WHERE THE LAST LOAN WAS SPENT

Before investing the Victory Bonds 1919, the average citizen wants to know what became of the millions that were subscribed to last year's loan. And he is quite right; everyone should be interested in the expenditure of such a huge sum of money as \$10,000,000, which was the amount raised in the last loan.

Canada asked for \$500,000,000 last year. She asked for it to carry on the war, and to provide credits for Great Britain and the allies.

The fact that the war ended before the last loan did not mean that no money was needed. The reverse

was very much the case. Demobilization took as much funds as did carrying on the war. More than half the last loan was spent on the soldiers. The cost of paying them, feeding them, bringing them home, keeping their dependents, maintaining the hospitals and re-training the disabled men amounted to \$312,900,000. Gratuities have amounted to \$59,000,000 up to date.

Great Britain and the allies have been given credit for \$239,100,000 which was spent in food stuffs in Canada. This money was in reality lent to these countries, and will in time be paid back with interest. If we had not been able to lend these countries the money they would have bought elsewhere which would have spelled hard times for Canada.

Episcopal church, was presented with a travelling bag, military brushes and cuff links on the last Sunday in September. The presentation address was made by Mr. M. E. Baldwin, who referred to his long and faithful services in the parish and the great work he accomplished in clearing the church building of the heavy debt which he found upon it when he came here, and concluded with an expression of goodwill and best wishes from the congregation for his future.

RAVAGES OF THE SPRUCE BUD WORM ARE EXTENSIVE

Fredericton, Oct. 5.—Prof. J. D. Tophill, superintendent of the Dominion Entomological Laboratory, has returned from another inspection of extensive timber areas on the Miramichi and Renous on which the balsam, fir and spruce and been so badly damaged by the spruce bud worm.

Dr. C. Gordon Hewitt, Dominion entomologist, who was sent here to make a thorough inspection of conditions, has returned to Ottawa, and up on his recommendations will depend the policy adopted to annihilate the pest.

After their first inspection the officials of the entomological branch believed that the spruce was not so seriously affected as the balsam fir, and that it might not die, but it is understood that the reports which will be sent to Ottawa on conditions as they now have been found, state that about 60 per cent. of the spruce in the affected areas may die as the result of the damage done by the spruce bud worm.

W. M. Robertson of the Dominion forestry branch has also returned after inspecting 500 acres of Dominion government lands on which the balsam fir and spruce have been damaged by the spruce bud worm.

Why Every Canadian Will Buy Victory Bonds

TRIUMPHANT, Canada emerged from the war, a nation great in arms and great in trade, a nation respected and admired by the world.

And Canada will continue to hold high her head.

Our obligations to the heroic dead, to the crippled and disabled soldiers, and to the men who were so fortunate as to return, will all be met.

That is Canada's duty.

To fulfill it, every Canadian will do his part.

Canadians will keep the machinery of prosperity humming, the factory chimneys smoking, the sea and lake ports bustling with activity, and the surplus products of farm and factory going forth to Great Britain and other lands.

But to accomplish all this more National Working Capital is needed.

Victory Loan 1919

"Every Dollar Spent in Canada."

The money is here, but it is in the hands of individuals rather than in the hands of the nation. It is in the savings banks, loan companies and generally scattered throughout Canada. For instance, our deposits in banks and post offices have increased in five years from one billion (\$1,086,013,704) to a billion and three-quarters (\$1,740,462,509), an increase of nearly two-thirds of a billion (\$654,448,805).

The people will loan their individual savings to the nation to be used as National Working Capital in maintaining our commercial prosperity.

Every man and woman from every walk of life is interested in maintaining this prosperity. Therefore, every man and woman from every walk of life is personally interested in making the Victory Loan 1919 an overwhelming success.

It will serve to keep Canada in its present place, far up in the vanguard of World Progress.

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.
