way, but will result in ultimate good. Transportation facilities have been improved immensely, and a railway may be running into Dawson next spring. A false report circulated in the north some time ago caused small dealers up there to delay importing their supplies, and, as a result, there is a bad congestion of freight on the way up. Mr. Collyer says that Dr. Wickett, who was sent to the Yukon to look into the trade question for the Canadian Manufacturers' Association, made a thorough investigation, and his report is worth every consideration. Canadian manufacturers have never made a determined effort to secure their proper share of the trade, and have lacked the persistence and "fight" of their United States are falling off greatly now, and the Northern Commercial Company have this year, for the first time, bought a large quantity of their supplies in Canadian cities. Dawson City enjoys a good mail service during the summer, but, during the winter months, letters alone are carried. The money-order business of Dawson is said to be the largest in the world.
