the banks were curtailing their business to keep within a safe margin, the volume of business showed a substantial increase over the previous year. When the depressing effect of the tight money market upon business is taken into consideration the figures indicate a healthy increase in legitimate commercial transactions which shows how steadily the city is going ahead.

NEW PLAN IN CALLS BY 'PHONE

Affects Long Distance Within Radius of Ten Miles of City

The latest change in the rates of the New Brunswick Telephone Company is one which will be hailed with satisfaction by many patrons as it will result in cutting down their call charges by almost fifty per cent. The change comes as the result of an application to the Public Utilities Commission, which was granted yesterday.

The new rule applies to all long distance calls within a radius of ten miles. Its result is to allow a rate of five instead of ten cents on all calls when the person calling is willing to talk to any person at the number called. When a particular person is specified no charge will be made unless the person wanted is secured but if the connection is made with the specified person the regular charge of ten cents will be made.

DELEGATES NEAR AN AGREEMENT

Plans For The Extinction Of General Huerta

NEW CABINET OF FIVE

Expected That Protocol Will Be Signed at Niagara Falls Within a Few Days—Meanwhile He Gets Lot of Ammunition

(Canadian Press) Niagara Falls, Ont., May 28—The mediation conferences have been in progress a week today and already many of the essentials of a plan for the pacification of Mexico have been agreed upon. Details are being withheld until there is a complete agreement on all subjects but the main points of the plan, on which both sides at present look favorably, are the following:

Transfer of the executive power in Mexico City from the hands of General Huerta to a provisional president and four cabinet ministers. This talked of body has often been referred to as a commission or junta. These five men would share equally the responsibility of putting into operation a programme adopted at the conference here as soon as practicable for new elections for president and vice-president and members of congress. The five men would be neutral persons so far as political affiliations are concerned, but would be representative of the various factions acceptable as possible to all the factions in Mexico, including the Constitutionalists, and approved also by the American government.

Prompt recognition of the new provisional government would be given by the United States. The withdrawal of American troops is expected by the Mexican delegates to follow as a matter of course, as soon as the new government is installed. While there may be no formal declaration on the subject by the Mexican delegates a tacit understanding has been reached that the United States will regard as legal the financial transactions of the present Mexican government.

It is believed with confidence that an agreement or protocol will be drawn up and perhaps signed within another week. The mediators are anxious for a speedy settlement as are also the Mexican delegates. The Mexicans hope, too, that no time may be lost in setting up the new government after the signatures are fixed to the protocol. Already they have General Huerta's approval for the main points of the plan. They came to the city in 1911 to mediate between the warring factions and he has been giving his approval to their work. The interests of the Constitutionalists are being kept in mind by the mediators. The names agreed upon for the new provisional government are expected to be such as the Constitutionalists might endorse.

Huerta Gets Ammunition

Washington, D. C., May 28—As against the predictions that a protocol would be signed by the Huerta and American delegates at the Niagara conference next week, come reports that the Hamburg-American steamer Ypiranga has delivered ammunition for the Federal army in Mexico. The American government, yet the incident recalls the occupation of Vera Cruz to be the landing of the very same cargo that will now reach Huerta through the Tehuantepec railroad port. Whether the Federal dictators would attempt to make any explanation of the use to which he intended to put the ammunition was a topic of interest here today.

ALL DEPENDS ON WILLINGNESS OF THE DICTATOR TO RETIRE

(By Laurence Tod, staff correspondent of the International news section, Federation headquarters) Niagara Falls, Ont., May 28—An agreement has been reached by the Mexican and American delegates on six important points. In mind by the mediators. The names agreed upon for the new provisional government are expected to be such as the Constitutionalists might endorse.

Retirement of Huerta from the provisional presidency. 2. Huerta will be given an opportunity to be a candidate at a new election if he is justified. 3. The Constitutionalists are to be allowed to make Carranza or any other man their candidate. 4. New Mexican congress, which will be put under a moral obligation, to bring about a distribution to the Peñas. There will be amnesty for exiled Spaniards and all factions of Mexican citizens. 5. The American flag is to be saluted on the order of a provisional president to be chosen in a conference of all factions.

The success or failure of the negotiations hinges upon Huerta's decision as to the first point, that requiring his retirement. Washington, May 28—Within twenty-four hours General Carranza will put his name on his report to the mediation conference before Secretary of State Bryan.

FATAL SHOOTING OVER A DOG TAX

Constable Probably Mortally Wounded; His Assailant Kills Himself

Livermore Falls, Me., May 28—Constable Howard P. Berry was shot, probably fatally, while attempting to arrest Lincoln G. Wyman, whose dog he had just killed because of Wyman's failure to pay a dog tax. There was an exchange of shots, according to Berry's driver, at the conclusion of which Wyman disappeared.

Constable Berry, accompanied by J. H. Crosson, proprietor of a garage, went to the Wyman farm at South Livermore and called at Wyman's door. "You have shot my dog?" exclaimed Wyman, according to Mr. Crosson, who witnessed the whole affair. He returned the fire with his revolver but was thought to have missed the mark. Trade Follows Value

This is a merchandise axiom well borne out by experience. Value does not necessarily mean low price. It may more likely mean superiority of service or of quality.

THE HARBOR WORK

Another Step Following The Visit of C. P. R. Officials

Matters relating to harbor development and the preparation of adequate facilities for the business expected next year were dealt with by the council of the board of trade at a special meeting today, called to consider the suggestions made by Captain Walsh, marine superintendent of the C. P. R., and G. O. Ommancey, special engineer to Sir Thomas Shaughnessy.

The suggestions were considered in detail and referred to the chairman of the traffic committee for further action. He will take up with the city council those matters with which the city is concerned and with the federal government the matters affecting their work in the St. John harbor.

The recommendations of the C. P. R. men covered a fairly wide scope and some of the matters dealt with can hardly be undertaken immediately. They will all be presented to the government, but special emphasis will be laid upon the necessity of taking immediate action regarding the improvements which are absolutely required for the coming winter.

OIL FIND NEAR CALGARY IMPORTANT BUT BEST TO AWAIT DEVELOPMENTS

London, May 28—The Financial Times, while admitting that the Dingman oil well near Calgary is an important discovery, capable of good results under sound management, regrets that so large a number of Canadians appear to have lost their heads under the circumstances. It warns English investors to beware of flatterers appearing in London in connection with this discovery, until the development of the oil deposits has been more convincingly established.
