## CHOIR OF 50 PYTHIANS AT ANNIVERSARY

Local Knights to Attend Church Service in Body on Feb. 19  
—Visit From Supreme Chancellor Looked for Soon

The Knights of Pythias of this city have decided to commemorate the anniversary of the founding of the order by a church service to be held on Sunday, February 19, at 4 p. m. As the anniversary falls on Sunday this year it was thought that a church service would be the most fitting way to observe the arrangements are not altogether completed yet but a large committee from the three lodges have the details in hand and will announce later where the service is to be held and who will be the speaker.

A feature of the service will be the singing of a male choir composed of fifty members of the order. The idea of having the service in the afternoon is to afford members who are connected with lodges in city churches to attend, without interfering with their regular engagements.

It is probable also that in the near future the local lodges will receive a visit from the supreme chancellor of the order, Hon. George E. Hanson, of Calais, Me. He is not known just when the supreme chancellor will come but it is likely that he will be entertained by the knights here in a manner fitting to his high rank in the order.

## REPORT IN FAVOR OF THE PAVING

Nelson and Pond Streets This Year and Mill and Dock to Follow — Granite Blocks For All

The sub-committee of the board of works appointed to report on the recommendation of the engineers that Pond, Nelson, Mill and Dock streets, be paved with granite blocks, held a meeting this morning and decided to report in favor of the recommendation being carried out. The committee recommends that tenders be called for paving the four streets, and that it be considered that the city should not undergo the expense of the work this year, that Nelson and Pond streets, at least should be paved this year.

It was also decided that the property owners in these streets should be notified to put the service pipes leading into their premises, into proper condition. There was some discussion as to the advisability of putting down some other material instead of granite, but it was the opinion of the members that for heavy traffic, granite blocks would be the most desirable.
