NEWSPAPERS ON STOCKS.

(F. B. McCURDY & CO.)		
New York, Sept. 11.—Herald—With the publication of the crop report and Senate's passage of the tariff bill, there is nothing left to alarm investors.		
Commercial—One reason for the market strength is the return to these shores of several of the men whose influence, if exerted, counts heavily on the stock market.		
Sun—Short covering accounts largely for movement of prices.		

CLOSING LETTER
ON MONTREAL
EXCHANGE

(F. B. McCURDY & CO.)

Montreal, Sept. 11.—The local market was strong and active today, an unusual number of issues scoring advances.

Laurentide, which has been showing some strength this week, made a net gain of 6 3/4 points, going from 159 to 165 1/4. From time to time recently there has been unusual enquiry for Laurentide and it is figured that so soon as the money money would show an improvement this stock would be one of the first to indicate a turn in the situation.

R. & O., which sold down to 108 yesterday morning, advancing to 110 1/2 today. The strength following upon the announcement that considerable progress has been made in connection with the organization of the Canada transportation lines and that final arrangements in connection with the transfer of some of the companies to be included will be made within a short time.

Montreal Power Rights were selling around 10 1/4. The new issue is proving popular with a number of investors and it is understood that a considerable portion of the rights has gone to London. The stock sold up to 219 at the close of the afternoon, a gain of 4 1/2 points over yesterday's close. This stock will be without the rights after tomorrow.

Cotton issues were prominent today. Dominion Textile sold up to 86 1/4, as against 85 1/2 yesterday. Canadian Cottons Common was strong, selling up to 38 1/2. The preferred was steady at 77 1/4. All the Canadian Cotton companies appear to be doing satisfactory business and it is understood that the plants of all the larger companies are working at practically full capacity. Dominion Steel continued strong, working up to 49 1/2. Not a great deal of interest was taken in Cement Common, the attention of the market being largely fixed on other issues. It opened at 34 and sold down to 33 5/8. The preferred was unchanged at 93 1/2.

C. P. R. was a strong stock at the close, selling up to 224 locally in the afternoon. The company showed another decrease in earnings for the first week in September, of \$153,000. This is regarded as considerably better than the showing made for the last ten days of August, when a decrease of \$464,000 was recorded.

Brazilian Traction was a little off today, closing at 93, although it was reported quite strong in London today. The movement in this issue has been a little irregular of late. It is understood that the stock is being quietly accumulated in anticipation of big increases in earnings following upon improvements which were made to the plant during the summer.

Quebec Railway showed an inclination to sag, opening at 13 1/2 and selling down to 12 in the afternoon. Very few sales were recorded. The bonds were also a little easier at 47. There was some enquiry for Dominion Bridge, the stock selling at 122 in the morning. Later it declined to 120 3/4 and closed at 121. At the close sellers were asking 122. This stock is well thought of among industrial issues, more particularly as reports recently issued indicate that business has continued good with the company.

F. B. McCURDY & CO.

NEWS SUMMARY
AFFECTING
MARKET

(F. B. McCURDY & CO.)

New York, Sept. 11.—Foreign market sentiment is more cheerful. Boston financiers endorse the New Haven bond issue and the ownership of the trolley and steamship lines. The ruin of the New Haven is predicted at the output at the mines in the Lake district is about one-ninth of normal. The strike has lasted seven weeks. Union Pacific directors are scheduled to hold an important meeting today. Bullish tactics should continue. Stocks that have been dragging may be brought forward. Those that have advanced sharply may mark time under profit taking temporarily. We would be friendly to stocks on moderate recessions. There are too many bulls to allow the market to decline much. Atchison may do better. Reading is bullish in certain quarters. U. S. Steel is reported oversold. There are offerings near 135 in Union Pacific and toward 79 in Amalgamated Copper. New Haven is oversold. Southern Pacific is said to be raising. A. G. R. Can, B. S. A. O., Rubber and Virginia Chemical.

COTTON LETTER

(F. B. McCURDY & CO.)

New York, Sept. 11.—The market has been very much less active today and fluctuations have been irregular as though sentiment were becoming mixed or a little better divided. The market opened at an advance of 8 to 13 points. This reflected a renewal of the support seen toward the close of yesterday and the gossip attributed to Pell interests buying through Gwathmey. Retailing caused the market off to a shade under the closing figures of last night from which it rallied to nearly to opening figures then weakened again on reports from New Orleans of a poor demand for ocean freights and talk of easier spot markets in the Atlantic. This caused prices off to about the low of yesterday afternoon, after which fluctuations were irregular.

E. & C. RANDOLPH.

CLOSING COTTON
LETTER FROM
JUDSON & CO.

(J. C. MACKINTOSH & CO.)

New York, Sept. 11.—Cotton market opened steady at an advance of 8 to 12 points. According to this morning's gossip the heavy buying by brokers yesterday was for the Pell interest. The selling of one of the big Broadway houses was attributed to Canadian account. Pell brokers were credited with buying freely again this morning. Covering seems to be the chief source of support during the noon hour.

Trading was quiet with Oct. relatively steady, some think that spinners would be very active buyers on declines, but the general talk is that they are not willing to buy freely on declines carried prices to the low level yesterday. The market has been less active today than at any time since the bull movement started and fluctuations have been sufficiently irregular to suggest an unsettled if not a better divided sentiment.

POTATOES—70 and 80 cents.

HEAVY MARGINS—
STEADY MARKET

The highest profits made by any

industry in the world are in the SILVER BLACK FOX BUSINESS, for which unquestioned authorities predict a magnificent future.

Government investigations show that less fur is produced and more being used than ever before.

The decrease in fur-bearing animals has resulted in advanced prices, and all valuable furs will be ranch bred in the near future.

The acceptance of SILVER BLACK FOX FUR as the choicest and most valuable is time honored and not a vogue.

SILVER BLACK FOX FUR has, for centuries, been used by the Royal Families of Europe and by people of the greatest wealth and fashion.

The WORTH OF SILVER BLACK FOX FUR is standardized almost as fully as the diamond among precious stones, and like the diamond, the SUPPLY HAS LITTLE, IF ANY, CONNECTION WITH THE PRICE.

THE DALTON-HOWATT
SILVER BLACK FOX
COMPANY, LIMITED,

of Coleman, P. E. I.

Offers you the BEST PROPOSITION about the fur trade—All standard bred (EIGHT BEING TESTED BREEDERS), including the famous Dalton-Lewis-Raynor strains, besides FOUR EARLY PUPS to breed next April.

If breeding results of next April equal those of last spring, we will pay 100 per cent dividends.

DIVIDENDS

from Breeding Results, would be as follows:

4 Pups to the pair, 133 p. c.

3 Pups to the pair, 100 p. c.

2 Pups to the pair, 66 p. c.

CAPITAL \$165,000.

Consisting of 1,650 Shares, at \$100 each. Only 10 p. c. down, balance till September 15, 1913.

OFFICIALS

President, HON. J. E. WILSON, Cabinet Member of N. B. Government, and a most prominent and successful business man.

Director, J. E. DALTON, one of the most prosperous and successful men in the Silver Black Fox industry.

T. MAJOR HOWATT, ranch manager, DR. T. E. BISHOP, a most prominent and successful local medical practitioner.

B. INNES, B. C. L., Secretary-Treasurer.

or Dr. A. E. Bishop, 173 Germain St.

CLOSING STOCK
LETTER FROM
RANDOLPH

(F. B. McCURDY & CO.)

New York, Sept. 11.—The opening was dull with unimportant price changes with the exception of some heaviness in U. P. The general market was inclined to be heavy, although there was but little pressure of stock. The dullness became so great around mid-day that even the professional traders seemed unwilling to attempt to move prices in either direction. In the afternoon Southern Pacific was the most active and strongest stock, being bought apparently on its intrinsic value, and rising to the highest level touched since the success of the distribution became assured. U. P. also held well. The industrial list was rather neglected, although several specialties showed marked strength. Canadian Pacific showed about the best tone amongst the standard rails and just before the close some vigorous buying carried the price up to the highest of the day.

Sales, 263,000; bonds, \$1,310,000.

E. & C. RANDOLPH.

DOW JONES CO'S
SUMMARY OF
NEWS

(J. C. MACKINTOSH & CO.)

New York, Sept. 11.—J. P. Morgan explains New York Central financing to Interstate Commerce Commission. Union Pacific meeting today at 11:30 a. m. President Wilson tells Senate committee currency bill must be acted on immediately and that there will be no recess of congress until measure is agreed upon. Railroad arbitration board holds its hearing today. Illinois Central reports 6.01 per cent for year ended June 30th, 1913, compared with 3.17 per cent in 1912. John A. Moffitt sent to Calumet by Secretary of Commerce and Labor to confer with Western Federation of Miners on settlement of copper strike. Department of Agriculture estimates total cereal crop at 111,454,000 tons, or 20.10 per cent less than 1912 and 1.4-10 per cent more than 1911. Senate confirms nine nominations to commission in industrial relations. Americans in London irregular, one quarter up to three-quarters off. Twelve industrials advanced 32 per cent. Twenty railroads advanced 1.03 per cent.
