CANNED SALMON WAS ALL GOOD

BRITISH COLUMBIA'S PRODUCT STANDS TEST

Remarkable Showing Made on Anaylsis of Output From Province.

A late bulletin (No. 150), issued from the labratory of the Inland Revenue Department at Ottawa, contains the result of the examination of A. McGill, the chief analyst of samples of canned salmon. Practically all the brands examined are from B. C. canneries. Six samples were taken from each inspectoral district in the whole of Canada and an analysis made.

That B. C. salmon is put up in the very best of condition is proved by the fact that all the samples taken promiscuously were found to be in good condition and true to name.

The names of the packers and the brands examined were as follows: B. C. Packers Association, Vancouver, B. C., sold as Eagle Brand.

West Coast Packing Co., Newfoundland, labeled Solid Red Brand New-

g FAVORED FRUIT **GROWING DISTRICT**

OPINION OF ALBERNI

Great Bulk of Valley is Adapted Both in Soil and Climate.

Alberni, May 12.-In the course of an Messrs Brandrith and M. Smith arrived of the 8th, in an orchard in town, Mr. Brandrith gave a practical demonstra tion of fruit tree planting, pruning and training. Every point was dealt with from the aspect of how to make a commercial success of fruit growing. Many questions by the interested audience brought out much valuable informa tion from Mr. Brandrith's long personal experience. He recom harrows, and harness adjusted to do away with the use of single trees on implements.

For use on trees to prevent apple bark disease he advised the use of the Niagara brand of spray. This consists of lime and sulphur, without the salt formerly used and cooked at a tempera-ture of 310 degrees.

At the close of the meeting Mr. Brandrith, who is the secretary of the B. C. Fruit Growers association spoke of the good work done by that body the association was at first in a very small way it had brought into the province at a large expense an expert fruit packer whose instructions had proved of the very greatest benefit. It had then turned its attention to providing for the members a supply of all material for fruit tree spraying at the lowest wholesale prices and of guaranteed purity. Succeeding in this it had now gone into the question of paper for fruit packing and as an illustration of the present extent and influence of the association he instanced the fact that it had to-day orders for over eight tons of this paper from its own mem-

An indoor meeting was held in the evening in Brandt's hall which was addressed by both gentlemen, Maxwell Smith, dominion fruit inspector and secretary of the Northwest fruit growers association spoke briefly on the nature and scope of his official work

ing generally.

He endorsed Alberni as a fruit growing district and gave it as his deliberate the soils in the eighborhood and his knowledge of the that the great bulk of the valley was well adapted for fruit growing. Asked Jonathan was less subject to the bark blight disease which appeared so prevalent among the local orchards. A hearty vote of thanks was tendered to the speakers of the evening.

Farmers' Insurance At the same neeting C. S. Hubbs, manager-secretary, of the Mutual Fire Insurance company of B. C., spoke, He explained the his company was purely practically to farmers and other country residents. By combining together in this way farmers were enabled to get their insurance at actual cost instead of having to pay higher rate to help out the greater risks in

The company was now in a strong position with 1150 members and a large and rapidly increasing business. He advised the farmers of the district to support a company which was in a position to cater specially to their needs.

Election of Fire Wardens, At a public meeting held last week by the citizens of the town it was decided to ask the government agent to take the necessary steps to call into operation the provision of the village fire
