

THE INGERSOLL CHRONICLE AND CANADIAN DAIRYMAN, THURSDAY, OCTOBER 19, 1893.

WORLD'S FAIR LETTER.

Tables and Cheese, WORLD'S FAIR GROUPOS, JACKSON PARK. The fates have been kind to the White City. From the first of June till the past week or two, hardly a drop of rain fell. The semperature has at no time been excessively hot, and there was never a day unprepitions for sight-seeing till the last of S-ptember. And fortunate it was for the World's fair that such was the case, for the surface drainage of the grounds is not perfect, a little rain quick-by forms puddles, and the thousands of feet chura the streats into lakes of mud. Of course the bulk of visitors who are here under expense, and whose time is invited, will take all kinds of weather, be as a rule, since the rains came, the flactuations in daily attendance have been from 30,000 to 90,000 according as the sun shone or the skies were leaden. During the wesk just closed the daily avainesions varied from 42,000, For several days the railways have been actually swapped for lack of cars to carry pas-sengers and power to hall them, and made the railways the close were un-able to obtain transportation. To days arrivals are estimated at 200,000, and every fatel in the vest known of them, are to be out and.

THE SHEEP EXHIBIT.

THE SHEEP EXHIBIT. THE SHEEP EXHIBIT. Resuming the subject of sines where twos left last week, we come to the Dorset Hozns, which are a novely in the two starts week, we come to the Dorset hozns, which are a novely in the two stores to not store two stores. The Dorsets are a small bread, the fleeces not buy only the store of the store two stores. The Dorsets are a small bread, the fleeces not buy only and the store of the store two stores and the stores to not store two stores the ing on both rans and ewes, and are a valuable feature in protecting them from the attacks of dogs—in fact, their admirers claim that they are dog-proof, which of itself would be enough to re-commend them highly in most parts of Outrie. The Outurio prize winners were J. A. McGilturay of Uxbridge, and The Most and the store a some \$765 be-tween them. Southdown mutton is a 'household word anongeopeieures, and a grand ar-ray of fine animals was set before the judges in this class. The have a beau-ting quality of wool, short legs, thick, deep hody and a soft grey countenance. In the Southdown class the first really **Bat Bate Fart**.

Mr. Murphy—Sivinty foive cints an hour fur a chair that 'ud ownly carry wan? Well, not so long as Oi can re-mimber me thrade !—World's Fair Pack.

WORLD'S TAIR ALETTER, ONTARIO'S PRIZE WINNERS IN THE SHEEP EXHIBIT. The Brooks Represented at the Exhibi-tion-Same Statistics on the Attend ance-Recent Arrivals of Ontario Verget tables and Cheese. WORLD'S EAR GROUNDS, JACKSON PARK. The fates have been kind to the White fill. The stemperature has at do time been excessively hot, and there was never a day unprepitious for sight-seeing til the association of the search at the sector tables and cheese. World's fair and biose who are entitled the attend to the White fill. LOVE IN THE DARK,

Middlesex, and W. H. Beatty of Wilton Grove, and so far as I was able to learn no bint of partiality or unfairness was whispered against them, in spite of the deep cut made by @ntario into the prize money.

whispered against them, in spite of the s deep cut made by Gatario into the prize money. The sheep, or such of them as are un-sold, will be returned to Ontario about the middle of next week. A large num-ber of sules of sheep and swine have been already made and it is likely there will be more. The fat stock, thorough-bred horses and poultry will come to-wards the end of next week, the judg-ing to begis on the 16th isst. Querulous folk are apt to ask what good will result from the spending of so much money, and how will it pay On-tario? In no other way could the name of Ontario have been so well advertised to the world, or so much attention been attracted to our natural products. The sheep sales I have alluded to above, and besides these there is likely to be a de-cided boom in fruit, as American buyers are constantly inspecting our magnifi-cent display, and inquiring where it can be bought. Fruit is coming in at the quality is uniformly good. The lists of awards are now being published and as I foreshadowed, a very large number are coming our way. In small fruits alone we have had some 180 samples placed, and that is but a beginaing. The vegetable court continues to at-tract great attention, and strange to say it is the only one in which a really com-plets show of field roois and vegetables in made, though some of the States make is neader threat on the states make is neader threat on the states make is neader to the almost total failure of the are carrived consignments selected from it be potatoes are particularly good, and it wiew of the almost total failure of the are carrived consignments calent quality. The potatoes are particularly good, and in view of the almost total failure of the aron and beswhere have taken a good deal of notice of them and will prist. Othario this fail to make pur-thases. The October cheges exhibit has arrived and is being installed by Mr. J. H. Rud

THE MARRIAGE RELATION. The Most Solemn of all Contracts Enter ed Into by Men and Womer

ed Into by Men and Women. The most rolemn obligations engender-ed in any earthly contract are as uned through marriage. The entire life of man and woman entering into the state of matrimony undergoes a transforma-tion. Each assumes an interest in an-other's welfare that calls for considera-tion at the expense of self-interests, for each has the power to exait or debnse the life thus united with their own. Humanity at large has a vested interest in every matrimonial venture, in the influences radiating from the home center which each married couple create. No one truly worthy the privileges of

Influences radiating from the home center which each married couple create.
No one truly worthy the privileges of married life will enter the estate instity or selfishly; effects upon the possible lives that may come under their charge will always be a consideration with wiss heads and just hearts. Society has a right to protest against the acceptance, by any girl, of a moral leper as the father of her children; even if a fascination bewilders her own pure institucts, and leads her to believe the sacrifice of her pure life to the service of reformation is justifiable.
"The sins of the father shall be visited upon the children." It is the ignorant disregard of this sacred warning that has filled the world with fainted human bodies, dastorted moral natures and befogged intellects. Every girl who accepts as a husband a man of immoral habits is a participant in a crime resulting in unfold human miseries. No less evil is the man who confers motherhood upon unworthy woman. The silly, sellish girl who through vanity and ignorance distorts her physical construction and destroys her mental and physicat yigor, is unworthy that crown of womanbod, while the simple child who would marry for the excitement of a wedding, a few fine clothes and the till; is the most pitiable spectacle of the debased social condition that has produced untelligent woman and considered her available in marringe. What the world heads to-day is women capable of strength in wifelood and of noble intelligence in motherhood, welding with pure-hearted, pure-social questions and adjust many human ills.
It is the mother's duty to train her children from comparatively early years intelligently to understand the sacredness of the relation, yoligations, both physical ending in the relation, yoligations, both physical ending the and physical ying in cuaracter for the holy noving the and physical would lead to a qualifying in cuaracter for the holy privilege.

Purity in thought, a noble altruism in Purity in thought, a noble altruism in demeanor, and physical vigor, a desire to make a hearthstone of home an altar before which the Christly principles should daily be enacted should be the preparation for, and leading motive in the enactment of marriage. Then the harvest of love shall be reaped in happi-ness and benefit to all humanity. Child-ree nourished in the atmosphere of love and purity will go forth to bless the land and do home to the parents who made of home a sanctuary, and marriage a pure fulfilling of divine law.—House-keeper. eper.

The Advertising

The Advertising Of Hood's Sarsaparilla is always within the bounds of reason because is is true; it always appeals to be sober, common sense of think-ing people because it is true; and it is always fully substantiated by endorsement; which, in the financial world would be accepted without a moment's hesitation.

Each inch of the male infant corresponds to 2.56 pounds. Each inch of the female in-fant corresponds to 2. 62, pounds. Use Skoda's Discovery, the great blood

and nerve remedy. Give the fuchsias a thin shading and plenty of air, and with liquid manure water now and then.

From The Far North.

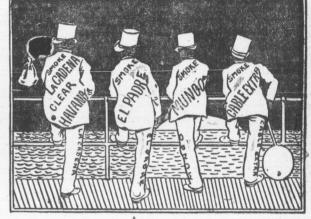

In northern climates people are very sub-ject to colds, but the natural remedy is also produced in the same climate. Dr. Wood's Norway Pine Syrup curps coughs, colds, hoarseness, asthma, bronchitis, and all throat and lung troubles. Price 25c, and 50c.

Cures Others

Will cure You, is a true statement of the action of AYER'S Sarsaparilla, when taken for diseases originating in impure blood; but, while this assertion is true of AYER'S Sarsaparilla, as thousands can attest, it cannot be truthfully applied to other preparations, which unprincipled dealers will recommend, and try to impose upon you, as "just as good as Ayer's." Take Ayer's Sarsaparilla and Ayer's only, if you need a blood-purifier and would be benefited permanently. This medicine, for nearly fifty years, has enjoyed a reputation, and made a record for cures, that has never been equalled by other preparations. AYER'S Sarsaparilla eradicates the taint of hereditary scrofula and other blood diseases from the system, and it has, deservedly, the confidence of the people.

AYER'S Sarsaparilla

"I cannot forbear to express my joy at the relief I have obtained from the use of AYER'S Sarsaparilla. I was flicted with kidney troubles for about six months, suffering greatly with pains the small of my back. In addition to this, my body was covered with pimply eruptions. The remedies prescribed faided to help me. I then began to take AYER'S Sarsaparilla, and, in a short disappeared. I advise every young man or woman, in case of sickness power of the case may be, to take AYER'S Sarsaparilla.' — H. L gar-mon 33 William st., New York City.
